## Notes on taxonomy and distribution of *Cryptophagus jakowlewi* REITTER, 1888 (Coleoptera: Cryptophagidae) with remarks on further species

Jens ESSER

A b s t r a c t : The identity and synonymy of *Cryptophagus jakowlewi* REITTER, 1888 was explored. The synonymy of *Cryptophagus archangelicus* J.R. SAHLBERG, 1926, *C. bidentarus* MÄLKIN, 1853, *C. confertus* CASEY, 1900, *C. punctatissimus* MÄKLIN, 1853 and *C. uralensis* BRUCE, 1963 was also newly examined. The identity and validity of *C. freyi* BRUCE, 1941 as well-defined species was suggested.

K e y   w o r d s : Cryptophagidae, *Cryptophagus archangelicus* J.R. SAHLBERG, 1926, *Cryptophagus bidentarus* MÄLKIN, 1853, *Cryptophagus confertus* CASEY, 1900, *Cryptophagus freyi* BRUCE, 1941, *Cryptophagus jakowlewi* REITTER, 1888, *Cryptophagus punctatissimus* MÄKLIN, 1853, *Cryptophagus uralensis* BRUCE, 1963, Palaearctic Region, taxonomy, new synonymy, distribution.

### Introduction

During the last few decades, the Finnish colleagues recorded a *Cryptophagus* species whose identity was not clear. Further examinations of the colleagues resulted that the species is identical with *Cryptophagus uralensis* BRUCE, 1963 (synonym of *C. jakowlewi* REITTER, 1888). The examination of specimens shows that the species from Finland are identical with *C. jakowlewi* REITTER, 1888 (= *uralensis* BRUCE, 1963). So far known in the moment, *C. jakowlewi* is distributed in the nothern parts of Europe (from the Ural mountain range to Sweden), but also in northern parts of East Palaearctic. The occurrence in the Nearctic Region (MAJKA & LANGOR 2010) based on the synonymy of *C. confertus* CASEY, 1900 with *C. jakowlewi* in JOHNSON et al. (2007). *C. jakowlewi* is not recorded from the Nearctic Region. For understanding the names listed as synonyms in JOHNSON et al. (2007) the writer examined further types and specimens.

### Material and methods

The material examined is deposited in the following collections:

- MNHG ..... Muséum d'histoire naturelle, Geneva
- MNHM ..... Hungarian National History Museum, Budapest
- NHMB ..... Naturhistorisches Museum, Basel
- NMNH ..... National Museum of Natural History; Washington
- SMNS ..... Staatliches Museum für Naturkunde, Stuttgart

ZMH .....	Zoologisches Museum, Helsinki
ZMUL.....	Zoologisches Museum der Universität Lund
cES.....	author's private collection
cGE .....	private collection Joja Geijer, Arby
cHE .....	private collection Eero Helve, Espoo
cLU.....	private collection Stig Lundberg, Luleå
cMA.....	private collection Jaakko Mattila, Helsinki

## Results

The comparison of the types of *Cryptophagus jakowlewi* REITTER, 1888 and *Cryptophagus uralensis* BRUCE, 1963 resulted identity of both (fig. 1 and 2). Further it was obvious that *Cryptophagus confertus* CASEY, 1900 (fig. 4) is not a synonym of *Cryptophagus jakowlewi* REITTER like proposed by JOHNSON et al. (2007) but a different species.

The examination of types and further material of *Cryptophagus archangelicus* J. R. SAHLBERG, 1926 and *C. confertus* CASEY, 1900 shows their characters as two well separated species.

JOHNSON et al. (2007) resurrected *C. jakowlewi* from synonymy with *C. pallidus* STURM, 1845. *Cryptophagus pallidus* STURM, 1845 was misinterpreted for long time and is not identical with the previous interpretation (JOHNSON & ESSER, 2007). For that reason JOHNSON et al. (2007) resurrected *Cryptophagus reflexus* REY, 1889 from synonymy with *Cryptophagus scanicus* (LINNAEUS, 1758) as replacement name for *Cryptophagus pallidus* sensu auctorum. OTERO (2013) synonymised *C. jakowlewi* with *C. reflexus*, so we have three interpretations of *C. jakowlewi* in the recent years. OTERO (2013) also interpreted *Cryptophagus freyi* BRUCE, 1941 as synonym of *C. jakowlewi* according to JOHNSON et al. (2007) with *C. freyi* as synonym of *C. reflexus*. As showed below, *C. freyi* is not identical with *C. jakowlewi* and *C. freyi* seems to be a well separated species (fig. 5). *C. freyi* is known only by the holotype. The specimen resembles more with *C. brucki* REITTER, 1875 or *C. hauseri* REITTER, 1890.

<i>C. reflexus*</i>	> <i>C. reflexus</i>	> <i>C. jakowlewi</i>	> <i>C. reflexus</i>
<i>C. uralensis</i>	> <i>C. jakowlewi</i>	> <i>C. jakowlewi</i>	> <i>C. jakowlewi</i>

\*previously known as *C. pallidus* sensu auct. nec STURM, 1845 (fig. 6, 15), the *C. pallidus* sensu STURM, 1845 is the former *C. thomsoni* REITTER, 1875.

### Present synonymy

*Cryptophagus archangelicus* J. R. SAHLBERG, 1926 stat. rev.

