WERNER SCHULZE

Die siebente Zusammenstellung [sechste Zusammenstellung siehe: Mitt. ArbGem. westfäl. Entomol. **20** (2004), S. 39-51] der Bibliographie der europäischen ameisenkundlichen Literatur umfasst fast 200 Zitate aus allen Bereichen der allgemeinen wie der speziellen Entomologie, dem Natur- und Landschaftsschutz sowie der angewandten Entomologie.

Mit dem Dank an einige Entomologen, die mich bei der Zusammenstellung unterstützt haben, verbinde ich wieder die Bitte an die europäischen Ameisenkundler/innen um Hinweise auf eventuelle Ungenauigkeiten und übersehene Publikationen, kritische Anmerkungen, Verbesserungsvorschläge und Unterstützung bei den Bibliographien der folgenden Jahre.
