

## Additions and Corrections

to the Catalogue of the described species of  
**South-American Asilidae**

by S. W. Williston, in the Trans. Ent. Soc. Vol. XVIII, 1891,

by *C. R. Osten Sacken*.

---

The present paper is the result of a collation of Prof. Williston's recently published Catalogue with a manuscript list of all the described exotic diptera, prepared by me about ten years ago. Although the number of corrections which I introduce looks rather formidable, it will be seen that only a small proportion of them can be imputed to my friend's, the author's, remissness. The generic or specific names omitted by him are few, and most of them were published in some inaccessible papers of Rondani. A large number of the minor corrections are more formal than real; they are attempts to introduce more completeness and uniformity in the double references, so often necessary, to the volume of a scientific periodical, and to a separatum of the paper referred to. This concerns especially the works of Rondani and E. Lynch Arribalzaga. I am far from believing that my own corrections are exhaustive,<sup>1)</sup> but at any rate what I offer will contain some useful material for a future revised edition of the Catalogue.

I would recommend that in this future edition, references to periodicals should contain either both date and serial number of the volumes, or the date alone, but never the volume alone, which involves more than one inconvenience.

### I. Omissions and corrections of graver moment.

Page line

- 71 — After *Bathypogon* insert the genus *Astylium* Rondani, N. Ann. etc. di Bologna 1850 (Sep. Osservazioni etc. 23) with the species *A. claviger* Rond. l. c. Sep. p. 23, fig. 8. — Venezuela.

<sup>1)</sup> A portion of E. Lynch Arribalzaga's work I possess in a manuscript copy only.

Page line

- 72 — (at the bottom) after *Scylaticus fulvicornis* insert:  
**Scylaticus distinguendus** E. Lynch A., An. Soc. Cien. Arg. XI, 21 (Sep. 91); Buenos Aires.
- 73 5 Between *Scylaticus rubripes* and *tricolor* insert;  
**Scylaticus ruficauda** Bigot, Ann. S. E. Fr. 1878, 435. — Amazon River.
- 75 9 (from bottom) *Blepharepium*. O. Sacken has shown in the Biol. Cent. Am. p. 172 that the genus *Planetolestes* Lynch, in spite of the authors own opinion, is not the same as *Blepharepium*, but a well grounded genus, represented by *Dasyopogon secabilis* Walker and Bellardi.
- 75 14 *Deromyia*. It is to be regretted that Prof. Williston persists in calling this genus *Deromyia* instead of *Diogmites*. The reasons he alleges are irrelevant. He says (Psyche, 1889, p. 256): „Philippi's description was as good as Loew's and a year earlier" etc. Philippi's description was published in the same year with Loew's, because the volumes of the „Verhandlungen" are issued, not in the year of their date, but always several months later, during the following year. Philippi's description was not as good as Loew's, and anybody who in future will inquire for the characters upon which the genus was founded will go to Loew and not to Philippi. Of the three species which Philippi places in his genus, two probably do not belong to it at all.
- 76 — Among the *Dasyopogons* insert:  
**D. parvus** Rond. N. Ann. di Bologna 1850 (Sep. Osservazioni etc. p. 15). — South America.  
**D. bombimorpha** Rond. N. Ann. di Bologna 1850 (Sep. Osservazioni etc. 14). — South America.  
**D. longiungulatus** Macq. Dipt. Exot. I, 2, 36. — Brazil.  
 NB. This *Dasyopogon* is different from *D. longiungulatus* Macq. D. E. Suppl. IV, 67 which is now placed in the genus *Dicranus*.
- 78 — After *Atomosia pilipes* insert:  
**Atomosia puella** Wied. Auss. Zw. I, 531 (*Laphria*, sine patria) Schiner, Verh. Z. B. Ges. 1866, 706, top of second column; Rondani, in Truqui's Stud. Ent. 61 (Sep. Esame etc. 31). — North-America (Schin.); Brazil (Rond.)

Page line

80 — after *Laphria pusilla* insert:

**Laphria rubescens** Bigot, Ann. Soc. Ent. Fr. 1878, 225. — Colombia.

" 18 after *Lampria bicolor* Wied. insert the synonymy from O. Sack. Catal. N. Am. Dipt. 1878, p. 76:

*Laphria saniosa* Say, J. Ac. Phil. VI, 158;  
Compl. Wr. II, 355. (Walk.)

*Laphria antaea* Walker, List etc. II, 379;  
VII, 527. (O. S.)

*Laphria megacera* Macq. H. Nat. Dipt. I,  
284, 18. (O. S.)

81 — *Lycomyia*. The whole paragraph must be struck out here and transferred to the *Asilina*, in the following shape:

### **Lycomyia**

Bigot, Ann. S. E. Fr. 1857, 288; Gerstäcker's Bericht, 1857, 96.

