Errata

Due to a technical fault during the editorial process an error occurred in the following articles printed in Linzer biologische Beiträge **50** (1). In the lists of material of each species studied the symbol "/" used by the author to separate the wording on different labels affixed to specimens were transcribed throughout as ♀. The author and editors regret the resulting confusion and any misunderstanding that may have been caused.

Furthermore by a fault attributable to the author, a printing error has occurred in the article on "New Caledonian *Oedichirus*": the figure of *O. hermani* (Fig. 2h) on page 574 was erroneously reproduced on page 575 over the caption "Fig. 3h, *O. peckorum*".
