

## Michael FIBIGER 1945-2011

Our dear friend and colleague, Michael FIBIGER, died on 16 February, 2011, peacefully and in the presence of the closest members of his family. For close on 18 months he had battled heroically and with characteristic determination against a particularly unpleasant form of cancer, and continued with his writing and research until close to the end.

Michael was born on 29 June, 1945, in Hellerup, a suburb of Copenhagen, and began catching moths at the age of nine, particularly in the vicinity of the summer house where they stayed on the north coast of Zealand. By the time he was 11, he wanted to join the Danish Lepidoptera Society but was told he was too young and must wait "a couple of years". So, exactly two years later he applied again and was accepted – as the youngest-ever Member of the Society.

Michael always knew he wanted to be a teacher, and between 1965 and 1970 he attended training college at Hellerup Seminarium. Having graduated, he taught Danish, Biology and Special Education at Gentofte School until 1973. In the meantime, he studied Clinical Psychology at the University of Copenhagen from 1970 to 1976, and from 1973 to 1981 he became School Psychologist for elementary schools and high schools in the municipality of Gentofte, work which involved investigation and testing of children with psychiatric problems, counselling, supervision and therapy. He was also an instructor in drug prevention for the Ministry of Education. From 1981 to 1988, Michael was Vice Deputy for the County Psychologist in the county of Western Zealand, and was involved in adult education in psychology and theory of education, and in a supplementary job in the Department of Leadership,

Address of the author:

Barry GOATER, „The Ridge“, 27 Hiltingbury Road, Chandler’s Ford, Eastleigh, Hants, SO53 5 SR, England. E-mail: [barygoater@tiscali.co.uk](mailto:barygoater@tiscali.co.uk)

giving individual and group coaching and training for leaders at all levels. Between 1992 and 1999, he was Chief Psychologist for Køge and Vallø municipalities, heading a staff of 64, and was administrative and professional head for school psychologists in the two municipalities. In 1999, he joined the Employees' Health Service (BST) in Køge for factories and businesses. From 1988, he was external consultant and lecturer at the Danish Organisational High School, Management Education, Department of Leadership. Amid this busy life, he attended numerous courses associated with his professional work, while still finding time for his hobby, entomology.

In 1969, Michael had the great good fortune to meet Mariann, whom he married in 1971. She remarks that he was always collecting at the time and that she spent many a cramped night in the back of a Morris Minor while Michael put up his light on moors and in forests, adding wryly that she supposes she thought he was worth it! Their first son, Ulrik, was born in 1974 and Christian in 1978, and they all went abroad together in 1985, when Christian was seven years old.

In his youth, Michael worked hard at the lepidopterous fauna of his own country, and his first contribution to the Danish Society's journal, Lepidoptera, in 1968, was to record *Aegeria* (now *Sesia*) *melanocephala* new for Denmark. This clearwing moth is notoriously difficult to locate. The larva inhabits dead side-branches of aspen (*Populus tremula*) and finding it requires the patience and diligence characteristic of its discoverer. Later, Michael not only found new Noctuidae, including *Chersotis cuprea* and *Cucullia lucifuga*, in Denmark, but also the Geometridae *Chloroclysta latefasciata* and *Scopula emutaria*. He was interested in the genus *Eupithecia*, too, and discussed the relationships of the taxa *absinthiata* with *goossensata* and *innotata* with *fraxinata*. In 1974, with N.P. KRISTENSEN, he wrote The Sesiidae (Lepidoptera) of Fennoscandia and Denmark. This small book is of profound significance to me, because after its publication I wrote to Michael about *Synanthedon scoliaeformis* and was astonished to find, in his prompt reply, that he had been about to write to me on Noctuidae! Thus began the friendship between myself, the tyro, and Michael, the guru, that lasted until his untimely demise. Our first actual meeting was at the SEL Congress in Wageningen, Netherlands, in April, 1985. By then, Michael was doing a lot of collecting in Greece, at that time very under-worked, specialising in Noctuidae and planning in his mind what was to become his magnum opus, a series of books on the Noctuidae of Europe. After Greece, Turkey became his main collecting region where, while appreciating the hospitality of the locals, he nevertheless experienced some hair-raising events near the Iranian border. He also managed collecting trips to Spain, Sicily, Crete and elsewhere, and latterly to Nepal, Vladivostok and Yemen, the last another rather "hairy" experience.

