

# PUBLICATION LIST

**Heidrun Karlic**

## **Original articles as first or corresponding author**

1. Karlic H, Richter H. Storage of detached leaves and twigs without changes in their water potential. *New Phytologist* 83, 379-384, 1979
2. Karlic H, Richter H. Developmental effects on leaf water relations of two evergreen shrubs (*Prunus laurocerasus* L and *Ilex aquifolium* L). *Flora* 173, 143-150, 1983
3. Karlic H, Kucera H, Metka M, Schönbauer M, Söregi G. [Effect of ozone and ionizing radiation on an in vitro model--a pilot study of 4 gynecologic tumors]. [Article in German] *Strahlenther. Onkol.* 1987;163:37-42.
4. Ambros PF and Karlic H. Chromosomal insertion of Human Papillomavirus 18 sequences in HeLa cells detected by nonisotopic in situ hybridization and reflection contrast microscopy. *Hum. Genet.* 1987;77: 251-254.
5. Karlic H, Weber E, Schlögl E, Krieger O, Lutz D. Granulocyte-macrophage colony-stimulating factor gene in myelodysplastic syndromes. *Am. J. Hematol.* 1991;36:79-80.
6. Karlic H, Grill R, Schlögl E. Minor BCR (m-bcr) rearrangements may appear in major BCR (M-bcr)-positive CML cases. *Hematol. Pathol.* 1992;6:203-207.
7. Karlic H, Schlögl EE, Nowotny H, Grüner H, Valent A, Auer H, Heinz R. Rare occurrence of Philadelphia chromosome negative (but BCR-ABL positive) CML in a central European population. *Am. J. Hematol.* 1994;47:253-254.
8. Karlic H, Mühlberger H, Pavlova BGG, Pfeilstöcker M, Salamon J, Pittermann E, Heinz R, Koller E. Analysis of peripheral blood progenitor cells demonstrates limitations of minimal residual disease diagnosis in a case of acute promyelocytic leukemia. *Bone Marrow Transplant* 1995;15:999-1000.
9. Paukovits WRR, Moser MH, Paukovits JB, Kneissl S, Rosenbrock U, Gieseke T, Binder KA, Karlic H. The myelostimulatory decapeptide (pEEDCK) induces proliferation in pluripotent hemopoietic stem cells in vivo and increases leukocyte and platelet production: A possible alternative for recombinant hemopoietic growth factors. *Cancer Res.* 1995;4:203-209.
10. Karlic H, Louda N, Pfeilstöcker M, Keil F, Lohninger A, Pittermann E, Paukovits J. Effect of the hemoregulatory peptide (pEEDCK)<sub>2</sub> (pyroGlu-Glu-Asp-Cys-Lys)<sub>2</sub> and

MIP-1alpha is reduced in bone marrow cultures from patients with chronic myeloid leukemia (CML). *Stem Cells* 2001;19:321-328.

