

BUPRESTIS

A semi-annual newsletter devoted to the dissemination of information about buprestids and students of this group

Dear friends,

This time you will receive BUPRESTIS in the format you know already since long time. Some years ago I started to add the list of new species and taxonomical changes. Now Chuck will do that in an electronic catalogue. He explains his plan in our Forum. I strongly support his plan and I dearly hope you also will support him with your news.

On the other hand I am still interested to get your news and publications. I guess everybody has his own system to remain up-to-date. In Europe (and throughout the world) there are many journals on entomology. To find new papers dealing with buprestids we (Chuck and me) need your help.

Finally I wish you and your families all the very best for Christmas and a Happy New Year.

Cordially yours

Hans

The deadline for the next issue of BUPRESTIS will be 15. July 2011