Noctuidae Europaeae was conceived as a twelve volume guide to the identification of all the European species, with comments and maps of their distribution, but largely omitting details of their life cycles which were, in any case, mostly unknown. At the time, the taxonomy of the family was in a state of flux, and he decided to use the "traditional" sequence, starting with *Euxoa* and the rest of the Noctuinae and ending with Hypeninae and Herminiinae. Figures of genitalia, except for those of the "critical" species, were omitted and the text was planned in two columns, one in English, the other in French, but the latter was discontinued after the first three volumes. The whole project was supported by a grant from the Carlsberg Foundation. Michael himself had written the first two volumes on Noctuinae, published in 1990 and 1993, by the time it became apparent that the ♂ and ♀ genitalia of all species should be figured, wherever possible. Therefore Volume 3, which came in 1997, consisted mainly of excellent photographs of genitalia preparations, mostly made by the author, and of certain taxonomic revisions and descriptions of newly discovered species. In all subsequent

volumes the genitalia were illustrated, and David Wilson not only produced the first class photographs of the imagines which embellish every volume but also made the exquisitely delicate drawings for the front covers. The 1990's heralded an explosion of interest in the phylogeny of the Lepidoptera which, together with extensive revisions of their classification, had considerable influence on the evolution of Noctuidae Europaeae. While Michael remained Editor in Chief, other specialists were called upon, when ready, to deal with their own groups. Vols 6, Cucullinae I (1994) and 7, Cucullinae II (1995) written by G. and L. RONKAY came next, then Vol. 5, Hadeninae II, by L. RONKAY, J.-L. YELA and M. HREBLAY in 2001 and Vol. 4, Hadeninae I by H. HACKER, L. RONKAY and M. HREBLAY in 2002. Michael himself returned as one of the authors of Vol. 10, Catocalinae and Plusinae, 2003, with A. ZILLI and L. RONKAY in Vol. 8, Apameini, 2005 and with H. HACKER in Vol. 9, Amphipyriinae – Xyleninae, 2007. Vol. 11, Pantheinae – Bryophilinae, appeared in 2009, with Michael again in co-authorship with L. RONKAY, A. STEINER and A. ZILLI. The final volume, Rivulinae – Euteliinae, Micronoctuidae and Supplement to Vols 1-11, was published in 2010. On 21 January, 2011, a grand Reception for Michael was held to celebrate the completion of what was regarded as his life's work.

After the butterflies, the Noctuidae are undoubtedly the most popular of all the Lepidoptera and much, but by no means all of what went into Noctuidae Europaeae was already known. However, among the many small Lepidoptera collected by Michael and presented to the Zoological Museum, University of Copenhagen, the sharp-eyed Ole KARSHOLT recognised a specimen taken by Michael in Turkey in 1986 as a minute noctuid. This began what surely became by far the greatest contribution to the science of Lepidopterology in recent times. Having located specimens of *Micronoctua karsholti* FIBIGER, 1997, as this species became known, from the Greek islands of Samos, Cos, Rhodes and Crete as well as Turkey, Michael began a systematic search for more of these tiny noctuids, during which he combed the collections of un-named "Microlepidoptera" in museums up and down the World and extended his own collecting activities further afield. The results were astonishing. Between the years 2007 and 2010, Michael described a new family, Micronoctuidae, six subfamilies, eight tribes, 38 genera, four subgenera, 200 species plus another 14 in co-authorship, and one subspecies.

In the months before he died, Michael was preparing another important paper on Micronoctuidae, in which he described two more new subfamilies, 13 new genera, 82 new species and two new subspecies. His colleagues saw that it was published shortly after his death, in April 2011. He was also at work with Hermann HACKER on the first part of a treatise on the African Eublemminae, with about 20 more new species, which has yet to be completed and published.

