|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------|
| FRÜND, H.-C., J.GRABO, H.-D.REINKE, H.-B.SCHIKORA & W.SCHULTZ: Checklist of the spiders (Araneae) of North-West-Germany                                                                                                                       | 1-46  |
| <b>Short communications</b>                                                                                                                                                                                                                   |       |
| BAUCHHENSSE, E.: Records of <i>Euophrys milleri</i> in Germany (Araneae: Salticidae)                                                                                                                                                          | 47-48 |
| BRAUNSTEIN, W.: First record of <i>Segestria florentina</i> for Germany (Araneae: Segestriidae)                                                                                                                                               | 49-50 |
| BRUHN, K., P.SACHER & H.KORGE: Records of <i>Thanatus vulgaris</i> from Germany (Araneae: Philodromidae)                                                                                                                                      | 51-52 |
| HARMS, K.H.: A record of <i>Talavera inopinata</i> in Germany (Araneae, Salticidae)                                                                                                                                                           | 53    |
| KILCHLING, K.: First record of <i>Episinus maculipes</i> in Germany (Araneae: Theridiidae)                                                                                                                                                    | 54-55 |
| KLOID, P.: First record of <i>Theridion hannoniae</i> for Germany (Araneae: Theridiidae)                                                                                                                                                      | 56-57 |
| MALTEN, A.: Five spider species new to Germany - <i>Lepthyphantes midas</i> , <i>Neriene furtiva</i> , <i>Hahnina petrobia</i> , <i>Clubiona leucaspis</i> , <i>Diaea pictilis</i> (Araneae: Linyphiidae, Hahniidae, Clubionidae, Thomisidae) | 58-62 |
| SCHIKORA, H.-B.: <i>Entelecara omissa</i> new to Germany (Araneae: Linyphiidae)                                                                                                                                                               | 63-64 |
| SCHMIDT, G.: <i>Caracladus avicula</i> and <i>Erigone tirolensis</i> new to Germany (Araneae: Linyphiidae)                                                                                                                                    | 65-66 |
| STUMPF, H.: <i>Linyphia alpicola</i> in Germany (Araneae: Linyphiidae)                                                                                                                                                                        | 67-68 |
| WUNDERLICH, J.: <i>Micaria albimana</i> - First record for Germany (Araneae: Gnaphosidae)                                                                                                                                                     | 69-70 |
| BLICK, T. & K.HAMMELBACHER: <i>Paranemastoma bicuspidatum</i> , another alpine harvestman in the German alps (Opiliona, Nemastomatidae)                                                                                                       | 71-72 |
| BLISS, P.: <i>Nelima gothica</i> - new to German harvestman fauna (Opiliones: Phalangidae)                                                                                                                                                    | 73-74 |
| DROGLA, R. & K.LIPPOLD: New records of pseudoscorpions in the new federal states of Germany (Arachnida: Pseudoscorpiones)                                                                                                                     | 75-76 |
| DIMITROV, D.: A record of <i>Achaeearanea tabulata</i> from the Balkan Peninsula (Araneae: Theridiidae)                                                                                                                                       | 77-79 |
| <b>Diversa</b>                                                                                                                                                                                                                                | 80    |