*Cryptophagus bidentatus* MÄKLIN, 1853\*

*Cryptophagus kamtschaticus* LYUBARSKY, 1992

*Cryptophagus punctatissimus* MÄKLIN, 1853

\*synonyms according to JOHNSON et al. (2007), not examined by the writer (except *punctatissimus* MÄKLIN, 1853)

*Cryptophagus confertus* CASEY, 1900 stat. rev.

*Cryptophagus freyi* BRUCE, 1941 stat. rev.

*Cryptophagus jakowlewi* REITTER, 1888

*Cryptophagus uralensis* BRUCE, 1963

*Cryptophagus reflexus* REY, 1889\*

*Cryptophagus fowlerti* JOY, 1910

*Cryptophagus lateralis* REY, 1889

*Cryptophagus pallidus* auct. nec STURM, 1845

\*synonyms according to JOHNSON et al. (2007), not examined by the writer

*Cryptophagus scanicus* (LINNAEUS, 1758)\*

*Cryptophagus niger* BRISOUT DE BARNEVILLE, 1863

*Cryptophagus nigerrimus* REY, 1889

*Cryptophagus patruelis* STURM, 1845

*Cryptophagus piceus* J.R. SAHLBERG, 1926

*Cryptophagus subdentatus* REY, 1889

*Cryptophagus suturalis* REY, 1889

\*synonyms according to JOHNSON et al. (2007), not examined by the writer (except *patruelis* STURM, 1845)

*Cryptophagus loebli* (OTERO, 1997) is a synonym of *Cryptophagus pallidus* STURM, 1845 (nec auct.)

### Material examined

*Cryptophagus archangelicus* J. R. SAHLBERG, 1926: Three syntypes from Solovetsk (Russia) [ZMH], one female from Novosibirsk (Siberia) [SMNS].

*Cryptophagus bidentatus* MÄKLIN, 1853: Syntypes [ZMH] and specimens from Canada and USA.

*Cryptophagus confertus* CASEY, 1900: Type [NMNH] and further specimens from Canada.

*Cryptophagus corticinus* THOMSON, 1863: Numerous specimens from Europe.

*Cryptophagus freyi* BRUCE, 1941: Holotype from Azrou (Morocco) [NHMB].

*Cryptophagus jakowlewi* REITTER, 1888: Holotype and three paratypes [MNHM]. Further material see "distribution in Europe".

*Cryptophagus loebli* (OTERO, 1997) (*Micrambe*): Holotype and one paratype [MNHG].

*Cryptophagus punctatissimus* MÄKLIN, 1853: Syntypes [ZMH].

*Cryptophagus reflexus* REY, 1889: Numerous specimens from Europe.

*Cryptophagus scanicus* (LINNAEUS, 1758): Numerous specimens mainly from Europe.

*Cryptophagus uralensis* BRUCE, 1963: Holotype [SMNS] and two paratypes [ZMUL].

### Distribution data for *Cryptophagus jakowlewi* REITTER, 1888 from Europe

***Cryptophagus jakowlewi* REITTER, 1888**

Finnland: Tb: Jyväskylä, Ylistönrinne, 3.10.2001, leg. Jaakko Mattila [cMA, cES]; Ta: Kuhmoinen,

30.05.1974, 14.07.1983, 11.10.1987, leg. Eero Helve [cHE, cES]; Lkem: Sodankylä, 05.07.1989, leg. Eero Helve [cHE, cES].  
Sweden: LyL, Gravsjön, 19.VI.-28.VII.1998, leg. Per Löfgren [cLU], Arby (Vassmolösa, Kalmar), leg. Geijer [cGE].

### **Notes on identifying *Cryptophagus jakowlewi* REITTER, 1888**

*Cryptophagus jakowlewi* REITTER, 1888 is quite similar to *Cryptophagus archangelicus* J.R. SAHLBERG, 1926 (9, 12, 18) and *C. corticinus* THOMSON, 1867 (fig. 8, 10). Most specimens of *Cryptophagus jakowlewi* have both a dark head and pronotum (fig. 7). Males of *C. jakowlewi* are easily distinguishable by its parameres (fig. 11). But a few specimens are paler and more similar to *C. corticinus*.

*C. bidentatus* MÄKLIN, 1853 (fig. 3, 14) and *C. confertus* CASEY, 1900 (fig. 5, 13) are often also very similar but have different parameres. They resemble to *C. quadridentatus* MANNERHEIM, 1843 and *C. dentatus* (HERBST, 1793)

*C. reflexus* REY, 1889 and *C. scanicus* (LINNAEUS, 1758) are well-defined species.

### **Acknowledgement**

I wish to thank the following colleagues for supporting my examinations: Eva Sprecher-Übersax (Basel), Giulio Cuccodoro (Geneva), Christoffer Fäggerström (Lund), Eero Helve (Espoo), Stig Lundberg (Luleå), Petri Martikainen (Joensuu), Jaakko Mattila (Helsinki), Ottó Merkl (Budapest), Wolfgang Schwaller (Stuttgart).

### **Zusammenfassung**

Die Synonymie des Namens *Cryptophagus jakowlewi* REITTER, 1888 untersucht und damit zusammenhängend die Synonymie der Namen *Cryptophagus archangelicus* J.R. SAHLBERG, 1926, *C. bidentarus* MÄKLIN, 1853, *C. confertus* CASEY, 1900, *C. punctatissimus* MÄKLIN, 1853 und *C. uralensis* BRUCE, 1963 neu bewertet. Darüber hinaus wird zur Diskussion gestellt, dass *C. freyi* BRUCE, 1941 eine valide Art ist.
