The Aquatic Insect Research Unit (AIRU) of Chiang Mai University, Thailand, with an updated list of the Trichoptera species of Thailand¹

P. CHANTARAMONGKOL, D. THAPANYA & P. BUNLUE

A b s t r a c t . The Aquatic Insect Research Unit (AIRU) of Chiangmai University (Thailand), which exists since 1987, is presented with their members and the list of theses and dissertations which were made within this unit. The presently known list of Trichoptera species of Thailand is added, which is the result of co-operation of the members of the AIRU.

K e y w o r d s : Aquatic Insect Research Unit (AIRU), Chiangmai University, Thailand, list of theses and dissertations, Trichoptera.

On the occasion of Professor Dr. Hans MALICKY's 75th birthday in 2010, all of us including Assoc. Prof. Dr. Porntip CHANTARAMONGKOL as his first generation student together with another sixteen as his second generation students would like to thank him for his lifetime work on Trichoptera of the world. Congratulations to Prof. Malicky for the achievement on the Atlas of Southeast Asian Trichoptera; the book will be launched in April 2010 from the Biology Department, Faculty of Science, Chiangmai University.

The Aquatic Insect Research Unit (AIRU) has been establishment since 1987 by Porntip Chataramongkol under the Science and Technology Research Institute, Chiangmai University, with the scientific collaboration of Hans Malicky. The main objective of the Unit is to study the diversity of aquatic insects (prior focus on caddisflies of Thailand) and to develop the identification key to species level. This is a basic need for the continuation of ecological work in this region of the world. Here we present a list of the theses by students at the AIRU from 1993 to 2010, together with the portraits of the students.

The members of AIRU, with their present position

Assoc. Prof. Dr. Porntip CHANTARAMONGKOL,
Head of the Research Unit

Univ.-Prof. Dr. Hans MALICKY
Senior Advisor

¹ This paper is dedicated to Prof. Dr. Hans Malicky on the occasion of his 75th birthday.

Dr. Decha THAPANYA,
Chiangmai University (PhD Thesis)

Jirayu NAWVONG
(MSc Thesis)

Pooshewan SURIYAWONG
PhD student (PhD Thesis)

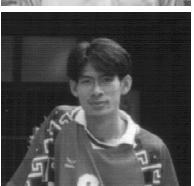

Dr. Pongsak LAUDEE
Prince of Songkla University, Surat Thani Campus (PhD Thesis)

Dr. Penkae THAMSEANUPAP
Mahasarakham University (MSc Thesis, PhD Thesis)

Isara THANI
Mahasarakham University (MSc Thesis)

Somjit SOMPONG
(MSc Thesis)

Nattaporn CHANGTONG
(MSc Thesis)

Dr. Somyot SILALOM, Queen Sirikit Botanic Garden
Mae Rim, Chiangmai (MSc Thesis, PhD Thesis)

Pensri BUNLUE
PhD student (MSc Thesis, PhD Thesis)

Assist. Prof. Dr. Prachuab CHAIBU
Mae Jo University, Chiangmai (PhD Thesis)

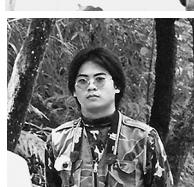

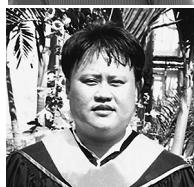

Dr. Siraporn CHEUNBARN
Mae Jo University, Chiangmai (PhD Thesis)

Dr. Artit NUNTAKWANG
Lampang Rajabhat University (MSc Thesis, PhD Thesis)

Thammawat KAEWTAPEE
Chiangmai Rajabhat University (MSc Thesis)

Dr. Taeng-on PROMMI
Kasetsart University, Kamphaeng Saen Campus (MSc Thesis)

Phuwardon CHEUPUDEE
Lampang Rajabhat University (MSc Thesis)

List of students and thesis titles graduated during 1993-2010 supervised by Prof. CHANTARAMONGKOL

PhD theses

- Prachuab CHAIBU, 2000: Potential use of Trichoptera as water pollution biomonitoring in Ping River, Chiangmai.
- Siraporn CHEUNBARN, 2002: Environmental monitoring along the watershed classes of upper Ping watershed by Trichoptera community.
- Pongsak LAUDEE, 2002: Biodiversity of some aquatic insects from Chiang Dao watershed, Chiangmai Province, for environmental bioassessment.
- Decha THAPANYA, 2004: Biodiversity of riparian insects and their conservation in montane Chiangmai, Thailand.
- Penkhae THAMSEANUPAP, 2005: Changes in rheophilic insect communities and trophic relations of selected taxa along an altitudinal gradient in Doi Inthanon and Doi Suthep – Pui National Parks.
- Arthit NUNTAKWANG, 2006: Diversity of Trichoptera from mountain streams of northern Thailand and their connection to biogeographic tracks.
- Somyot SILALOM, 2008: Development of a rapid biological assessment protocol of water quality in the upper sub-watershed of the Ping River as applied to tropical lotic ecosystems.
- Pensri BUNLUE, in progress: The construction of Thai Trichoptera database in biodiversity, biomonitoring and lotic ecosystem conservation perspectives.
- Pooshewan SURIYAWONG: in progress.

