

# BUPRESTIS

An annual newsletter devoted to the dissemination of information about buprestids and students of this group

Editor: Hans Mühle  
Hochriesweg 14  
D-83131 Nußdorf am Inn

Germany

Dear friends,

First of all I want to thank all colleagues who helped me with information. Without sending me your papers I would not be able to compile the information on new literature and taxonomical acts.

Sadly, colleagues and long-time friends have passed away in this year. I am sure that we will remember them not only for the many works they left us.

There is still no solution how to handle the journal "Procrustomachia". The commission did not decide on this case (Case 3769) yet.

For the next issue, please send me your news up to 1 June 2023.

I wish you and your families a Merry Christmas and a Happy New Year. Let's pray for peace and less violations to the environment.

Hans

## A. RESEARCH ACTIVITIES AND INTERESTS

### B. SPECIES WANTED FOR RESEARCH OR EXCHANGE

Mikuláš PLACHETKA writes: I am especially interested in Oriental and Eastern Palearctic *Anthaxia*.

I am preparing a revision of the *Anthaxia (Haplantaxia) weyersi* - species group, if you have any specimens, I would be obliged if you could lend them to me. (Even determined specimens). Also I would like to see all *Anthaxia (Haplantaxia) aeneocuprea* - species group specimens from Malaysia, W Indonesia and S Thailand - there is high possibility of new species.

I'm also able to determine your Anthaxiini, if you would be interested.

And, last, I'm always interested in exchange of Anthaxiini, I can offer beetles from many families, or even buying them - if there is no other way.

### C. REQUESTS FOR LITERATURE

#### D. FORUM

The well-known South-Tyrolian specialist for Buprestidae, Cerambycidae and other forest insects, Klaus HELLRIGL, passed away 3 September 2021. He was one of the first researchers who compiled a paper on the different host-plants of European buprestids. Furthermore he studied intensively the entomological faune of South-Tyrolia and published a lot of papers and books on it.

&

On 1 January, Domenico GIANASSO passed away. He was an outstanding, successful collector who, despite health handicaps, travelled in many inhospitable, partly unexplored areas of North Africa and the Middle East. His finds were often an essential contribution to the knowledge of these regions.

&

Dave VERITY has left us. North American friends have honoured him in a poignant obituary. I was lucky enough to spend a few days with him in Mexico and to learn a lot about the vegetation of this country from him.

&

And then Svatopluk BÍLÝ passed away. He was a master of his trade, the universally recognised specialist for Anthaxiini. He demonstrated how clear, differentiating keys can be used to process even difficult groups in a comprehensible way. I would be happy if instead of single descriptions, without reference to neighbouring species or keys, this form of taxonomy would find wider application.

All these friends and colleagues have left big gaps, we miss them very much.

### Some addresses of yet unknown authors and address changes:

Sang Jae SUH. School of Applied Biosciences, College of Agricultural and Life Sciences, Kyungpook National University, Daegu 41566, Republic of Korea ([sjsuh@knu.ac.kr](mailto:sjsuh@knu.ac.kr))

## New subgenus and genus

2021

*Coragiguya* Curletti & Brûlé, 2021a: 48      type species: *Coragiguya regalis* Curletti & Brûlé, 2021a  
Curletti & Brûlé, 2021

**Note:** In BUPRESTIS 62 I misspelled the new genus. The correct Name is *Coragiguya*. Please excuse.

## G. Nomenclatural changes

### Synonyma (the second name is the valid one)

2021

*Agrilus globulifrons* Obenberger, 1920:213 = *Agrilus chobauti* Abeille de Perrin 1897:22  
Curletti 2021:172

*Agrilus trinacriae* Obenberger, 1924:52 = not synonym to *Agrilus hyperici* Creutzer 1799:122, but to *Agrilus hypericicola*, Abeille de Perrin 1893:193  
Curletti 2021:172

*Julodis onopordis sommeri* Marseul, 1865:56 (sensu Kubáň 2016) and *Julodis onopordis sommeri* Jaubert, 1858:217 (sensu Bellamy 2008:74) = *Julodis onopordi* (Fabricius 1787:181)  
Aistleitner & Mühle 2021:530

### Correction of a name (lapsus calami, art.35.5.1 and 35.5.2 ICZN)

2022

*Chrysobothris vandenberghaei* Niehuis & Strauss, 2021 instead of the incorrectly written *Chrysobothris vandenbergei* Niehuis & Strauss, 2021a:177  
Niehuis 2022:194

### Status novus (resurrected)

## 2022

- Acmaeodera (Acmaeotethya) pastoralis* Gestro, 1881:651 from being subspecies of *Acmaeodera grata*  
Fåhraeus in Boheman, 1851:309 Prepsl 2022:349
- Acmaeodera (Acmaeotethya) wahlbergii* Fåhraeus, 1851: 310 from being synonym of *Acmaeodera grata*  
Fåhraeus in Boheman, 1851:309 Prepsl 2022:352
- Acmaeodera (Paracmaeodera) saundersii* Waterhouse, 1904: 261 from being subspecies of *Acmaeodera smaragdina* Kerremans, 1892:56 Prepsl 2022:362
- Acmaeodera (Ptychomus) descarpentriesi* Holm, 1978: 126 from being subspecies of *Acmaeodera (Ptychomus) balthasari* Obenberger, 1928:116 Prepsl 2022:366
- Acmaeodera (Ptychomus) surcoufi* (Théry, 1931) from being subspecies of *Acmaeodera (Ptychomus) foudrasi* (Solier, 1928:116) Prepsl 2022:368
- Anthaxia (Melanthaxia) muehlei* Niehuis, 1983:91 from being synonym of *Anthaxia (Melanthaxia) frankenbergeri* Obenberger, 1933:115 Mühle 2022:22

## Status novus (new assignment)

### 2022

- Acmaeodera (Ptychomus) sourcofi woodi* Obenberger, 1928:116 assigned from *Acmaeodera (Ptychomus) foudrasi woodi* Obenberger, 1928 Prepsl 2022:369
