

# Checklist der Rüsselkäfer (Coleoptera, Curculionoidea) Thüringens

Stand: 01.06.1994

LUTZ BEHNE, Eberswalde

Die vorliegende Liste enthält 715 Rüsselkäferarten, die für Thüringen nachgewiesen sind, bzw. deren Nachweis (bei 5 Arten) wahrscheinlich ist. Alle als sicher aufgeführten Arten wurden von L. DIECKMANN und/oder dem Autor überprüft. Die überwiegende Anzahl von Artbelegen befindet sich in der Sammlung des Deutschen Entomologischen Instituts (Eberswalde) oder in der Thüringen Sammlung von O. RAPP (z.Zt. Museum der Natur Gotha). Die Datensammlung erfolgte in Eberswalde. Angaben zu Häufigkeit und Tendenz werden auf dieser Grundlage gegeben.

Aufgrund der andersgearteten Bearbeitung kann kein Vergleich zur Fauna von RAPP (1935) gegeben werden. Es war jedoch möglich, anhand vorliegender Daten Verbreitungssangaben zu den einzelnen Thüringer Regionen zu geben. Die Region Süd (S) umfaßt dabei den ehemaligen DDR-Bezirk Suhl, die Region Ost (E) den Bezirk Gera zuzüglich der Kreise Altenburg und Schmölln und die Region Nord (N) den Bezirk Erfurt einschließlich des Landkreises Artern (Kyffhäuser).

Die erheblichen taxonomischen und systematischen Änderungen dieser Familie (seit dem Bd. 10 und 11 des FREUDE-HARDE-LOHSE) machten es erforderlich, eine etwas vom Stil der anderen Check-listen abweichende Form zu wählen. Synonyme können aus Platzgründen nicht mit aufgeführt werden. Die Systematik folgt LOHSE & LUCHT (1994).

Nr.	Taxon	N	E	S	H	T
	<b>Familie Cimberidae</b>					
1	<i>Cimberis attelaboides</i> (FABRICIUS, 1787)	x	x	x	v	+-
2	<i>Doydirhynchus austriacus</i> (OLIVIER, 1807)	x	x	x	z	+-
	<b>Familie Nemonychidae</b>					
3	<i>Nemonyx lepturoides</i> (FABRICIUS, 1801)	x		x	s	-
	<b>Familie Rhynchitidae</b>					
4	<i>Auletobius sanguisorbae</i> (SCHRANK, 1798)	x			ss	--
5	<i>Pselaphorhynchites nanus</i> (PAYKULL, 1792)	x	x		h	+-
6	<i>Pselaphorhynchites tomentosus</i> (GYLLENHAL, 1839)	x	x	x	h	+-
7	<i>Pselaphorhynchites longiceps</i> (THOMSON, 1888)	x	x		h	+-
8	<i>Lasiorhynchites sericeus</i> (HERBST, 1797)	x	x	x	z	-
9	<i>Lasiorhynchites cavifrons</i> (GYLLENHAL, 1833)	x	x	x	v	+-
10	<i>Lasiorhynchites olivaceus</i> (GYLLENHAL, 1833)	x	x	x	ss	--
11	<i>Lasiorhynchites coeruleocephalus</i> (SCHALLER, 1783)	x	x	x	h	+-

