

Note on Javan Lepidoptera Rhopalocera.

In vol. XLI of the Berl. Ent. Zeitsch. p. 299 (1896) appears a list of Javan Butterflies collected by Herr H. Fruhstorfer in 1890—93. He has been so good as to send me many species of Butterflies from that island, the names of which I sent him in return, so that to a certain extent I feel myself responsible for the List referred to above. As it contains many names wrongly spelt, which increases the difficulty of workers in identifying the species, I propose to give a list of those that I have noticed to be sincerred. I do not intend to further criticise the paper except to add that the following species have apparently been entered twice in the list under different names:

Melanitis leda Linnaeus and *M. ismene* Cramer.

Ypthima pandocus Moore and *Y. corticaria* Butler.

Neptis columella Cramer and *N. ophiana* Moore.

Neptis soma Moore and *N. nandina* Moore.

Lampides celeno Cramer and *L. aelianus* Fabricius.

Rapala orseis Hewitson and *R. varuna* Horsfield.

Catopsilia pyranthe Linnaeus and *C. chryseis* Drury.

Paduka lebadea Hewitson and *P. glandulosa* Distant.

Chapra brunnea Snellen and *Parnara care* (?) de Nicéville.

Parnara guttatus Bremer & Grey and *P. bada* Moore.

The names which follow are wrongly spelt or are otherwise incorrect:

Euploea (*Selinda*) *mazares* Moore, should be *Euploea* (*Calliploea*) *mazares* Moore.

" (*Calliploea*) *eleusina* Cramer, should be *Euploea* (*Selinda*) *eleusina* Cramer.

" *Penoa eindthoveni* Felder, should be *E. eryndhorii* Felder.

Lethe mekara Fabricius, should be *L. mekara* Moore.

Melanitis syudana Moore, should be *M. suyudana* Moore.

Erites mailura Horsfield, should be *E. medura* Horsfield.

Ypthima nigricaus Snellen, should be *Y. nigricans* Snellen.

Elymninae should be *Elymniinae*.

Charaxes baja Moore, should be *C. baya* Moore.

Gerydus zinkenii Felder, should be *G. zinckenii* Felder.

Megisba malaja Horsfield, should be *M. malaya* Horsfield.

Cyaniris cossoeus de Nicéville, should be *C. cossoea* de Nicéville.

Zizera zaika Trimen, should be *Z. gaika* Trimen.

Catochrysops should be *Catochrysops*.

Tarcus should be *Tarucus*.

Polyommatus baeticus Linnaeus, should be *P. boeticus* Linnaeus.

Curetis malajica Felder, should be *C. malayica* Felder.

Zephyrus absalon Hewitson, should be *Z. absolon* Hewitson.

Tajuria dioeus Hewitson, should be *T. diaeus* Hewitson.

Deudoryx should be *Deudorix*.

Papilio erithonius Doubleday, should be *P. erithonius* Cramer.

" *eurypilus* should be *P. eurypylus*.

Celaenorrhinus should be *Celaenorrhinus*.

Koruthaialos zonites Butler, should be *K. zanites* Butler.

Caprona syrictus Felder, should be *C. syrictus* Felder.

Zographetus salwa de Nicéville, should be *Z. satwa* de Nicéville.

Matapa chalgramu de Nicéville, should be *M. shalgramu* de Nicéville.

Lionel de Nicéville.

Die vorstehend erwähnte und verbesserte Java-Liste wurde während meiner Abwesenheit in Druck gegeben, so dass ich selbst keine Correctur lesen konnte. Herr de Nicéville hatte nun die Freundlichkeit, alle Druckfehler zu corrigiren, und spreche ich ihm hiermit meinen herzlichsten Dank aus. — Bemerkte sei noch, dass übrigens Herr de Nicéville nur die Lycaeniden und Hesperiden zum Teil für mich bestimmt hat, dagegen die Identification der übrigen Tagfalter von mir selbständig angeführt wurde und ich mich dafür auch allein verantwortlich erkläre.
