

SHORT NOTE

New depositories for holotypes of coll. G. Wewalka (Coleoptera: Dytiscidae, Noteridae)

In December 2020, Dr. Günther Wewalka (Vienna, Austria) has transferred the holotypes (Coleoptera: Dytiscidae, Noteridae) of his private collection (CGW) to the Natural History Museum Vienna, Austria (NMW) (27 specimens) and the Hungarian Natural History Museum, Budapest, Hungary (HNHM) (1 specimen).

All 28 holotypes are listed below, together with information on their original combination, type localities, synonymy, and final depository.

Dytiscidae

- | | | |
|--|------------------|------|
| 1) <i>Bidessus anaticus anaticus</i> WEWALKA, 1971 | Turkey | NMW |
| 2) <i>Bidessus anaticus kadmos</i> WEWALKA, 1989 | Israel | NMW |
