

## Bekanntmachungen.

Als ordentliche Mitglieder sind der Deutschen Ornithologen-Gesellschaft beigetreten:

Herr Freiherr Clamer von Münchhausen in Leitzkau.

» Pastor Gueinzus in Prödel, bei Magdeburg.

» Abbé Caire in Sanières, Dép. des Basses-Alpes.

» Thierarzt G. Oeltjen in Oldenburg.

» Oekonom H. Lübbert in Zweybrodt, in Schlesien.

» Dr. phil. A. Hummel aus Cothen, z. Z. in Liefeland.

» Dr. med. J. Speerschneider in Schlotheim, in Thüringen.

Durch den Tod verlor dieselbe:

Dr. Hugo Sander in Cöthen.

Der Sekretär d. D. O. G.:

**E. Baldamus.**

Für die Bibliothek der Deutschen Ornithologen-Gesellschaft sind eingesandt:

Beiträge zur Fauna des Charkow'schen und der anliegenden Gouvernements. A. Ornithologische Beobachtungen gesammelt auf Reisen im Charkow'schen und in den anliegenden Gouvernements, von Prof. A. Czernay. (Extrait du Bulletin de la Société Impériale des Naturalistes à Moscou. Tom. XXIII.)

Bibliotheca historico-naturalis. 1853. I. II. Göttingen. 8.

Durch Herrn E. A. Zuchold in Leipzig.

**E. Baldamus.**

## Literatur-Nachweise aus dem Gebiete der Ornithologie.

The magazine of natural history, and journal of zoology etc., conducted by Edward Charlesworth. 4 volumes. London: Longman, Brown Green and Longmans 1837—1840. 8. \*)

Vol. I. 1837.

John Gould, „A synopsis of birds of Australia.“ p. 51—52. (Recension.)

\*) Das obige bildet die Fortsetzung von John C. Loudon, Magazine of natural history. 9 volumes. London 1819—36. 8. — Nach dem Erscheinen obiger 4 Bände legte Charlesworth die Redaction nieder. Von da an wurde dafür herausgegeben „Annales and magazine of natural history conducted by Selby, Johnston, Babington, Balfour and Taylor. Davon erscheint jetzt der 7. Band. Ich hoffe von den beiden hier genannten den Inhalt später angeben zu können.

- Woodcock shot in July. p. 52.  
 White Partridge shot. p. 52.  
 The Hedge Coalhood (*Pyrrhula vulgaris*) laying in November. p. 53.  
 Late singing of birds. p. 53.  
 New Tringa, shot near Yarmouth. p. 54.  
 Migrations of swifts. (Cypselus murarius, Temm.) p. 108-110.  
*Edward Moore*, On the birds of Devonshire. p. 113-115.  
*J. D. Hoy*, A notice of the occurrence of two species of the genus *Tringa*, new to the British Islands; with a list of the rarer birds killed in Suffolk, and the adjoining borders of Norfolk and Essex, from the autumn of 1835 to December 1836. p. 115-118.  
 W. L\*. Notice of the breeding of woodcocks in Selkirkshire; with observations upon the habits and manners of the black and red grouse, and carrion crow, in Scotland. p. 118-122.  
 Notes on, and notices of the crossbill (*Loxia curvirostra*, Linn.) p. 164-167.  
 Variation in the plumage of birds. p. 167-168.  
*Edward Moore*, On the passerine birds of Devonshire. p. 176-180.  
*Edward Blyth*, On the habits and peculiarities of the common bottletit or muffin (*Mecistura vagans*, Leach, *Parus caudatus*, of Linnaeus!) p. 199-208. c. fig.  
 Pugnacity of the robin. p. 222-223.  
*E. Moore*, Climbing and gallinaceous birds of Devonshire. p. 227-229.  
*Edward Blyth*, On the reconciliation of certain apparent discrepancies observable in the mode in which the seasonal and progressive changes of colour are effected in the fur of mammalians and feathers of birds; with various observations on moulting. p. 259-263.  
*John Gould*, A synopsis of the birds of Australia. Part. II. p. 270. (Recension.)  
 Natural phenomenon of ventriloquism in a bird. p. 279.  
*Edward Blyth*, On the reconciliation etc. (concluded from p. 263.) p. 300-311.  
*E. Moore*, On the wading birds of Devonshire. p. 319-323.  
*W. Swainson*, Birds of Western Africa. p. 324-330. c. fig. (Recension.)  
*George Fairholme*, Observations on woodcocks and fieldfares breeding in Scotland. p. 337-340.  
*Edward Moore*, On the web-footed birds of Devonshire. p. 360-366.  
 On woodcocks, fieldfares, and redwings building within the British islands. p. 439-441.  
 On certain alleged tokens of affinity which have been held to connect the pigeons with the poultry. p. 442-443.  
 Eagle's nest in loch skene. p. 443-445.  
 Ventriloquism of birds. p. 445.  
*John Gould*, Observations on some species of the genus *Motacilla* of Linnaeus. p. 459-461.  
*Edward Blyth*, Some remarks on the plumage of birds. p. 477-481.  
*George Robert Gray*, Description of a new subgenus, and some remarks on birds belonging to the family *Laniadae*. p. 487-490. c. fig.  
 Notice respecting *Rhea Darwinii* Gould. p. 504.  
*Andrew Smith*, Characters of a new form in the *Fringillidae*; with a description of the only species yet referrible to it. p. 535-536.  
*Edward Blyth*, Notes on the pern, or honey buzzard. p. 536-541.

