Eingang: 6. xi. 1999

Corrigenda

Correction to: Rob DE VOS & Karel ČERNÝ (1999): A review of the Philippine species of the genus *Nyctemera* HÜBNER, [1820] with descriptions of new species and subspecies (Lepidoptera: Arctiidae, Nyctemeralinae).

In: Nachr. entomol. Ver. Apollo, Frankfurt am Main, N.F. 20 (2): 133–188.

After publishing our above mentioned article, we came across two unfortunate errors in the text.

1. *Nyctemera kishidai* nom. nov., page 175, 3rd paragraph: “Female imago (Fig. 28)”, should read “Female imago” only. The depicted specimen of *kishidai* (in Fig. 28) is a male. The male and female of this species are very much alike, so there is no need for another distinguishing picture.
2. *Nyctemera luzonensis squalida* subsp. nov., page 178, 6th paragraph: “Uncus of the only male available . . .”, should read “Uncus of the only dissected male . . .” There are two males, of which one is the holotype and was used for dissection.

Rob DE VOS, Karel ČERNÝ
