

# NATUR ALS AUFTRAG

A stylized landscape illustration in shades of green, yellow, and orange. The top half features a large, bright yellow sun in a hazy sky. Below the sun are two dark green, rounded shapes representing clouds. The middle ground is a flat green field. In the foreground, a light blue, irregularly shaped pond is visible. A dark green silhouette of a bird is perched on a thin branch that extends from the right side of the pond. On the left side of the image, a tall, thin green stem with several leaves and two elongated, dark green seed pods or buds rises vertically. The overall style is graphic and minimalist.