Michael was involved with other projects. He was Editor-in-Chief of Noctuidae Sibiricae by Vladimir KONONENKO, the first volume of which, An Annotated Check List of the Noctuidae (s.l.) (Insecta, Lepidoptera) of the Asia part of Russia and the Ural Region, came out in 2005, followed in 2010 by the second volume in a planned series of four, which covers Micronoctuidae and Noctuidae from Rivulinae to Agaristinae. He contributed to The

Lepidoptera of Europe: a Distributional Checklist, edited by O. KARSHOLT and J. RAZOWSKI. With D. LAFONTAINE, he wrote A review of the higher classification of the Noctuoidea (Lepidoptera) with special reference to the Holarctic fauna (Esperiana 11 (2005), and in the same volume, with H. HACKER, an updated Systematic List of the Noctuoidea of Europe. In 2009, with M. TOP-JENSEN as co-author, the richly illustrated Danmarks Sommerfugle was published, and the two authors were contemplating an English version in the weeks before Michael died.

On 10 February, 2011, Michael was presented with the prestigious H. H. Bloomer Award from the Linnaean Society in recognition of his contribution to Lepidopterology.

It has to be remembered that Michael was, in the strict sense an amateur Lepidopterist. His formal training was in teaching and psychology. He did his early work on Lepidoptera in his free time, and he never worked professionally in a museum or in a science department of a university. Even so, he deservedly earned the respect and admiration of his professional colleagues. He was endowed with boundless energy and enthusiasm which sometimes bordered on the impetuous, penetrating perspicacity and, above all, he had an absolutely charming, kind and generous personality which endeared him to everyone, especially those with whom he went on entomological expeditions.

Michael and Mariann were famous for their hospitality at their home in Sorø; colleagues will retain happy memories of visits there and of the enormous White-tailed Eagle (*Haliaeetus albicilla*), wings spread, which dominated the study area. The entomological community at large will miss Michael grievously, and every one of us offers sincere and heartfelt condolences to Mariann, Ulrik and Christian and Michael's sister, Ulla on their loss.

Barry GOATER

### New subtribe

- Athetina* FIBIGER & LAFONTAINE, 2005. Esperiana 11: 43  
Type genus: *Athetis* HÜBNER, [1821]

### New genera

- Albocosta* FIBIGER & LAFONTAINE, 1997 Noct. Eur. 3: 126-127  
Type species: *Noctua musiva* HÜBNER, [1803]. L.t.: Europe
- Araeopterella* FIBIGER & HACKER, 2001. Esperiana 8: 581-582  
Type species: *Araeopterella sterrhaoides* FIBIGER & HACKER, 2001.
- Basistriga* FIBIGER & LAFONTAINE, 1997 Noct. Eur. 3: 125-126  
Type species: *Noctua flammatra* ([DENIS & SCHIFFERMÜLLER], 1775).
- Bifurca* FIBIGER, ZILLI & RONKAY, 2005 Noct. Eur. 8: 96  
Type species: *Synia myodea* RAMBUR, 1858.
- Capsula* FIBIGER, ZILLI, RONKAY & GOLDSTEIN, 2005 Noct. Eur. 8: 109-110  
Type species: *Phalaena Noctua sparganii* ESPER, [1790].
- Fabula* FIBIGER, ZILLI & RONKAY, 2005 Noct. Eur. 8: 80  
Type species: *Nonagria zollikoferi* FREYER, 1836.
- Lenisa* FIBIGER, ZILLI & RONKAY, 2005 Noct. Eur. 8: 90-91  
Type species: *Noctua geminipuncta* HAWORTH, 1809

### New subgenera

- Iberihadena* FIBIGER & RONKAY, 2007 Noct. Eur. 9: 222  
Type species: *Pseudohadena mariana* de LAJONQUIÈRE, 1964
- Micromima* FIBIGER & RONKAY, 2009 Noct. Eur. 11: 307-308  
Type species: *Victrix (Micromima) bogdoana* MATOV, FIBIGER & RONKAY, 2009.
- Nemus* FIBIGER & HACKER, 2007 Noct. Eur. 9: 159  
Type species: *Noctua pyralina* [DENIS & SCHIFFERMÜLLER], 1775.
- Silva* FIBIGER & HACKER, 2007 Noct. Eur. 9: 158  
Type species: *Cosmia confinis* HERRICH-SCHÄFFER, [1849].
- Ulmia* FIBIGER & HACKER, 2007 Noct. Eur. 9: 156  
Type species: *Phalaena Noctua affinis* LINNAEUS, 1767

