Education

- 2006 Ph.D. degree in biology, Department of Evolution, Systematics and Ecology, the Hebrew University of Jerusalem, Israel.
– Thesis title: Geographic variation of morphological characters in the venomous snake, *Echis coloratus*: Environmental correlates, taxonomic and practical implications.
- 1988-94 M.Sc. degree in biology and geography, Faculty of Natural Sciences, Eötvös Loránd University, Hungary
– Thesis title: Niche segregation of three lacertid lizards (*Lacerta viridis*, *L. agilis* and *Podarcis taurica*) on sandy grasslands

Employment

- 2006- Assistant professor, Institute of Environmental Sciences, Károly Róbert College, Gyöngyös, Hungary. Courses taught: etology and behavioural ecology, conservation biology, ecology.
- 2005- B-Media Ltd. (Own enterprise)
– Consultant biologist. Conducting research projects.
– 2005-: Population monitoring of reptiles and amphibians in the Hungarian Biodiversity Monitoring System (HBMS)
– 2006-: Population monitoring of reptiles and amphibians on Natura 2000 territories at the Körös-Maros National Park, Hungary.

- Monitoring a pilot *Miscanthus* (biomass crop) plantation on five hectares. The project aims at the nature conservational and environmental aspects of *Miscanthus* production.
- 2004-2005 Hybys Ltd. (R&D in the field of microbiology, soil remediation, biotechnological development of biomass crops)
- Applications for European Union Funds. International relationships.
 - Building information database on biomass crops, adaptation of the European experiences on the growth and processing of the crop *Miscanthus* to Hungary, review of the international literature on the crops grown for energetic use.

Grants and scholarships

- 2006 LAPBIAT (University of Oulu, Finland).
- 1997-2001 Granted within the program of the Council for Higher Education, Israel, for Foreign Ph.D. students at universities in Israel
- 2001 European Commission's Improving Human Potential (IHP) Access to Research Infrastructures Programme, providing access to European Member and Associated State researchers to undertake short visits to utilize the facilities of The Natural History Museum, UK.

Society memberships

- 2001-: MME, BirdLife Hungary
- Secretary of the Amphibian and Reptile Protection Group, Hungarian Ornithological and Nature Conservation Society (MME)
- 2006-: Hungarian Biological Society

Languages

- Hungarian, English (fluent), Hebrew (fluent).

19 October 2009

Gergely Babocsay

Scientific (herpetology related) publications

Babocsay G. - Talbi R. - Shacham B. - Seligmann H. (In press.): Nocturnal or diurnal? Notes on the daily activity pattern and life history of the Middle Eastern Elegant Racer Coluber elegantissimus (Günther, 1878) (Squamata: Serpentes: Colubridae). Herpetozoa.

Werner, Y. L., Shacham, B. and Babocsay, G. 2006. Novelties in the herpetofauna of Israel and immediate vicinity since 2002. Zoological Society of Israel meeting, Ra'anana, December 2006.

Babocsay, G., Shacham, B. and Werner, Y. L. 2006. A múzeumi gyűjtemények fontossága a biodiverzitás leírásában: Négy újonnan leírt hüllőfaj természetvédelmi és egészségügyi vonatkozásai. Magyar Biológiai Társaság, XXVI. Vándorgyűlés, 2006. november 9-10. Előadáskötet, pp. 193-203.

Werner, Y. L., Babocsay, G., Carmely, H. and Thuna, M. 2006. *Micrelaps* in the southern Levant: variation, sexual dimorphism, and a new species (Serpentes: Atractaspididae). *Zoology in the Middle East*, 38: 29-48.

Kiss, I., Babocsay, G., Bakó, B., Dankovics, R., Kovács, T. & Szénási, V. 2006. Results of amphibian and reptile monitoring between 2001 and 2005 within the frame of the Hungarian Biodiversity Monitoring system. Abstracts of the 1st European Congress of Conservation Biology, p. 126.

Babocsay, G. 2004. A new species of saw-scaled viper of the *Echis coloratus* (Ophidia: Viperidae) complex from Oman, eastern Arabia. *Systematics and Biodiversity* 1: 503-514.
