

**A Preliminary Annotated Checklist of the
Brahmaeidae of the World – Part VI –
1st Supplement: Updated checklist of the names in
the family Brahmaeidae SWINHOE, 1892
(Lepidoptera)**

Ulrich PAUKSTADT & Laela Hayati PAUKSTADT

Key words: Lepidoptera, Brahmaeidae, *Brahmaea*, *Calliprogonos*, *Dactyloceras*, *Spiramiopsis*, checklist, systematics.

**A Preliminary Annotated Checklist of the
Brahmaeidae of the World – Part VI –
1st Supplement: Updated checklist of the names in
the family Brahmaeidae SWINHOE, 1892
(Lepidoptera)**

Zusammenfassung: Der folgende Beitrag zur Kenntnis der Familie Brahmaeidae SWINHOE, 1892 (Lepidoptera) ist Teil der Serie „*Brahmaeidae of the World*“, die nach Fertigstellung eine möglichst vollständige Übersicht über diese Familie geben sollte. Neue Erkenntnisse und neue Namen wurden eingearbeitet soweit sie bis zur Drucklegung aus der Literatur bekannt und uns zugänglich waren. Auf Grundlage von etwa 400 Einzelpublikationen wurde versucht, eine aktuelle und nahezu vollständige Literaturübersicht über die Familie Brahmaeidae zu erstellen. Der vorliegende 1. Nachtrag von Teil VI dieser Serie befasst sich mit einer korrigierten und vervollständigten Scheckliste der Taxa in den Gattungen *Brahmaea* WALKER, 1855 und *Dactyloceras* MELL in Hering in Seitz, 1927. Diese erste zusammenhängende Analyse der Familie Brahmaeidae soll keine Gattungsrevision darstellen, sondern den heutigen Kenntnisstand aufzeigen und eine gute Arbeitsgrundlage für weitere Studien zur Familie Brahmaeidae SWINHOE, 1892 bieten.

Summary: The following contribution to knowledge the family Brahmaeidae SWINHOE, 1892 (Lepidoptera) is part of the series “*Brahmaeidae of the World*”, which should give a complete overview of this family after completion. New results of studies and new names were incorporated as far as they were known from literature and accessible to us up to the time of printing. On the basis of about 400 individual publications, an attempt was made to create an up-to-date and almost complete overview of the literature on the family Brahmaeidae. The scope made it necessary to subdivide the information into certain subject areas as expediently as possible, which should facilitate subsequent additions or corrections. The 1st Supplement of Part VI of this series deals specifically with a corrected and updated checklist of the taxa in the genera *Brahmaea* WALKER, 1855 and *Dactyloceras* MELL in Hering in Seitz, 1927 of the family Brahmaeidae SWINHOE, 1892. This first coherent analysis of the family Brahmaeidae is not intended to represent a generic revision, but merely to show the current state of knowledge and provide a good working basis for further studies on the family Brahmaeidae SWINHOE, 1892.

Checklist of Brahmaeidae SWINHOE, 1892

Lemonia HÜBNER, [1820] and *Sabalia* WALKER, 1865 are excluded
(1st update including corrections)

Insecta: Lepidoptera: Glossata: Bombycoidea LATREILLE, 1802

Brahmaeidae SWINHOE, 1892

Brahmaeidae HAMPSON, 1893 [“1892”] [junior homonym]

‡Brahamaeidae; Berio (1940: 191) [incorrect subsequent spelling]

‡Brahmaeisae; Hao, Zhang & Yang (1998: 156) [lapsus, incorrect subsequent spelling]

‡*Brahmaida*; Gegechkori & Didmanidze (2015: 83) [lapsus, incorrect subsequent spelling]

Brahmaeinae SAUTER, 1987 [“1986”]; STATUS-; a validly described subfamily; listed for the sake of completeness but excluded here for the time being

Brahmaea WALKER, 1855

***Brahmaea* WALKER, 1855** [List of the Specimens of Lepidopterous Insects in the Collection of the British Museum by Francis Walker, F. L. S. – Part V. Lepidoptera Heterocera. – Printed by Order of the Trustees (London), 977-1257] (without designated type-species); STATUS-; nomenclatural available although no taxon originally included

***Brahmaea* WALKER, 1855** [List of the Specimens of Lepidopterous Insects in the Collection of the British Museum by Francis Walker, F. L. S. – Part VI. Lepidoptera Heterocera. – Printed by Order of the Trustees (London), [1259]-1507]; STATUS-; genus of Brahmaeidae SWINHOE, 1892. Type-species *Bombyx certhia* FABRICIUS, 1793 by subsequent designation by Hampson ([1893]: 29), confirmed by the ICZN, cf. Bulletin of Zoological Nomenclature, 49 (4), December 1992: Opinion 1698

Acanthobrahmaea SAUTER, 1967; STATUS-; junior synonym of *Brahmaea* WALKER, 1855; type-species *Brahmaea europaea* HARTIG, 1963 by original designation

Brachygnatha ZHANG & YANG, 1993; STATUS-; junior synonym of *Brahmaea* WALKER, 1855; type-species *Brachygnatha diastemata* ZHANG & YANG, 1993

‡*Brachygatha*; Wu (2017: 272) [lapsus, incorrect subsequent spelling]

Transbrahmaea ZOLOTUHN, 2016; STATUS-; junior synonym of
Brahmaea WALKER, 1855; type-species *Brahmaea christophi*
 STAUDINGER, 1885 by original designation
Remarks: *B. christophi* was validly described by Staudinger (1879)