## New species

- Abromias minoica* FIBIGER, RONKAY, SCHMIDT & ZILLI, 2005. Noct. Eur. **8**: 135  
L.t.: Greece: Crete, Chania
- Agrotis frater* FIBIGER, AHOLA & NUPPONEN, K., 2006. Esperiana **12**(4): 183  
L.t.: Russia: S Urals, Cheliabinskoblast near Moskovo
- Armada barrygoateri* FIBIGER, L. & G. RONKAY, 2003. Noct. Eur. **10**: 40-41  
L.t.: Russia: Central Predkavkazye, Stavropol dist.
- Araeopterella sterthoides* FIBIGER & HACKER, 2001. Esperiana **8**: 582  
L.t.: Yemen: Prov. Sana'a, Jabal Raymah
- Araeopteron adeni* FIBIGER & HACKER, 2001. Esperiana **8**: 578-579  
L.t.: Yemen: Prov. Abyan, Wadi Bana
- Araeopteron alboniger* FIBIGER & HACKER, 2001. Esperiana **8**: 581  
L.t.: Yemen: Prov. Ibb, Lower Wadi Duur, Azuhriya
- Araeopteron aulombardi* FIBIGER & HACKER, 2001. Esperiana **8**: 580  
L.t.: Yemen: Prov. Ibb, Lower Wadi Duur, Azuhriya
- Araeopteron makikoeae* FIBIGER & KONONENKO, 2008. Zootaxa **1891**: 49  
L.t.: Russia, Primorye terr., Gornotaezhnoe
- Araeopteron patella* FIBIGER & KONONENKO, 2008. Zootaxa **1891**: 51  
L.t.: Russia, Primorye terr. Krounovka, 30km W Ussuriisk
- Araeopteron schreieri* FIBIGER & HACKER, 2001. Esperiana **8**: 579-580  
L.t.: Yemen: Prov. Al Hudaydah, Jabal Burra
- Araeopteron ussurica* FIBIGER & KONONENKO, 2008. Zootaxa **1891**: 50. L.t.:  
*Araeopteron yemeni* FIBIGER & HACKER, 2001. Esperiana **8**: 577-578  
L.t.: Yemen: Prov. Sana'a, Jabal Raymah, Wadu Bullbull
- Bellulia bibella* FIBIGER, HAN & KONONENKO, 2011. Zootaxa **2777**: 42  
L.t.: China, Yunnan, Mojiang
- Chersotis ronkayorum* FIBIGER, HACKER & VARGA, 1992. Esperiana **3**: 440-444, Pl.3, fig.5  
L.t.: Turkey: Prov. Nigde, Ala Dag, Demirkazik
- Conistra haleae* FIBIGER & TOP-JENSEN, 2010. Noct. Eur. **12**: 209-210  
L.t.: Spain: Prov. Cadiz, Pinar del Rey
- Cryphia (Euthales) electra* FIBIGER, STEINER & RONKAY, 2009. Noct. Eur. **11**: 268  
L.t.: Greece: Crete, Kallergi Mts
- Dasyptilia timoi* FIBIGER & NUPPONEN, K., 2006. Esperiana **12**: 182  
L.t.: Russia: S Ural, Orenburg oblast, Pokrovka
- Dichagyris adelfi* FIBIGER, NILSSON & SVENDSEN, 1999. Esperiana **7**: 648-649  
L.t.: Cyprus: Troodos Mts, Adelfi
- Dichagyris endemica* FIBIGER, SVENDSEN & NILSSON, 1999. Esperiana **7**: 650-651  
L.t.: Cyprus: Laneia, N Limassol
- Dichonia jahannamah* FIBIGER, STANGELMAIER, WIESER & ZAHIRI, 2008. Nachr. Ent. Ver. Apollo, Frankfurt am Main **28**(3-4): 121-124  
L.t.: NE.Iran, Elburs Mts., Prov. Golestan, Nature Reserve Jahan Namah, 1800 m
- Eublemma alexi* FIBIGER & HACKER, 2002. Esperiana **9**: 493  
L.t.: Yemen: Prov. al Hudaydah, Jabal Burra
- Eublemma aureola* FIBIGER & HACKER, 2002. Esperiana **9**: 263-264  
L.t.: Turkey, Prov. Malatya, Nurhak dagh
- Eublemma biparva* FIBIGER & HACKER, 2002. Esperiana **9**: 495-496  
L.t.: Yemen: Prov. Sana'a, S of Nagdal Ahmar
- Eublemma cornutus* FIBIGER & HACKER, 2004. Esperiana **10**: 702  
L.t.: Yemen: Prov. Sana'a, Naqil Manakhah
- Eublemma fredii* FIBIGER & HACKER, 2002. Esperiana **9**: 490  
L.t.: Iran: Fars
- Eublemma gerti* FIBIGER & HACKER, 2002. Esperiana **9**: 497  
L.t.: Yemen: Prov. Sana'a, Naqil Manakhah
- Eublemma globus* FIBIGER & HACKER, 2002. Esperiana **9**: 489  
L.t.: Yemen: Prov. Hadramaut, Abdallah Garip Plateau
- Eublemma goateri* FIBIGER & HACKER, 2004. Esperiana **10**: 703  
L.t.: Yemen: Prov. Mahwit, n of Kamis Bani Sa'd