11. Karlic H, Lohninger S, Koeck T, Lohninger A. Dietary l-carnitine stimulates carnitine acyltransferases in the liver of aged rats. *J. Histochem. Cytochem.* 2002;50:205-212.
12. Karlic H, Lohninger A, Laschan C, Lapin A, Böhmer F, Huemer M, Guthann E, Rappold E, Pfeilstöcker M. Downregulation of carnitine acyltransferases and organic cation transporter OCTN2 in mononuclear cells in healthy elderly and patients with myelodysplastic syndromes. *J. Mol. Med. (Berl)* 2003;81:435-442.
13. Karlic H, Möstl M, Mucke H, Pavlova BG, Pfeilstöcker M, Heinz R. Association of human T-cell leukemia virus and myelodysplastic syndrome in a central European population. *Cancer Res.* 1997;57, 4718-4721.
14. Karlic H, Radolf M, Pfeilstöcker M. Appropriate controls for RT-PCR, commentary. *Leukemia* 12, 1988-1989, 1998.
15. Waldner R, Laschan C, Lohninger A, Gessner M, Tüchler H, Huemer M, Spiegel W, Karlic H. Effects of doxorubicin-containing chemotherapy and a combination with L-carnitine on oxidative metabolism in patients with non Hodgkin lymphoma; *J. Cancer Res. Clin. Oncol.* 2006;132:121-128.
16. Wihlidal P, Varga F, Pfeilstöcker M, Karlic H. Expression and functional significance of osteocalcin splicing in disease progression of hematological malignancies. *Leukemia Research* 2006;30:1241–1248.
17. Karlic H, Schuster D, Varga F, Klindert G, Lapin A, Haslberger A, Handschur M. Vegetarian diet affects genes of oxidative metabolism and collagen synthesis. *Ann. Nutr. Metab.* 2008;53:29-32.
18. Karlic H, Thaler R, Varga J, Berger C, Spitzer S, Pfeilstöcker M, Klaushofer K, Varga F. Effects of Epigenetic Drugs (Vorinostat, Decitabine) on Metabolism-Related Pathway Factors in Leukemic Cells. *Open Leukemia Journal* 2010;3:34-42.
19. Karlic, H., Herrmann, H., Varga, F., Thaler, R., Reitermaier, R., Spitzer, S., Ghanim, V., Blatt, K., Sperr, W.R., Valent, P., Pfeilstöcker, M. The role of epigenetics in the regulation of apoptosis in myelodysplastic syndromes and acute myeloid leukemia *Critical Reviews in Oncology/Hematology* 2014; 90: 1-16
20. Karlic, H., Thaler, R., Gerner, C., Grunt, T., Proestling, K., Varga, F. Inhibition of the mevalonate pathway affects epigenetic regulation in cancer cells. *Cancer Genetics* 2015; 208: 241-252
21. Karlic, H, Spitzer S, Celik J, Varga F. Leukämie- und Knochenzellen: Neue Aspekte der Interaktion. *JATROS* 2016, 2/16, 122-123

## Original articles as co-author:

1. Huber H, Karlic H, Husslein P, Schneider WH. [Molecular-biological studies of the cervical secretion with one-dimensional electrophoresis]. [Article in German]. *Wien Med Wochenschr.* 1983;133:393-395.
2. Metka MM, Karlic H, Söregi G, Kozak W, Huber JC. Simplified hamster ovum-sperm penetration test (HSPT) in routine sterility testing. [Article in German]. *Geburtshilfe Frauenheilkd.* 1986;46:110-114.
3. Huber H, Knogler W, Karlic H, Akrad M, Söregi G, Schweizer D. Structural chromosomal abnormalities in gynecologic malignancies. *Cancer Genet. Cytogenet.* 1990;50:189-197.
4. Watzinger F, Gaiger A, Karlic H, Becher R, Pillwein K, Lion T. Absence of N-ras mutations in myeloid and lymphoid blast crisis of chronic myeloid leukemia. *Cancer Res.* 1994;54:3934-3938.
5. Pfeilstöcker M, Grill R, Koller E, Krieger O, Pittermann E, Karlic H: FMS hemizygoty in myeloid dysplasia and acute myeloid leukemia with chromosomal aberration del(5)(q) demonstrated by polymerase chain reaction. *J. Mol. Med.* 1995;73:403-407.
6. Nowotny H, Karlic H, Grüner H, Hirsch J, Vesely M, Nader A, Heinz R. Cytogenetic findings in 175 patients indicate that items of the Kiel classification should not be disregarded in the REAL classification of lymphoid neoplasms. *Ann. Hematol.* 1996;72:291-301.
7. Pfeilstöcker M, Karlic H, Salamon J, Krömer E, Mühlberger H, Pavlova BG, Selim U, Tüchler H, Fritsch G, Kneissl S, Heinz R, Pittermann E, Paukovits WRR. Expression of Gal6, a G-protein a subunit specific for hematopoiesis in acute leukemia. *Leukemia* 1996;10:117-1121.
8. Valent A, Zámečnicková A, Karlic H, Nowotny H, Krizan P. Variant forms of Philadelphia translocation in two patients with chronic myeloid leukemia. *Neoplasma* 1996;43:239-244.
9. Pfeilstöcker M, Karlic H, Salamon J, Mühlberger H, Pavlova BG, Selim U, Strobl H, Pittermann E, Heinz R. Monitoring of hematopoietic recovery after autologous stem cell transplantation by analysis of G alpha 16 mRNA and CD34 surface glycoprotein. *Ann. Hematol.* 1998;76:153-158.
10. Paukovits JB, Ganglberger E, Rutter R, Karlic H, Marian B, Paukovits WRR. The hemoregulatory peptide pEEDCK may inhibit stem cell proliferation via hydrophathical binding to antisense sequence motifs in interleukin 11 and other growth factors. *Molecular Pharmacology* 1999;56:665-674.

