VERBREITUNGSKARTEN ZU P.H. DAVIS

" FLORA OF TURKEY , 9 "

Josef DONNER, Linz

Inhaltsverzeichnis:

	Seite
Einleitung :	... 4
Teil A : Verzeichnis der im Teil B angeführten Gruppen (Gattungen, Familien, etc.)	... 4
Teil B : Verbreitungskarten der Arten	... 7
Literaturverzeichnis :	... 16

Einleitung

Dieser abschließende Teil der Verbreitungskarten behandelt ausschließlich Band 9 (Cyperaceae, Juncaceae, Gramineae) der "Flora of Turkey". Die Verbreitungskarten zu den Bänden 1-8 siehe Linzer Biol. Beiträge 17/1 (Seiten 1-120, 30.9.1985). Der Aufbau ist wieder gleich gehalten und besteht aus dem Familien- und Gattungsverzeichnis (Teil A) und den Verbreitungskarten (Teil B). Die Kennzeichnung in den Verbreitungskarten ist ebenfalls gleich geblieben. Folgende Zeichen wurden benutzt:

-  zitierte Nachweise für die entsprechenden Rasterfelder liegen vor;
-  zitiert nur für die bei DAVIS berücksichtigten Inseln;
-  diese Art ist bisher nur durch den zitierten Beleg bekannt oder ist seit langer Zeit nicht mehr nachgewiesen worden;
-  der Fundort ist nicht eindeutig feststellbar;
-  diese Art ist für die Türkei endemisch;
-  ein Beleg dieser Art befindet sich im Herbarium Dr.SORGER;
-  diese Art kommt in kultivierter Form vor.

A) Verzeichnis der im Teil B angeführten Gruppen (Gattungen, Familien, etc.)