12	Caenorhinus germanicus (HERBST, 1797)	x	x	x	h	+-
13	Caenorhinus aeneovirens (MARSHAM, 1802)	x	x	x	z	-
14	Caenorhinus interpunctatus (STEPHENS, 1831)	x	x	x	v	+-
15	Caenorhinus pauxillus (GERMAR, 1824)	x	x	x	h	+-
16	Caenorhinus aequatus (LINNÉ, 1767)	x	x	x	h	+-
17	Rhynchites pubescens (FABRICIUS, 1775)	x	x		s	-
18	Rhynchites caeruleus (DEGEER, 1775)	x	x	x	v	+-
19	Rhynchites cupreus (LINNÉ, 1758)	x	x	x	v	-
20	Rhynchites aethiops BACH, 1854	x	x	x	z	-
21	Rhynchites auratus (SCOPOLI, 1763)	x	x	x	v	+-
22	Rhynchites bacchus (LINNÉ, 1758)	x	x	x	z	+-
23	Byctiscus betulae (LINNÉ, 1758)	x	x	x	h	+-
24	Byctiscus populi (LINNÉ, 1758)	x	x	x	h	+-
25	Deporaus tristis (FABRICIUS, 1794)	x	x		z	-
26	Deporaus mannerheimii (HUMMEL, 1823)	x	x	x	s	+-
27	Deporaus betulae (LINNÉ, 1758)	x	x	x	h	+-
	<b>Familie Attelabidae</b>					
28	Attelabus nitens (SCOPOLI, 1763)	x	x	x	h	+-
29	Apoderus coryli (LINNÉ, 1758)	x	x	x	h	+-
	<b>Familie Apionidae</b>					
30	Omphalapion laevigatum (PAYKULL, 1792)	x	x	x	s	-
31	Omphalapion buddebergi (BEDEL, 1885)	x	x		ss	--
32	Omphalapion dispar (GERMAR, 1817)	x	x	x	z	+-
33	Omphalapion hookeri (KIRBY, 1808)	x	x	x	h	+-
34	Acanephodus onopordi (KIRBY, 1808)	x	x	x	h	+-
35	Ceratapion penetrans (GERMAR, 1817)	x			z	-
36	Ceratapion basicorne (ILLIGER, 1807)	x			s	+-
37	Ceratapion gibbirostre (GYLLENHAL, 1813)	x	x	x	h	+-
38	Ceratapion armatum (GERSTÄCKER, 1854)	x			ss	?
39	Diplapion confluens (KIRBY, 1808)	x	x	x	h	+-
40	Diplapion stolidum (GERMAR, 1817)	x	x	x	v	+-
41	Diplapion detritum (MULSANT & REY, 1858)	x			s	-
42	Taphrotopium sulcifrons (HERBST, 1797)	x	x		z	?
43	Aspidapion radiolus (MARSHAM, 1802)	x	x	x	h	+-
44	Aspidapion validum (GERMAR, 1817)	x	x		s	?
45	Aspidapion aeneum (FABRICIUS, 1775)	x	x	x	h	+-
46	Melanapion minimum (HERBST, 1797)	x	x	x	v	+-
47	Squamapion elongatum (GERMAR, 1817)	x	x	x	v	+-
48	Squamapion cineraceum (WENCKER, 1864)	x	x		z	-
49	Squamapion flavimanum (GYLLENHAL, 1833)	x			z	-
50	Squamapion vicinum (KIRBY, 1808)	x	x	x	v	+-
51	Squamapion atomarium (KIRBY, 1808)	x	x	x	h	+-

52	Squamapion oblivium (SCHILSKY, 1902)	x			s	-
53	Squamapion hoffmanni (WAGNER, 1930)	x	x		z	?
54	Kalcapion pallipes (KIRBY, 1808)	x	x	x	v	+-
55	Taeniapion urticarium (HERBST, 1784)	x		x	h	+-
56	Taeniapion rufulum (WENCKER, 1864)	x			s	-
57	Pseudapion rufirostre (FABRICIUS, 1775)	x	x	x	h	+-
58	Malvapion malvae (FABRICIUS, 1775)	x		x	s	?
59	Exapion compactum (DESBROCHERS, 1888)	x			s	-
60	Exapion formaneki (WAGNER, 1929)	x	x	x	z	-
61	Exapion difficile (HERBST, 1797)	x	x	x	h	+-
62	Exapion corniculatum (GERMAR, 1817)	x	x		s	?
63	Exapion fuscirostre (FABRICIUS, 1775)	x	x	x	h	+-
64	Pseudoprotapion elegantulum (GERMAR, 1818)	x	x	x	v	+-
65	Pseudoprotapion astragali (PAYKULL, 1800)	x	x	x	h	+-
66	Protapion gracilipes (DIETRICH, 1857)	x	x	x	v	+-
67	Protapion fulvipes (FOURCROY, 1785)	x	x	x	h	+-
68	Protapion nigrirtarse (KIRBY, 1808)	x	x	x	h	+-
69	Protapion filirostre (KIRBY, 1808)	x	x	x	h	+-
70	Protapion trifolii (LINNÉ, 1768)	x	x	x	h	+-
71	Protapion rufircrus (GERMAR, 1817)	x	x		z	?
72	Protapion interjectum (DESBROCHERS, 1895)	x	x	x	z	-
73	Protapion apricans (HERBST, 1797)	x	x	x	h	+-
74	Protapion varipes (GERMAR, 1817)	x	x	x	z	?
75	Protapion assimile (KIRBY, 1808)	x	x	x	h	+-
76	Protapion ononis (GYLLENHAL, 1827)	x		x	h	+-
77	Protapion dissimile (GERMAR, 1817)	x	x		v	+-
78	Phrissotrichum rugicolle (GERMAR, 1817)	x			s	-
79	Helianthemapion aciculare (GERMAR, 1817)	x			s	-
80	Pseudoperapion brevirostre (HERBST, 1797)	x	x		h	+-
81	Pseudostenapion simum (GERMAR, 1817)	x	x	x	h	+-
82	Aizobius sedi (GERMAR, 1818)	x	x	x	v	-
83	Perapion violaceum (KIRBY, 1808)	x	x	x	h	+-
84	Perapion marchicum (HERBST, 1797)	x	x	x	h	+-
85	Perapion affine (KIRBY, 1808)	x	x	x	z	+-
86	Perapion curtiostre (GERMAR, 1817)	x	x	x	h	+-
87	Perapion oblongum (GYLLENHAL, 1839)	x			z	?
88	Apion frumentarium (LINNÉ, 1758)	x	x	x	h	+-
89	Apion haematodes KIRBY, 1808	x	x	x	h	+-
90	Apion cruentatum WALTON, 1844	x	x	x	h	+-
91	Apion rubiginosum GRILL, 1893	x	x	x	h	+-
92	Apion rubens WALTON, 1844	x	x	x	v	+-
93	Catapion seniculus (KIRBY, 1808)	x	x	x	h	+-
94	Catapion koestlini (DIECKMANN, 1989)			x	s	+-
95	Catapion meieri (DESBROCHERS, 1901)	x			v	?

