Microscopical Preparations.

For many years the want has been widely felt of some one with a practical knowledge of fungi, and withal expert in their manipulation, who could prepare for those who were unable to do it for themselves, Mycological slides. We have often been applied to during the past to indicate such a person, if he could be found, and the application has been fruitless. This, however, is no longer the case, for we have had the opportunity of examining some of the microscopical preparations of fungi which have been produced by the Rev. J. E. Vize, of Forden Vicarage, Welshpool, and do not hesitate to recommend them to any of our readers who may be in search of such aids to study. It may be observed that no small advantage results from the manipulator being himself a mycologist, consequently the preparations are scientifically and accurately named, to say nothing of the neat and business-like manner in which the mechanical work of manipulation is performed. Here, then, is an excellent opportunity for any one to possess themselves of illustrations of the principal genera of microscopical fungi, any such a series being manufactured to order. We are also further informed that any one who is desirous of doing so may have their own material mounted, so that nothing more remains to be desired, except it be a reasonable and economical scale of charges, which, in this instance also, will be found entirely to their satisfaction. We can only hope that such invaluable aids to the study of fungi will not be neglected, and that Mr. Vize's unique and artistic preparations will find a place in every Microscopical Cabinet, wheter specially devoted to Mycological subjects or not.

Verlag von R. Friedländer & Sohn in Berlin, NW. Carlstr. 11.

Mycologiae Venetae

species 1212, descr. et iconibus passim illustr.

auct. **P. A. Saccardo.**

1873. 1 vol. 8. — maj. cum 14 Tabb. coloratis.

Preis 4 Mark.

Neue Botanische Lagerkataloge, welche franco gratis versandt werden: No. 264. Cryptogamae (1800 Nrn.)

No. 262: Physiolog. Botanik etc.

Berlin, N.W., Carlstrasse 11. April 1877.