- Eublemma indistincta* FIBIGER & HACKER, 2002. *Esperiana* **9**: 491  
L.t.: Yemen; Prov. Ta'izz, Wadi Warazan
- Eublemma maxima* FIBIGER & HACKER, 2002. *Esperiana* **9**: 486-487  
L.t.: Yemen: Prov. Hadramaut, Al Ain
- Eublemma mediana* FIBIGER & HACKER, 2004. *Esperiana* **10**: 699  
L.t.: Yemen: Prov. Sana'a, NNE of Al Qa'idah, Mahal al Houmeira
- Eublemma miniparva* FIBIGER & HACKER, 2002. *Esperiana* **9**: 496  
L.t.: Yemen: Prov. Sana'a, SW of Makaban
- Eublemma oliva* FIBIGER & HACKER, 2002. *Esperiana* **9**: 492  
L.t.: Yemen: Prov. Sana'a, Jabal'Ayban, Bait Na'ama
- Eublemma rietzi* FIBIGER, RONKAY, L. & YELA, 2010. *Noct. Eur.* **12**: 75  
L.t.: Spain: Prov. Granada, SE of Benamaurel
- Eublemma ronkayorum* FIBIGER & HACKER, 2002. *Esperiana* **9**: 263-264  
L.t.: Turkmenistan: SE of Bairamali
- Eublemma similis* FIBIGER & HACKER, 2004. *Esperiana* **10**: 703  
L.t.: Yemen: Prov. Abyan, SW of Zinjibar
- Eublemma skoui* FIBIGER & HACKER, 2004. *Esperiana* **10**: 696  
L.t.: Yemen; Prov. Ta'izz, Wadi Sab, Hedra
- Eublemma topi* FIBIGER & HACKER, 2006. *Esperiana* **12**: 132-133  
L.t.: Yemen: Prov. Ibb, Upper Wadi Malhama, Alwadha
- Eublemma trollei* FIBIGER & HACKER, 2006. *Esperiana* **12**: 133  
L.t.: Yemen: Prov. Sana'a, Mahal al Houmeira
- Eublemma wiltshirei* FIBIGER & HACKER, 2004. *Esperiana* **10**: 701  
L.t.: Yemen; Prov. Ta'izz, Wadi Warazan
- Eublemma zillii* FIBIGER, RONKAY, L. & YELA, 2010. *Noct. Eur.* **12**: 64-65  
L.t.: Greece: Crete, S of Topolia
- Euxoa (Euxoa) pareruta* FIBIGER, RONKAY, L., ZILLI & YELA, 2010. *Noct. Eur.* **12**: 147-148  
L.t.: Greece: Ioannina, Ag. Paraskevi
- Gortyna golestanensis* FIBIGER & ZAHIRI, 2007. *Nota lepid.* **29**(3/4): 215-220  
L.t.: Iran: Prov. Golestan, Park-e Melli-e Golestan, Almeh
- Hyphenodes crimaena* FIBIGER, PETARSKY & RONKAY, L., 2010. *Noct. Eur.* **12**: 41-42  
L.t.: Ukraine: Crimea, Alushta
- Hyphenodes cypriaca* FIBIGER, PETARSKY & RONKAY, L., 2010. *Noct. Eur.* **12**: 46  
L.t.: Cyprus: Fasouri
- Hyphenodes pannonica* FIBIGER, PETARSKY & RONKAY, L., 2010. *Noct. Eur.* **12**: 42-43  
L.t.: [Hungary]: Bátorliget
- Hyphenodes turcomanica* FIBIGER, PETARSKY & RONKAY, L., 2010. *Noct. Eur.* **12**: 43-44  
L.t.: Turkmenistan: Kopet-Dagh Mts, Ipay-Kala
- Luperina farsiensis* FIBIGER & ZAHIRI, 2005. *Noct. Eur.* **8**: 68  
L.t.: Iran: Fars, Kazerun, Govkoshak
- Luperina kravckenkoi* FIBIGER & MÜLLER, 2005. *Noct. Eur.* **8**: 76  
L.t.: Israel: Golan Heights, El Rom
- Margelana brunnea* FIBIGER, ZAHIRI & KONONENKO, 2007. *Zootaxa* **1503**: 13-19.  
L.t. Iran, Prov. Ostan-e-Khorassan, Golestan National Park, Almeh, 1650m
- Metopoceras (Metopoceras) tabernas* FIBIGER, YELA, ZILLI & RONKAY, L., 2010. *Noct. Eur.* **12**: 201-202  
L.t.: Spain: Almería, Ramble de Tabernas
- Nyctobrya (Bryopsis) segunai* FIBIGER, STEINER & RONKAY, 2009. *Noct. Eur.* **11**: 300  
L.t.: Malta: Rabat
- Odice mukallai* FIBIGER & HACKER, 2002. *Esperiana* **9**: 484-485  
L.t. Yemen: Prov. Hadramaut, NNE of Mukalla
- Parachrostia kishidai* FIBIGER, 2008. *Zootaxa* **1867**: 84  
L.t.: Japan, Ryukyus, Amami-oshima Is, Naze, Kinsakubaru
- Parachrostia pura* FIBIGER, HAN & KONONENKO, 2011. *Zootaxa* **2777**: 44  
L.t.: China, Guizhou, Huangguoshu
- Tactusa brevis* FIBIGER, HAN & KONONENKO, 2011. *Zootaxa* **2777**: 51  
L.t.: China, Guizhou prov., Huangguoshi
- Tactusa flexus* FIBIGER, HAN & KONONENKO, 2011. *Zootaxa* **2777**: 45  
L.t.: China, Yunnan prov., JiangCHENG