96	Catapion pubescens (KIRBY, 1811)	x	x	x	v	+-
97	Trichapion simile (KIRBY, 1811)	x	x	x	h	+-
98	Stenopterapion intermedium (EPPELSHEIM, 1875)	x	x	x	v	+-
99	Stenopterapion tenue (KIRBY, 1808)	x	x	x	h	+-
100	Stenopterapion meliloti (KIRBY, 1808)	x	x	x	h	+-
101	Ischnopterapion loti (KIRBY, 1808)	x	x	x	h	+-
102	Ischnopterapion modestum (GERMAR, 1894)	x	x	x	v	+-
103	Ischnopterapion virens (HERBST, 1797)	x	x		h	+-
104	Protopirapion atratum (GERMAR, 1817)	x		x	s	?
105	Synapion ebeninum (KIRBY, 1808)	x	x	x	h	+-
106	Holotrichapion ononis (KIRBY, 1808)	x	x	x	h	+-
107	Holotrichapion pisi (FABRICIUS, 1801)	x	x	x	h	+-
108	Holotrichapion aestimatum (FAUST, 1891)	x	x	x	v	+-
109	Holotrichapion aethiops (HERBST, 1797)	x	x	x	h	+-
110	Holotrichapion gracilicolle (GYLLENHAL, 1839)	x			ss	?
111	Hemitrichapion reflexum (GYLLENHAL, 1833)	x	x	x	h	+-
112	Hemitrichapion waltoni (STEPHENS, 1839)	x	x	x	v	-
113	Hemitrichapion lanigerum (GEMMINGER, 1871)	x	x	x	s	-
114	Hemitrichapion pavidum (GERMAR, 1817)	x	x	x	h	+-
115	Pirapion immune (KIRBY, 1808)			x	z	?
116	Mesotrichapion punctirostre (GYLLENHAL, 1839)	x			s	-
117	Cyanapion columbinum (GERMAR, 1817)	x	x	x	h	+-
118	Cyanapion spencii (KIRBY, 1808)	x	x	x	h	+-
119	Cyanapion platalea (GERMAR, 1817)	x	x	x	v	+-
120	Cyanapion afer (GYLLENHAL, 1833)	x	x	x	v	+-
121	Cyanapion gyllenhali (KIRBY, 1808)	x	x	x	v	+-
122	Oxystoma subulatum (KIRBY, 1808)	x	x	x	h	+-
123	Oxystoma opeticum (BACH, 1854)	x	x	x	s	?
124	Oxystoma craccae (LINNÉ, 1767)	x	x	x	h	+-
125	Oxystoma cerdo (GERSTÄCKER, 1854)	x	x	x	h	+-
126	Oxystoma pomonae (FABRICIUS, 1798)	x	x	x	z	-
127	Oxystoma ochropus (GERMAR, 1818)	x	x	x	v	+-
128	Oryxolaenus flavifemoratus (HERBST, 1797)	x	x	x	v	-
129	Eutrichapion viciae (PAYKULL, 1800)	x	x	x	h	+-
130	Eutrichapion ervi (KIRBY, 1808)	x	x	x	h	+-
131	Eutrichapion melancholicum (WENCKER, 1864)	x			s	+-
132	Eutrichapion vorax (HERBST, 1797)	x	x	x	h	+-
133	Eutrichapion punctigerum (PAYKULL, 1792)	x	x	x	s	-
134	Eutrichapion facetum (GYLLENHAL, 1839)	x	x	x	v	-
135	Nanophyes marmoratus (GOEZE, 1777)	x	x	x	h	+-
136	Nanophyes globulus (GERMAR, 1821)	x	x		s	ß
137	Nanomimus hemisphaericus (OLIVIER, 1807)	x			s	?
138	Microon sahlbergi (SAHLBERG, 1835)	x			z	-

	<b>Familie Curculionidae</b>					
139	<i>Otiorhynchus conspersus</i> (HERBST, 1795)	x				ss --
140	<i>Otiorhynchus tristis</i> (SCOPOLI, 1763)	x				z +-
