

Short communication — Kurze Mitteilung — En bref

**Corrigenda to *Noctuidae Europaea*, Vol. 2, 1993**

Michael FIBIGER, Molbechs alle 49, DK-4180 Sorø, Denmark

The author would like to apologise for the following unfortunate errors in the colour plates 1, 5 and 11 of the above work. These errors are reported here to prevent further confusion, but will be stated again in vol. 3, together with less important corrections.

**Plate 1**

Fig. 5 is *Epipsilia cervantes cervantes*

Fig. 9 is *E. cervantes vargai*

Fig. 16 is *E. griseascens illuminata* f. *albescens*

Fig. 17 is *E. griseascens illuminata*

**Plate 5**

Fig. 6 is *Noctua janthe*

Fig. 33 was identified by Staudinger as *Spaelotis deplorata* Stgr., but it is, however, a light (?) faded *Euxoa ochrogaster rossica*.

**Plate 11**

Figs 28 & 29 represent an undescribed subspecies of *Xestia cohaesa* occurring in Ukraine (Crimea), the Caucasus and the Transcaspian area (Fibiger, in prep.). The taxon *pulvereata* Hamps. is a synonym of *X. cohaesa cohaesa*.
