## NEWSLETTER OF THE INTERNATIONAL ASSOCIATION OF NEUROPTEROLOGY

---

No. 31

Autumn 2020

### Presentation

Greetings once again to everyone. As you probably know, our International Symposium, planned for 2020 in Brasil, has been postponed due to some troubles caused by Covid 19: hope to have best luck in 2022! As always, thanks to the few neuropterologists who kindly sent contributions, notes, and bibliographic references. Please send all communications concerning Lacewing News to [agostino.letardi@enea.it](mailto:agostino.letardi@enea.it) (Agostino Letardi, photo on the left). Questions about the International Association of Neuropterology may be addressed to our current president, Dr. Xingyue Liu (photo on the right) ([xingyue\\_liu@yahoo.com](mailto:xingyue_liu@yahoo.com)).

From right to left, the IAN president Xingyue Liu and the LN editor Agostino Letardi (photo Rinaldo Nicoli Aldini, in Laufen [DE] 2018)

### Nouvelles frontières

#### Ilhama Gudrat Kerimova

Ph.D. Associate prof.  
Institute of Zoology, National Academy of Sciences of Azerbaijan, Baku  
E-mail: [ilkershah@mail.ru](mailto:ilkershah@mail.ru)

I would like to introduce myself. I am from Azerbaijan and working on the project "Neuroptera (Myrmeleontidae, Ascalaphidae, Mantispidae, Nemopteridae) of Azerbaijan" under the guidance of Dr. V.A.Krivokhatsky. Azerbaijan's nature is represented by rich fauna and flora. Such areas as Nakhchivan, Talysh have endemic and relict fauna and flora representatives. Apart from some scant data,

neuropteran fauna of Azerbaijan can be considered unstudied. Our studies on lacewings of Azerbaijan were started in 2015.

With Dr. V.A. Krivokhatsky in the Zoological Institute, SPb., 2017.

Representatives of all Palearctic subfamilies and tribes were collected, and 6 species are recorded for the first time for the fauna of the republic. Antlion imago and larvae were collected during fieldwork in the different localities of Azerbaijan including Greater Caucasus, Lesser Caucasus, Talysh, Nakhchivan. Together with Dr. V.A. Krivokhatsky we continue to work in the field of taxonomy, ecology, DNA barcoding, and the phylogeny of Azerbaijan lacewings. Some interesting results obtained have been published. A few articles are in print.

I would like to participate in next International Symposium of Neuropterology. It would provide me the opportunity to get to know the neuropterologists from other countries and exchange experience with them introduce colleagues to the neuropteran fauna of Azerbaijan.

---

### From Caleb Califre Martins

Dear all members of Neuropterological studies,

Due to the pandemic situation of Covid-19, particularly in Brazil, which will host the next International Symposium of Neuropterology, we of the organizing committee (with the knowledge and approval of the IAN) decided to postpone the XIV ISN to May 23-28, 2022 for everyone's safety.

We hope you are all safe.

Organizing committee of XIV ISN.
