Von "THE HEMIPTERIST, A Journal on the Natural History of the Hemiptera of the British Isles" ist Band 4 jüngst erschienen. Die Bände sind im Internet herunterladbar.

In den Jahren 2003-2013 erschien als Nachfolger des Heteropterist Newsletter die Zeitschrift Het News in 20 Heften. Als sich der Herausgeber zurückzog, übernahmen nach relativ kurzer Pause T. BANTOK und R.P. RYAN die Redaktion und teilten die Zeitschrift in Het News mit Heft 21ff für kleinere Beiträge (wie bisher) und The Hemipterist für größere Arbeiten. Obwohl sich letzterer sehr stark mit der Britischen Wanzenfauna befasst, sind doch immer auch Beiträge darin zu finden, die einen „kontinentalen“ Heteropterologen interessieren dürften. Daher im Folgenden der Inhalt der bisher erschienenen Bände:
