## Bibliography of Phasmida (Insecta) — IV. 1940–1949

### Introduction

While reviewing the literature on the stick- and leafinsects (order Phasmida) for the period 1950–1979 some 950 references were found (previous parts appeared in *Spixiana* 6, 27–43; 1983, and *Beitr. Ent.* 35, 3–12; 1985 and 36, 255–260; 1986). This fourth part covers the period of 1940–1949, and contains 106 references.

The literature has been obtained, and are presented as described in previous parts (op. cit.).

For papers omitted, the author should appreciate receiving a note or a reprint of that paper.

### Acknowledgements

I am most grateful to individual scientists and libraries for obtaining literature. I am especially grateful to the staffs of the libraries of the Royal Swedish Academy of Sciences and of the Arrhenius Laboratory (University of Stockholm) for their never failing assistance in obtaining the literature for me.

#### Summary

The literature on the stick- and leaf-insects (order Phasmida) published during the period 1940 to 1949 have been listed. 106 scientific papers are listed. A systematic index is included.

#### Zusammenfassung

Es wird die Literatur der Phasmida erfaßt, die zwischen 1940 und 1949 erschienen ist. 106 wissenschaftliche Arbeiten sind in dieser Bibliographie enthalten. Ein systematischer Index schließt sich an.

#### Резюме

Составлена литература Phasmidae, опубликованная в 1940—1949 гг. Эта библиография включает 106 научных работ. Систематический указатель прилагается