**Germainii** Bigot, Ann. S. E. Fr. 1857, 290, Tab. VI, f. 3; 1857, 533; 1859, CLXXIX; Philippi, Verh. Z. B. Ges. 1865, 694; Schiner, Verh. Z. B. Ges. 1866, 706; v. d. Wulp, Tijdschr. XXII, Verslag 21. 1879; E. Lynch A., An. Soc. Arg. XIV, 140; Catalogo 145 (Sep. 37). — Chile; Argentine (v. d. W.)

NB. This insect, as the figure shows, and as Gerstäcker pointed out, is an *Asilus*. What can have induced Schiner to place it among the Laphrina? Bigot, in his reply to Gerstäcker, entirely misunderstands his meaning.

82 18-20 (*Bergii*, *Bigotii*, *soccata*) strike these lines out and replace them as follows;

**Bergii** E. Lynch A., An. Soc. Cien. Arg. IX, 257 (Sep. 35) 1880; XV, 10, 1883; Catal. 146 (Sep. 38). — Uruguay, Buenos Aires.

*Mallophora pica* Macq., Dipt. Exot. Suppl. IV, 78. — Mexico [E. Lynch].

**Bigotii** E. Lynch A., Catal. 146 (Sep. 38) 1882; An. Soc. Cien. Arg. XV, 6; 1883. — Buenos Aires.

*Mallophora soccata* E. Lynch A., An. Soc. Cien. Arg. IX, 256 (Sep. 35) 1880 (non *soccata* Thomson!)

Page line

82 27 Insert after *M. ciliata* Wk.**Mallophora cilicrura** Rond., N. Ann. di Bologna 1850 (Sep. Diptera etc. Osculati 14). — Brazil.83 21 After *M. pusilla* Macq., insert.**Mallophora pyrura** Rondani, Archiv. p. l. Zool. III. Modena 1863 (Sep. Diptera Exotica 47). — Patria unknown, but probably S. America." 30 Instead of *Mallophora scopipeda* Rond., and the two following lines, insert:**Mallophora Macquarti** Rondani, N. Ann. di Bologna 1850 (Sep. Diptera etc. Osculati p. 13); Loew in litt. in O. Sacken Catal. Dipt. N. A. 1878, 78; also 233, note 120.*Mallophora scopifer* Macq. (non Wied.) Dipt. Exot. I, 2, 89; Bigot, in Ramon de la Sagra etc., 790.*Mallophora scopipeda* Rond., Archiv. per la Zool. III. Modena 1863 (Sep. Dipt. Exotica 46). — Brazil. Cuba.

NB. Rondani, in proposing the name *scopipeda* in 1863 had forgotten that in 1850 he had already introduced the name *Macquartii* for the same species. And Loew, in proposing in litteris to me the same name *Macquartii*, did not know that Rondani had already proposed the same name for this species. This name being the oldest, must stand first.

" 1 (from bottom) After *M. tricolor* Walk. insert:**Mallophora vegeta** E. Lynch A., An. Soc. Cien. Arg. XIV, 140. — Argentine.85 28 Before *Erax flavidus* Macq. insert:**Erax flavidus** Wied. Auss. Zw. I, 473 (*Asilus*); Schiner, Verh. Z. B. Ges. 1866, 687; 713 (*Erax*); E. Lynch A., An. Soc. Cien. Arg. X, 116 (Sep. 50). — Brazil (Wied.); Buenos Aires; Uruguay (Lynch)." " To *flavidus* Macq. add: E. Lynch A., Catal. 149 has this as a synonym of *E. mellinus* Wied. with a query.90 — before *Ommatius* insert:**Emphysomera**Schiner, Verh. Zool. Bot. Ges. 1866, 665 and 845. **pulchra** Engel, Entom. Nachr. 1885, 145. — Brazil.

90 -- Insert in the genus *Ommatius*:

**Ommatius costatus** Rond., N. Ann. Bologna 1850 (Sep. Osservazioni etc. 26). — Isl. S. Sebastian, Brasil.

**Ommatius orenoquensis** Bigot, Ann. Soc. Ent. Fr. 1876, Bullet. LXXXV. — Guyana.

90 and 91 — Insert the following *Asili*:

**Asilus barbiventris** Rond., N. Ann. Bol. 1850 (Sep. Osservazioni etc. 25). — Isl. S. Sebastian, Brazil.

**Asilus tibialis** Rond., N. Ann. Bol. 1850 (Sep. Osservazioni etc. 25). — Isl. S. Sebastian, Brazil.

**Asilus (?) therevinus** Rond., N. Ann. Bol. 1850 (Sep. Diptera etc. Osculati 15). — Brazil.

91 — At the end of the *Asilina* insert the fourth section of the Asilidae:

#### IV. *Apiocera*.

##### *Apiocera*

**obscura** Philippi, l. c. 703. — Chili.

NB. Besides *Apiocera* this Section IV contains the genus *Rhaphiomidas* O. S. California; compare my „Second Notice“ in the Berl. Ent. Z. 1891.