11. Pfeilstöcker M, Karlic H, Salamon J, Mühlberger H, Pavlova BG, Strobl H, Pittermann E, Heinz R. Hematopoietic recovery after IEV chemotherapy for malignant lymphoma followed by different cytokines can be monitored by analysis of Galpha 16 and CD34. *Am. J. Hematol.* 2000;64:156-160.
12. Leithner A, Lang S, Windhager R, Leithner K, Karlic H, Kotz R, Haas OA. Expression of insulin-like growth factor-I (IGF-I) in aneurysmal bone cyst. *Mod Pathol.* 2001;14:1100-1104.
13. Weghofer M, Karlic H, Haslberger A. Quantitative analysis of immune-mediated stimulation of tumor necrosis factor-alpha in macrophages measured at the level of mRNA and protein synthesis. *Ann. Hematol.* 2001;80:733-736.
14. Böhmer F, Karlic H, Lapin A. Increased soluble transferrin receptor in a case of hypernephroma accompanied by polycythaemia and elevated erythropoietin. *Wien Med. Wochenschr.* 2002;152(17-18):483.
15. Pfeilstöcker M, Karlic H, Nösslinger T, Tüchler H, Lohninger A, Pittermann E. Assessment of growth and differentiation processes in myelodysplastic syndromes by PCR analysis of Galpha16 and 5'-lipoxygenase. *Ann. Hematol.* 2002;81:632-640.
16. Zeibig J, Karlic H, Lohninger A, Damsgaard R, Smekal G. Do blood cells mimic gene expression profile alterations known to occur in muscular adaptation to endurance training? *Eur. J. Appl. Physiol.* 2005;95:96-104.
17. Lohninger A, Karlic H, Lohninger S, Tammaa A, Jinniate S, Mascher H, Salzer H. Carnitine in Pregnancy, *Chemical Monthly* 2005;136/8:1523-1533.
18. Fillitz M, Karlic H, Tüchler H, Pittermann E, Pfeilstöcker M. Does mRNA level of microsomal carnitine palmitoyltransferase predict yield of peripheral blood stem cell apheresis? *Annals of Hematology* 2006;85: 386-393.
19. Handschur M, Karlic H, Hertel C, Pfeilstöcker M, Disqué C, Lorenz M, Haslberger AG. Preanalytic removal of human DNA eliminates false signals in general 16S rRNA PCR monitoring of bacterial pathogens in blood. *Comp. Immunol. Microbiol. Infect. Dis.* 2009; 32:207-219.
20. Wihlidal P, Karlic H, Pfeilstöcker M, Klaushofer K, Varga F. Imatinib mesylate (IM)-induced growth inhibition is associated with production of spliced osteocalcin-mRNA in cell lines. *Leuk. Res.* 2008;32:437-443.
21. Buchinger B, Spitzer S, Karlic H, Klaushofer K, Varga F. Lysyl oxidase (LOX) mRNA expression and genes of the differentiated osteoblastic phenotype are upregulated in human osteosarcoma cells by suramin. *Cancer Lett.* 2008;265:45-54.
22. Varga F, Rumpler M, Spitzer S, Karlic H, Klaushofer K. Osteocalcin attenuates T3- and increases Vitamin D3-induced expression of of MMP-13 in mouse osteoblasts. *Endocr. J.* 2009;56:441-450.

23. Thaler R, Karlic H, Rust P, Haslberger AG. Epigenetic regulation of human buccal mucosa mitochondrial superoxide dismutase gene expression by diet. *Br. J. Nutr.* 2009;101:743-749.

Karlic H, Varga F, Spitzer S, Pfeilstöcker M, Pittermann E. Epigenetic effects of differentiation-inducing agents resemble effects of chromatin-targeting drugs in the HL-60 promyelocytic leukemia cell line. Onkologie 2008;31:133:378.

Karlic H, Varga F, Spitzer S, Roman Thaler R, Pfeilstöcker M, Pittermann E. RTQPCR shows close Association of gene demethylation with transcriptional activation of tumor suppressor genes in cells treated with chromatin- or tyrosine kinase - targeting drugs. *Onkologie* 2008;31:133:379.

