## Vorbemerkung

Am 20. Januar 1987 erschien das erste Heft von "Botanik und Naturschutz in Hessen" mit insgesamt 60 Seiten Umfang. Mit jeder weiteren Ausgabe wuchs der Umfang und gut 11 Jahre später wurde Heft 10 am 27. Februar 1998 mit bereits 231 Seiten vorgelegt. Der Gesamtumfang der Hefte 1 bis 10 beträgt 1354 Seiten. Die in loser Folge erscheinenden Beihefte - das erste 1988, das bislang letzte 1995 - umfassen sogar 1418 Seiten, wobei allein das als Beiheft 6 veröffentlichte "Namensverzeichnis zur Flora der Farn- und Samenpflanzen Hessens" 476 Seiten ausmacht.

Damit hat die Botanische Vereinigung für Naturschutz in Hessen in nur wenigen Jahren eine umfangreiche Informationssammlung zur Botanik in Hessen zusammengetragen. Um diese Informationsfülle zu erschließen und für Kartierungsprojekte, gebietsbezogene Erhebungen oder Sonstiges verfügbar zu machen, wurde das vorliegende Register erstellt. Es enthält etwa 12350 Einträge mit circa 47000 Verweisen auf Tier- und Pflanzenarten, Pflanzengesellschaften und Fundorte.

Das Beiheft 6 ("Namensverzeichnis zur Flora der Farn- und Samenpflanzen Hessens"), das ein eigenes Artenregister enthält, wurde lediglich im Kapitel 1 (Allgemeiner Teil) berücksichtigt, nicht jedoch im Kapitel 2 (Artenregister).

Zum Artenregister ist anzumerken, daß Synonyme und derzeit gültige Namen je nach Namenswahl durch die Autoren im Artenregister berücksichtigt sind, das heißt einige Arten können unter verschiedenen Namen zu finden sein (zum Beispiel *Helictotrichon* auch unter *Avena* und *Avenochloa*, *Securigera* auch unter *Coronilla*, *Deschampsia* auch unter *Avenella* etc.). Zur Synonymie sei auf Beiheft 6 sowie die Nachträge verwiesen.

Die Einträge erfolgen in der Form **x:y** oder **bx:y**, dabei stehen x und bx für Heft- beziehungsweise Beiheftnummer, und y bezeichnet die Seite. Lediglich die Einträge zu Beiheft 5 können auch **bx:ay** lauten, da hier neben dem Textteil ein 26seitiger Anhang besteht.

Die Beigaben zu den nachfolgend aufgeführten Heften und Beiheften wurden der ersten Erwähnung im Text zugeordnet:
