librorum Entomologicorum in America boreali
editorum.

Auctore Guil. Sharswood.

P r a e f a t i o.

Entomologorum Americae borealis nomina et opera ut enumerarem, praecipue C. A. Dohrni Soc. entom. Sedinensis praesidis, viri clarissimi auctoritate commotus sum, qui me, in opus jam intentum, adhortaretur, ut inchoatum perficerem, se enim sperare, fore ut Entomologi Europae catalogum talem grato animo acciperent.

Quamquam non parvo mihi erat adjumento bibliographia entom. et zool. Viri Illustris Agassiz. tamen multum mihi laboris atque operae supererat, praecipue in libris periodicis accurate pervestigandis. Quum enim in hoc opusculo conscribendo id potissimum mihi spectandum esse videretur, ut, quantum fieri posset, nihil in eo desideraretur, quod Entomologi nostri elaboraverint, tantum abfuit, ut libros periodicos supersedendos putarem, ut saepe ibi optimas observationes inter tot dubiarum et inutilium colluvionem delitescens invenerim.

Ceterum non possum, quin Johanni L. Le Contio et S. S. Haldemanno, viris eruditissimis, amicis amantissimis, quorum ope et auxilio saepe utebar, maximas agam gratias.

Scr. Philadelphiae Cal. Oct.
