

BRAUERIA (Linz am See, Austria) 38:11 (2011)

**New names for homonyms in the genus *Ecnomus***  
**MCLACHLAN, 1864 (Trichoptera: Ecnomidae)**

Kjell Arne JOHANSON

**Abstract.** The following new replacement names for homonyms in the genus *Ecnomus* MCLACHLAN are proposed: *Ecnomus tugelensis* nom. nov. for *Ecnomus dentatus* Jacquemart, 1963; *Ecnomus jacquemarti* nom. nov. for *Ecnomus ulmeri* (JACQUEMART, 1961).

**Introduction**

In a recent publication (JOHANSON & ESPELAND, 2010), the genus name *Psychomyiellodes* MOSELY, 1931 was synonymised with *Ecnomus* MCLACHLAN, 1864, resulting in two junior homonyms, which must be replaced according to Article 60.1 of the International Code of Zoological Nomenclature (1999). Since no valid synonyms are available for the two junior homonyms new replacement names are proposed according to Article 60.3 of the International Code of Zoological Nomenclature (1999). The homonym cases were initially reported to me by personal communication with Dr. J. C. Morse, the editor of the "Trichoptera World Checklist" (MORSE, 2010).

**Replacement names**

*Ecnomus dentatus* JACQUEMART, 1963 from South Africa is a primary junior homonym of *E. dentatus* (KIMMINS, 1957) from Tanzania (Lake Victoria), originally described in the genus *Psychomyiellodes*. *Ecnomus tugelensis nomen novum* is proposed for *E. dentatus* JACQUEMART, 1963. The name is derived from the type locality of the species, Tugela Valley, Natal.

*Ecnomus ulmeri* MOSELY, 1932 from Sierra Leone is a primary junior homonym of *E. ulmeri* (JACQUEMART, 1961) from the Democratic Republic of Congo, originally described in the genus *Psychomyiellodes*. *Ecnomus jacquemarti nomen novum* is proposed for *E. ulmeri* (JACQUEMART, 1961). The name is derived from Dr. Serge Jacquemart, who first named this species.
