

5. südböhmisch - oberösterreichisches Botanikertreffen am
Großglockner
25.-31. Juli 1994

Artenzahl pro Quadrant vor und nach der Exkursion

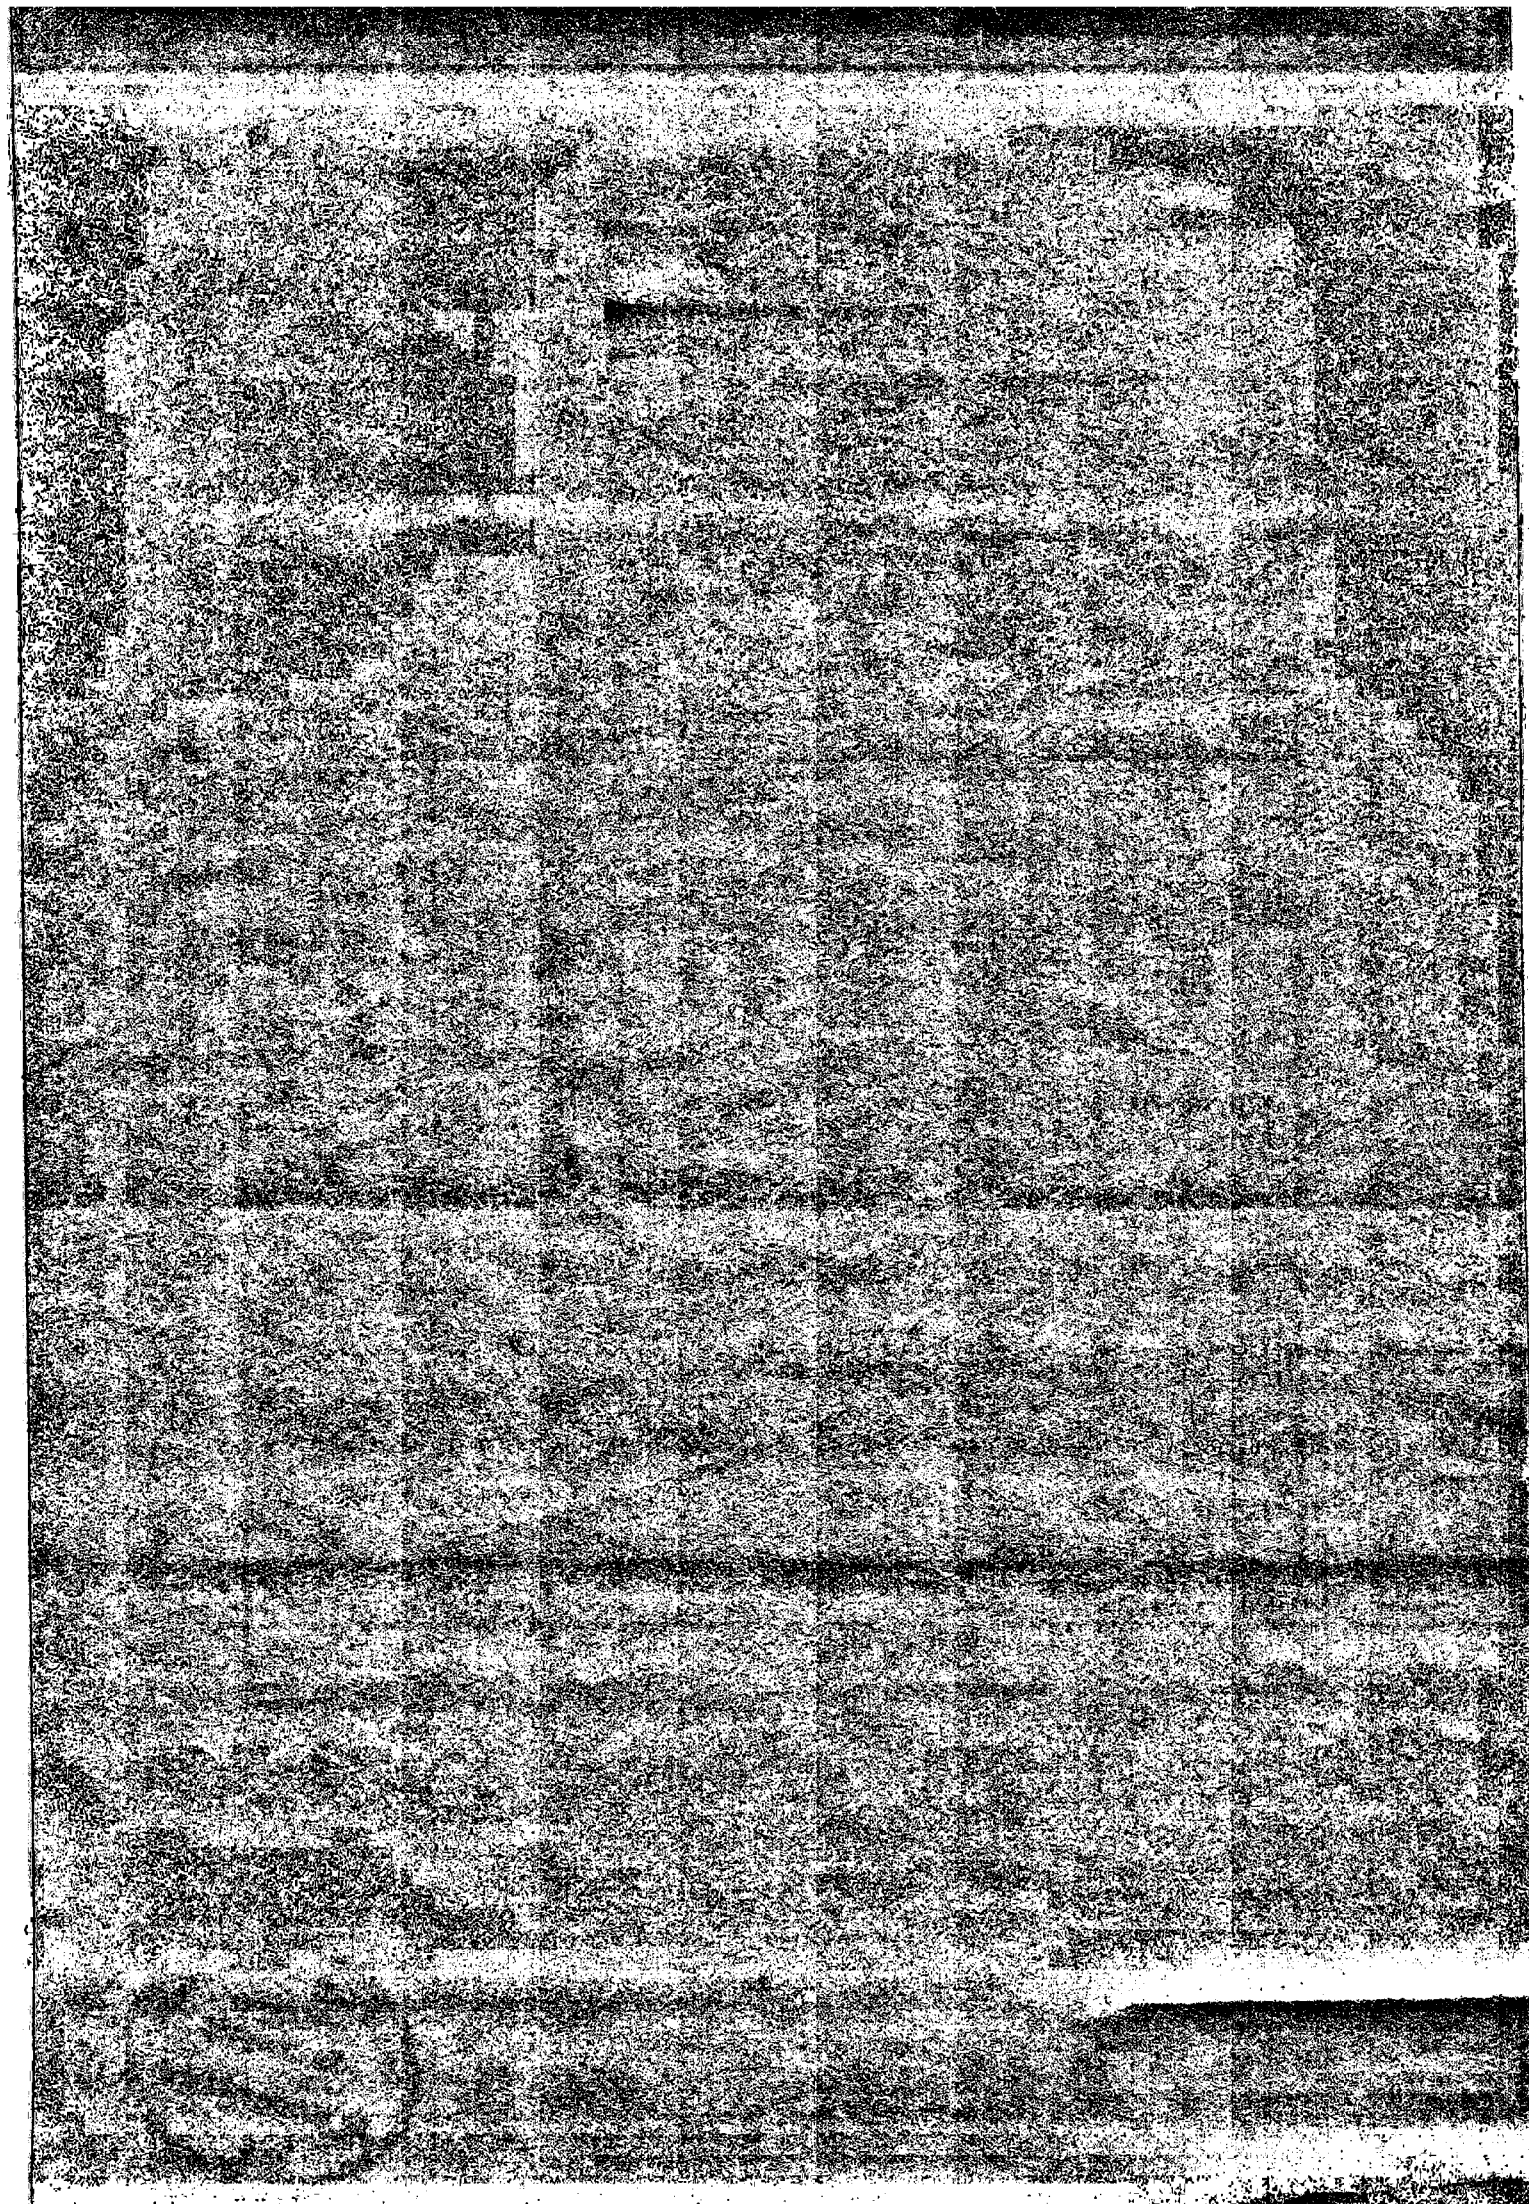

Unterlagen zum Gebrauch der Teilnehmer zusammengestellt von

P. Amand Kraml & Norbert Lindbichler

Ergebnisse eingearbeitet

Kremsmünster, September 1994

Einleitung :

Als Titelblatt dieser Zusammenstellung wurde kein Bild des Exkursionsgebietes gewählt, sondern die Übersicht über den bisherigen Stand der floristischen Kartierung. Es soll dies eine schüchterne Einladung sein, die bisherigen Ergebnisse zu ergänzen. Die vorliegenden Verbreitungskarten wurden aus den beiden Atlanten der Bundesländer Salzburg und Kärnten zusammengesetzt.
