How BRAUERIA may be obtained:

- 1.) By exchange of scientific publications. Individuals are asked to send the complete set of their trichopterological papers which will be used for the literature list in BRAUERIA and for my own information. But I also ask these colleagues for some financial support, depending on what they can contribute. Institutions may send publications according to individual arrangement.
- 2.) By purchase: 30 EURO per number (usually one number per year). Preferably send banknotes in a registered letter. Please avoid banker's drafts and other kinds of cheques; otherwise add 20 EURO per cheque for the bank fees.
- 3.) Addressees are asked to send a confirmation by letter of the safe receipt of their copy.

If none of these responses arrives within one year, the mailing address will be deleted.

Lunz, May 2020

'Dear Trichopterologist,

Our next international symposium on Trichoptera comes back after 47 years to the birthplace where the first one was held in 1974: Lunz am See in the mountains of Austria. Please find the invitation in this number. You may wonder what had changed since, and how few of the early participants are surviving.

One of the most prominent participants of 1974, our good friend and colleague Oliver Flint died last year. Some pages of this number are devoted to him.

See you here in September 2021 !

With best wishes !
