## Additions to the Sciomyzidae of Turkey (Diptera, Sciomyzidae)

Marcel Leclercq & Wolfgang Schacht

### Abstract

The paper deals with additional records of *Sciomyzidae* from Turkey. Two species are new for the fauna of Turkey.

### Zusammenfassung

Die Arbeit verzeichnet weitere Nachweise von *Sciomyzidae* aus der Türkei. Zwei Arten erweisen sich als neu für die Fauna der Türkei.

- 11. *Tetanocera punctifrons* RONDANI, 1868. - Erzurum: Pass W Oltu, 2200m, 6.7.1985, 1♂.

#### **Conclusions**

In a previous work, we have listed 35 species of *Sciomyzidae* occurring in Turkey (LECLERCQ & SCHACHT 1986). 2 species are recorded here for the first time: *Pherbellia nana* (FALLEN, 1820) and *Pherbina intermedia* VERBEKE, 1948. The turkish fauna of *Sciomyzidae* needs yet further investigations.
