Progress report

So far 60 persons from 19 countries have announced their participation in the symposium which will be held in the building of human studies ("Humanisthuset" in Swedish) at the University Campus close to Petrus Laestadius väg (street name). Here a registration desk will be open from 4 to 8 pm on Sunday 2 August and also from 8 am to 4 pm on Monday 3 August. The terminal of the airbus from the airport is on the University Campus.

The only slight problem concerns the Residence Hall which will be moved to the city (Järnvägsallén 22) close to the railway station this summer. Bus transportation will be available to and from the "Humanisthuset" for those not keen on a 20 minute walk. The Residence Hall where most of you will stay will be found three blocks away from the airbus stop at "Vasaplan" in the city.

To judge from the abstracts submitted, the symposium will cover a variety of aspects of the biology of Trichoptera. Thus, in a pleasant way, everyone will have the opportunity to broaden his or her knowledge of these insects. To most of us I think this is the main point of these symposia.

My welcome and best regards

Christian Otto