Karlic H, Varga F, Renate Wagner R, Valent P, Grunt T. Similar epigenetic effects of fatty acid synthetase (FASN) inhibitor C75 and PI3-kinase inhibitor LY294002 suggest common regulatory pathways of FASN and PI3-kinase. *Onkologie* 2008;31:134:380.

Varga F, Spitzer S, Karlic H, Thaler R, Klaushofer K. Cell-contacts are a prerequisite for basal and T3 regulated osteocalcin expression in MC3T3-E1 osteoblast like cells. *Bone* 2009;44:301.

Karlic H, Varga F, Noesslinger T, Pittermann E, Klaushofer K, Pfeilstoecker M. Concordant regulation of estrogen receptor, fat metabolism and osteocalcin in myelodysplastic syndromes. *Leukemia Research* 2009;3:94:061.

Thaler R, Karlic H, Spitzer S, Klaushofer K, Varga F. The effect of DMSO on MC3T3-E1 mouse osteoblast-like cells focusing on DNA methylation and markers of differentiation and senescence. 37th European Symposium on Calcified Tissues, June 26-30, 2010, Glasgow, Scotland, *Bone* 2010;47:135:167.

Karlic H, Reitermaier R, Thaler R, Varga F, Spitzer S, Varga F, Pfeilstöcker M. Vitamin D supports the efficiency of demethylating drugs for suppression of DNA-Methyltransferases (DNMTs) and induction of apoptosis in leukemic cells. 1st International Meeting Clinical Epigenetics Society, March 11-12 2011;26.

Karlic H, Reitermaier R, Ghanim V, Herrmann H, Thaler R, Spitzer S, Varga F, Sadovnik I, Blatt K, Keil F, Valent P, Pfeilstöcker M. 5-Azacytidine and Decitabine induce demethylation and re-expression of FAS (CD95) and promote apoptosis in neoplastic cells in acute myeloid leukemia (AML). Annual Meeting of the American Society of Hematology, San Diego, CA. *Blood* 2011;118:3463.

Ghanim V, Herrmann H, Hadzijusufovic E, Peter B, Blatt K, Schuch K, Cerny-Reiterer S, Mirkina I, Heller G, Zöchbauer S, Karlic H, Pickl WF, Valent P. 5- Azacytidine and Decitabine induce FAS re-expression, exert major proapoptotic effects, and cooperate with the FAS ligand in producing apoptosis in neoplastic human mast cells. Annual Meeting of the American Society of Hematology, San Diego, CA, *Blood* 2011;118:3457.

Tomek K, Wagner R, Varga F, Singer CF, Karlic H, Grunt TW. Blockade of fatty acid synthase induces lysosomal-autophagosomal proteolysis of phosphatidylinositol-3 kinase signaling proteins in ovarian cancer. AACR Special Conference on 'Metabolism and Cancer', October 16-19, 2011, Baltimore, MD.

Karlic H, Reitermaier R, Thaler R, Varga J, Spitzer S, Varga F, Pfeilstöcker M. Vitamin D supports the efficiency of demethylating drugs for suppression of DNA-Methyltransferases (DNMTs) and induction of apoptosis in leukemic cells. 1<sup>st</sup> International Meeting Clinical Epigenetics Society, Bad Homburg/Saar, Germany, March 11-12, 2011; 26.

Karlic, H, Thaler, R, Varga, F. Epigenetic impact of microenvironment on persistence of neoplastic stem cells. 2<sup>nd</sup> Symposium of Drug & Target Screening Unit DTSU/CCC, October 29<sup>th</sup>, 2012

Karlic, H, Reitermaier, R, Thaler, R, Varga, J, Spitzer, S, Pfeilstöcker, M, Valent, P, Klaushofer, K, Varga, F. Vitamin D supports the efficiency of Decitabine for induction of differentiation, apoptosis and osteocalcin expression in leukemia and mastocytosis. International Conference on Bone and Mineral research 2012 and Annual Autumn Conference of the Austrian Society for Bone and Mineral Research, November 29-December 1, 2012 Bone 2012; 51: S12