*Tactusa virga* FIBIGER, HAN & KONONENKO, 2011 Zootaxa **2777**: 45  
L.t.: China, Yunnan prov. Jinghong

### New subspecies

- Abromias assimilis jenskjeldi* FIBIGER, RONKAY & ZILLI, 2005. Noct. Eur. **8**: 155-156  
L.t.: Faroe Islands, Sandur
- Aporophyla (Phylapora) chioleuca sammuti* FIBIGER, YELA, ZILLI & RONKAY, L., 2010. Noct. Eur. **12**: 215  
L.t.: Malta: Mtaħleb, Għar Arlogg
- Autophyla banghaasi smolikas* FIBIGER, YELA, ZILLI & RONKAY, L., 2010. Noct. Eur. **12**: 237-238  
L.t.: Greece: Epirus, Ioannina, Mt Smolikas
- Chersotis capnistis schnacki* FIBIGER & MOBERG, 1993. Noct. Eur. **2**: 54  
L.t.: Greece: Evrytania, Mt Tymphristos
- Eublemma panonica ronkayorum* FIBIGER, ZILLI & YELA, 2010. Noct. Eur. **12**: 79-80  
L.t.: Greece: Crete, S of Topolia
- Euxoa decora hackeri* FIBIGER & MOBERG, 1990. Noct. Eur. **1**: 57  
L.t.: Greece: Drama, Mt Phalakron above Volas
- Euxoa vitta elmquisti* FIBIGER & MOBERG, 1990. Noct. Eur. **1**: 28  
L.t.: Sweden: Gotland, Muskmyr
- Mesogona acetosellae anatolica* FIBIGER & SCHEPLER, 1997. Noct. Eur. **3**: 204  
L.t.: Turkey: Prov. Kars, NW Kagizman
- Paradrina zandi minimus* FIBIGER, SVENDSEN & NILSSON, 1999. Esperiana **7**: 642-643; bon.sp., Esperiana **8**: 175  
L.t.: Cyprus: Laneia, N of Limassol
- Polymixis manisadjiana salamis* FIBIGER, NILSSON & SVENDSEN, 1999. Esperiana **7**: 645-646  
L.t.: Cyprus: Trooditissa Monastery
- Polymixis manisadjiana samomontensis* FIBIGER, YELA, ZILLI & RONKAY, L., 2010. Noct. Eur. **12**: 219-220  
L.t.: Greece: Samos, NE Mt Ambelos
- Schinia cardui cuprea* FIBIGER & ZILLI, 2009. Noct. Eur. **11**: 215  
L.t.: Hisp[ania], Arragonien, Sierra de Albarracin
- Tactusa discrepans yunnanensis* FIBIGER, HAN & KONONENKO, 2011 Zootaxa **2777**: 46  
L.t.: China, Yunnan prov. JiangCHENG
- Xylena exsoleta maltensis* FIBIGER, SAMMUTT, SEGUNA & CATANIA, 2007. Nota lepid. **29**(3-4): 202-203  
L.t.: Malta: Rabat
