Cricula magnifenestrata elaeziopahangensis BRECHLIN, 2010 correct as *Cricula elaezioborneensis elaeziopahangensis* BRECHLIN, 2010. [lapsus in the German text part only]

To avoid any misunderstandings the corrected and completed systematics in above mentioned taxa of the genus *Cricula* WALKER, 1855 are presently as follows [updated reprint from Paukstadt & Paukstadt (2010)]:

Saturniini-; *magnifenestrata* Naumann & Löffler, 2010; **REMOVAL-FROM-SYNONYMY**; *elaezioborneensis* Brechlin, 2010.

Saturniini-; *elaezioborneensis* Brechlin, 2010; **REMOVAL-FROM-SYNONYMY**; with *magnifenestrata* Naumann & Löffler, 2010.

Saturniini-; *elaezioborneensis* Brechlin, 2010; **SYN-NOV**; *magnifenestrata* Naumann & Löffler, 2010.

Saturniini-; *magnifenestrata* Naumann & Löffler, 2010; **NEW-SYNONYM**; of *elaezioborneensis* Brechlin, 2010.

Saturniini-; *magnifenestrata* Naumann & Löffler, 2010; **REMOVAL-FROM-SYNONYMY**; *elaeziopahangensis* Brechlin, 2010.

Saturniini-; *elaeziopahangensis* Brechlin, 2010; **REMOVAL-FROM-SYNONYMY**; with *magnifenestrata* Naumann & Löffler, 2010; **DOWNGRADED-TO**; *elaezioborneensis elaeziopahangensis* Brechlin, 2010 **stat. nov.**

Saturniini-; *elaezioborneensis elaeziopahangensis* Brechlin, 2010; **REMOVAL-FROM-SYNONYMY**; with *magnifenestrata* Naumann & Löffler, 2010; **DOWNGRADED-FROM**; *elaeziopahangensis* Brechlin, 2010.

Saturniini-; *elaeziopahangensis* Brechlin, 2010; **SYN-NOV**; *magnifenestrata* Naumann & Löffler, 2010.

Saturniini-; *magnifenestrata* Naumann & Löffler, 2010; **NEW-SYNONYM**; of *elaeziopahangensis* Brechlin, 2010 [**Remarks:** *magnifenestrata* was described from Borneo and Peninsular Malaysia, therefore the name *magnifenestrata* is a junior subjective synonym of *elaezioborneensis* and *elaeziopahangensis*].

Remark: our contribution on *C. pelengensis* based on Indonesian taxa; Continental Asian taxa were excluded from reversal of synonymies. Because the synonymies relating to *tonkintrifenstratoidea*, *australovietnama* and *vietnama hunana* should also have been reversed at the same time using the same argumentation, cf. Paukstadt & Paukstadt (2010), we herewith decided to complete the work by formally publishing these three reversals of priority and synonymy. We have to point out that comparisons of DNA barcodes are necessary to determine whether or

not he correct taxa placed into synonymy by Naumann (2010). Presently the appropriate DNA barcodes (of BOLD) are not available for public (under construction). Therefore the synonymies of the taxa below, which were described by Brechlin (2010), Naumann & Löffler (2010) and Löffler & Naumann (2010) are formally reversed without investigation or confirmation of the correctness. Updated preliminary systematics:

- Saturniini-; *aungsansuukyiae* Naumann & Löffler, 2010; **REMOVAL-FROM-SYNONYMY**; *tonkintrifenestratoides* Brechlin, 2010
 Saturniini-; *falcata* Löffler & Naumann in Naumann & Löffler, 2010; **REMOVAL-FROM-SYNONYMY**; *australovietnama* Brechlin, 2010
 Saturniini-; *pseudandrei* Naumann & Löffler, 2010; **REMOVAL-FROM-SYNONYMY**; *vietnama hunana* Brechlin, 2010
 Saturniini-; *aungsansuukyiae* Naumann & Löffler, 2010; **NEW-SYNONYM**; of *tonkintrifenestratoides* Brechlin, 2010
 Saturniini-; *falcata* Löffler & Naumann in Naumann & Löffler, 2010; **NEW-SYNONYM**; of *australovietnama* Brechlin, 2010
 Saturniini-; *pseudandrei* Naumann & Löffler, 2010; **NEW-SYNONYM**; of *vietnama hunana* Brechlin, 2010