Thaler, R, Rumpler, M, Spitzer, S, Karlic, H, Klaushofer, K, Varga, F. Induction of active epigenetic DNA demethylation in osteoblastic and osteoclastic cells by sulforaphane, a naturally occurring isothiocyanate. International Conference on Bone and Mineral research 2012 and Annual Autumn Conference of the Austrian Society for Bone and Mineral Research, November 29-December 1, 2012 Bone 2012; 51: S9

Karlic, H, Varga F, Valent, P, Pfeilstöcker, M. Demethylating drugs promote expression of genes regulating apoptosis and autophagy in Acute Myeloid Leukemia (AML). Jahrestagung der Deutschen, Österreichischen und Schweizerischen Gesellschaften für Hämatologie und Onkologie, Wien, 18. – 22. Oktober 2013. Onkologie 2013; 36 S7: 41 (P167)

Thaler, R, Spitzer, S, Haider, F, Karlic, H, Klaushofer, K, Varga, F. The central role of the histone demethylase *JHDM1D* in the regulation of tumor associated genes in bone tumor-related cells. *Bone Abstracts* (2013) 1 PP132 | DOI:10.1530/boneabs.1.PP132

Karlic, H., Varga, F. Effect of mevalonate pathway – inhibitors on epigenetic regulation in cancer cells. Abstractbook from the 2<sup>nd</sup> LBG Meeting for Health Sciences, December 2014

Karlic, H., Heugl, T., Spitzer, S., Thaler R., Varga, F. Vitamin D-mediated upregulation of differentiation marker genes requires demethylating agents in neoplastic mast cells. Abstractbook from the Meeting on Epigenetic regulation of hematopoiesis and leukemogenesis, 21<sup>th</sup> – 22<sup>th</sup> April 2015, Strasbourg, France

Karlic, H., Haider, F., Spitzer, S., Varga, F. Gene signature indicates different antineoplastic activities of statins and bisphosphonates. Proceedings of the Annual Meeting of the Austrian Society of Haematology and Medical Oncology, 23<sup>rd</sup>-25<sup>th</sup> April 2015, MEMO Suppl 01/15, 28-29

.....

Presentations without published Abstract:

Karlic, H. Epigenetic Regulation of FAS(CD95) in Myelodysplastic Syndromes (MDS) and Acute Myeloid Leukemias (AML). 10 Year Jubilee Vienna Cancer Stem Cell Club, Meeting Oct 5<sup>th</sup>, 2012

Karlic H. Umweltfaktoren regulieren Gene. University meets Public; Volkshochschule Urania, 14. März 2013

Karlic H. Stress, Gender, Epigenetik. Vortrag im Rahmen der GenderRing Veranstaltung, 15. Mai 2013

Karlic, H, Varga F, Valent, P, Herrmann, H, Blatt, K, Sperr, WR, Pfeilstöcker, M. Demethylating drugs promote expression of FAS and other regulators of apoptosis in Myelodysplastic Syndromes (MDS) and Acute Myeloid Leukemia (AML). 1. LBG Health Sciences Tagung (prämiert als TOP 10 Posterpräsentation), 1.-2. Dezember 2013, Haus der Industrie, Wien

Karlic H. Genderaspekte in der Epigenetik; Vortrag im Rahmen der GenderRing Veranstaltung, 4. März 2014

Karlic H. Umwelt, Ernährung und Lebensstil steuern Gene. Vortrag im Rahmen der “Langen Nacht der Kirchen” am 23. Mai 2014 in der Markuskirche (Thaliastrasse 156, 1160 Wien)

Karlic H. Bedeutung von Genen und Genderaspekten in der Evolution von Krebsstammzellen; Vortrag im Rahmen der GenderRing Veranstaltung, Oktober 2014

Karlic, H., Neidhardt, D., Haider, F., Spitzer, S., Varga, F. The antiproliferative effect of simvastatin is associated with epigenetic mechanisms in neoplastic mast cells. Abstract for ePoster at the 20th Congress of the European Hematology Association, Vienna, June 11-14, 2015

Karlic, H., Spitzer, S., Celik, J., Varga, F. Do leukemic cells support the osteoblastic niche? Vortrag (Best Abstract) & Poster bei OeGHO Frühjahrstagung 17.-19. März 2016; publiziert in Memo Suppl1/16, p.S18