- Yigoga celsicola goateri* FIBIGER & MOBERG, 1990. Noct. Eur. **1**: 133, Noct. Eur. **3**: 118  
L.t.: Greece: Mt Tymphristos above Ag. Nikolaos

### 3. As co-author

#### New species

- Acontia (Acontia) proesei* HACKER, LEGRAIN & FIBIGER, 2008. Esperiana **14**:148-149  
L.t.: Ethiopia: N of Gashena, valley of river Tekezé
- Acontia (Acontia) rigatoi* HACKER, LEGRAIN & FIBIGER, 2008. Esperiana **14**: 127  
L.t.: Somalia: Afgoi
- Acontia (Acontia) santalucia* HACKER, LEGRAIN & FIBIGER, 2008. Esperiana **14**:153  
L.t.: [RSA, Zululand]: Süd Afrika, St Lucia Wetland Park
- Acontia (Acontia) solitaria* HACKER, LEGRAIN & FIBIGER, 2008. Esperiana **14**: 119-120  
L.t.: Oman: Dhofar, W from Salalah
- Acontia (Acontia) sublactea* HACKER, LEGRAIN & FIBIGER, 2008. Esperiana **14**: 83-84  
L.t.: Kenya: OI Donjo Orok
- Acontia (Acontia) submutata* HACKER, LEGRAIN & FIBIGER, 2008. Esperiana **14**: 82  
L.t.: [Zambia]: N Rhodesia, Mumbwa
- Acontia (Acontia) uhlenhuthi* HACKER, LEGRAIN & FIBIGER, 2008. Esperiana **14**: 62  
L.t.: Ethiopia: Abyssinia, Dire Daoua
- Acontia (Acontia) wiltshirei* HACKER, LEGRAIN & FIBIGER, 2008. Esperiana **14**: 137-138  
L.t.: Tanzania: Iringa, Riverside Camp
- Acontia (Emmelia) amarei* HACKER, LEGRAIN & FIBIGER, 2008. Esperiana **14**: 251-254  
L.t.: Ethiopia: Prov. Gamogofa
- Acontia (Emmelia) aurivilli* HACKER, LEGRAIN & FIBIGER, 2008. Esperiana **14**: 248

- L.t.: Namibia, Mt Etjo  
*Acontia (Emmelia) bellula* HACKER, LEGRAIN & FIBIGER, 2008. *Esperiana* **14**: 255  
 L.t.: Tanzania: USA River

## In Memoriam

Our dear friend and colleague, Michael FIBIGER, died on 16 February, 2011, peacefully and in the presence of the closest members of his family. For close on 18 months he had battled heroically and with characteristic determination against a particularly unpleasant form of cancer, and continued with his writing and research until close to the end.

Barry GOATER: Obituary to Michael FIBIGER.  
- this volume **16**: 7-38.
