

Litteratur.

Apidae Europaeae (die Bienen Europa's) per Genera, Species et Varietates dispositae atque descriptae a Dr. H. L. Otto Schmiedeknecht. Fasc. 9. 1884.

Der soeben ausgegebene 9. Bd. bringt die Fortsetzung der Andrenen, 65 fernere Arten.

Third Report of the United States Entomological Commission relating to the Rocky Mountain Locust, the Western Cricket, the Army Worm, Canker Worms and the Hessian Fly together with descriptions of Larvae of Injurious Forest Insects, Studies on the Embryological Development of the Locust and of other Insects, and on the systematic position in relation to other orders of Insects. With many maps and illustrations. Washington, 1883. 347 + 90 SS: u. den Erklärungen der Tafeln.

Part I. In reference to the Rocky Mountain Locust: Additions to the chronology of Locust ravages in 1880 and 1881. The Rocky Mountain Locust in Montana in 1880. The Rocky Mountain Locust in Wyoming, Montana, etc. in 1881. Notes on other Locusts and the Western Cricket. Data obtained from solar physics and earthquake commotions applied to elucidate Locust multiplication and migration, by A. H. Swinton.

Part II. The Army Worm, Canker Worms and the Hessian Fly.

Part III. Scientific Results: Descriptions of Larvae of injurious Forest Insects. The embryological development of the Locust. The embryological development of Orthopterous Insects. Development of Caloptenus Atlanis. Development of Caloptenus spretus. The development of the bark-boring beetles Hylurgops and Xyleborus. The number of segments in the head of winged Insects.

The systematic position of the Orthoptera in relation to other orders of Insects.

Note on the geographical distribution of the Rocky Mountain Locust, illustrated with a colored zoo-geographical map of North America.

Appendices: Early references to the occurrence of the Hessian Fly in North America. A description of the Rye Gall-Gnat, by Dr. Herman Loew. Observations on the new Crop Gall-Gnat, by Dr. B. Wagner, translated by Carl F. Gissler. — The Hessian Fly in Silesia in 1869, by Prof. Dr. F. Cohn. — Koeppen's account

of the Hessian Fly, by F. T. Koeppen. — The Hessian Fly not imported from Europe, by Dr. H. A. Hagen. — Report on the Rocky Mountain Locust in 1880, by John Marten. — Report of notes made in 1880 by A. J. Chipman. — Miscellaneous Locust notes. — Experience with the Spring Canker Worms, by Martin A. Howell jr.

Bulletino della Società Entomologica Italiana.
