

BUPRESTIS

A semi-annual newsletter devoted to the dissemination of information about buprestids and students of this group

Editor: Hans Mühle

Dear friends,

more than half a year is over again. Many thanks to all, who have sent files or copies of their works.

I hope you will be content with the present information. To get the latest news is always better than searching for news! As I know that most of you are still working on some projects I wonder at the lacking questions for needed material or literature or just information.

Your contribution makes BUPRESTIS a newsletter that is worthwhile to read.

For the next issue, please send me your news up to 15 December 2014.

All my very best wishes

Hans