MSc theses

- Gotchagorn SANNARM, 1993: Biological surveillance using macroinvertebrate communities of the quality of the Mae Khuang river the Northern Region Industrial Estate.
- Yuphin THUADUM, 1994: Use of macroinvertebrate communities to assess water quality classes in Doi Inthanon streams and Ping River by Biotic and Saprobic indices.
- Parichart TAWEEBURUS, 1994: Biomonitoring techniques to assess water loss at the old Mae Ping dam and water quality of the Mae Ping River.*
- Orapin WATCHAWONG, 1996: Quantitative survey and habitat assessment of macroinvertebrates to assess water quality in running waters.*
- Pattamawadee SUWANRAT, 1996: Qualitative survey of macroinvertebrates in running waters to test rapid bioassessment techniques for water quality.*
- W.A.W.P. GURUGE, 1997: Substrate preferences of macroinvertebrates and use of artificial substrate as a sampling method for water quality assessment.*
- Isara THANI, 1998: Life history of Ugandatrivia maliwan (Trichoptera) and water quality from Mae Klang stream on Doi Inthanon National Park.
- Somjit SOMPONG, 1998: Diversity and life history of caddisflies (*Limnocentropus* spp.) from altitude streams of Doi Inthanon National Park.
- Taeng-on PROMMI, 1999: Diversity and distribution of Trichoptera adults from streams at different altitudes on Doi Suthep – Pui National Park, Chiangmai Province.
- Somyot SILALOM, 2000: Diversity and distribution of Trichoptera larvae in streams at different altitude on Doi Suthep – Pui National Park, Chiangmai Province.
- Penkhae THAMSEANUPAP, 2001: Life history and secondary production of caddisflies (Trichoptera, Calamoceratidae) inhabiting different streams on Doi Suthep – Pui National Park, Chiangmai Province.

* Faculty of Science, International program on ERA (Environmental Risk Assessment for Tropical Ecosystems

- Thammawat KAEWTAPEE, 2001: Biodiversity of Trichoptera in relation to different microhabitats studied by emergence traps.
- Arthit NUNTAKWANG, 2001: Aquatic insect functional feeding groups as indicators of stream ecosystem attributes and water qualities in Doi Suthep – Pui and Doi Inthanon National Parks.
- Jirayu NAWVONG, 2004: Effect of annual discharge on microhabitats and aquatic insect communities in Wiang Ko Sai National Park, Phrae Province.
- Nattaphorn CHANGTHONG, 2005: Spatial and temporal changes of Trichoptera community diversity and water quality from streams in Phu Hin Rongkla National Park.
- Phuwadon CHEPUDEE, 2006: Biodiversity of adult Trichoptera on fringing wetlands in Chiangmai for environmental monitoring.
- Pensri BUNLUE, 2007: Environmental risk assessment using aquatic insects in agricultural impacted streams from Chiang Dao watershed, Chiangmai Province.

**Undergraduated students and special projects (BSc.) supervised by
Prof. CHANTARAMONGKOL**

- Thanyalak LUEWRUNGREUNG, 1998: Use of benthic macroinvertebrates to assess water quality from streams in Chiangmai University.
- Wanyalika KALANETRA, 1999: Aquatic insects as indicator of water quality of streams in Doi Suthep – Pui National Park.
- Arthit NUNTAKWANG, 1999: A graphic key of aquatic insects as bioindicators of water quality.
- Surachart DEENILL, 2003: Comparative of aquatic insects sampling technique using artificial substrate and Surber sampler to assess water quality of streams in Chiangmai University.
- Jaranya CHIANGTA, 2006: Using BOD Sensor to determine the effectiveness of EM in transforming decomposed plants as organic fertilisers.
- Komsan JENCHAT, 2006: Risk assessment expressing from life table of cultured mealworm population with glyphosate contaminated food.
- Nataporn UDONG, 2008: Comparison of the upstream and downstream benthic macroinvertebrate composition from Mae Ngat Sombunchol Dam area.
- Anchana NAKWONG, 2008: Comparison of the upstream and downstream benthic algal composition from Mae Ngat Sombunchol Dam area.

Zusammenfassung

Die Aquatic Insect Research Unit (AIRU) der Universität Chiangmai (Thailand), die seit 1987 besteht, wird mit ihren Mitgliedern und den an ihr verfassten Dissertationen und Diplomarbeiten vorgestellt. Außerdem wird die Liste der derzeit aus Thailand bekannten Trichoptera-Arten angefügt, die in erster Linie auf die Tätigkeit der Mitglieder der AIRU zurückgeht.
