

## 6. ACKNOWLEDGEMENTS

This study was supported by the Austrian Ministries for Agriculture and Forestry, Economy, Science and Research, and also by the Board for Hydroelectric Power-plants on the Danube. We sincerely thank DIng. G. Fischer, DIng. H. Heckermann, Prof.Dr. W. Kohl, DIng. Dr. H. Prazan and DIng K. Schimunek for their support throughout the study. We also wish to thank E. Atzmüller (captain), L. Eisl, F. Grill (machinist), I. Kopriva, I. Leeb, I. Meister, E. Niederreiter, C. Skolaut and B. Stipanits for all their assistance in the field and in preparing the data for processing. The work in England by U.H. Humpesch and in Austria by J.M. Elliott was supported jointly by the Austrian Academy of Sciences and The Royal Society through fellowships from the European Exchange Programme.

## 7. SOURCES OF EQUIPMENT AND SUPPLIES FOR SAMPLING PLANKTON, PERIPHYTON, MACROPHYTES AND MACROINVERTEBRATES

Richard Niederreiter

Institut für Limnologie der Österreichischen Akademie der Wissenschaften, Abteilung Mondsee, Gaisberg 116, A-5310 Mondsee.

Arnold Leichtfried

Institut für Limnologie der Österreichischen Akademie der Wissenschaften, Abteilung Lunz (Biologische Station), A-3293 Lunz.