- Notice respecting a young Cuckoo. p. 554.  
 Redwing's nest near godalming in Surrey. p. 555.  
 Two specimens of the green sandpiper shot in August. p. 555.  
 A. fork-tailed stormy petrel (*Thalassidroma Leachii*). p. 555-556.  
*Richard Chambers*, Observations on the humming-bird. p. 592-596. c. fig.  
 The green Sandpiper. p. 605-606.  
 Change of plumage in the guillemot. p. 607-608.  
 Domestication of grouse (*Lagopus britannicus*). p. 608.  
 Extract from the „Proceedings of the zoological society“ relating to the habits of the *Vultur Aera*. p. 638-641.  
 Wildgeese in Germany. p. 644-645.

## Vol. II. 1838.

### *Charles L. Bonaparte.*

Transmission of experience in birds, in the form of instinctive knowledge. pag. 50-53.

Singular effect supposed to have been caused by change of temperature on small birds. p. 53.

(*Wm. Thompson*) Golden and sea eagle, *Aquila Chrysaetos* and *A. albicilla*. pag. 164.

(—) Bald eagle, *Haliaeetus leucocephalus*, Savig. p. 164-165.

*Charles Lucian Bonaparte*, Prince of Musignano, Observations on the long-tailed Trogon. p. 229-231.

„A geographical and comparative list of the birds of Europe and North America. By *Charles Lucian Bonaparte Prince of Musignano*. Van Voorst, London, 1838.“ p. 237. Recension.

*Edward Blyth*, Outlines of a new arrangement of insessorial birds. p. 256-268.

Capture of the white-tailed eagle (*Falco albicilla*, Penn. Mont., *Haliaeetus albicilla*, Selby), on the Suffolk coast, February 22, 1838. p. 292-293.

Probable cause of the death of parrots, and other birds confined in cages. p. 293-294.

*T. C. Heysham*, Some observations on the habits of the dottrel, (*Charadrius Morinellus*, Linn.) made in Cumberland, during the summer of 1835. p. 294-304.

*Edward Blyth*, Outlines of a new arrangement of insessorial birds. (Continued from p. 268.) p. 314-319.

*John Skaife*, Miscellaneous ornithological notes. p. 331-334.

Woodcocks breeding in Ross-shire. p. 347-348.

*Edward Blyth*, Analytic descriptions of the groups of birds composing the order, *Insessores Heterogenes*. p. 351-361.

„Jardine's naturalist's library. — Ornithology. — *Muscicapidae* or fly-catchers. — By W. Swainson. Lizars, Edinburgh; Highley, London.“ p. 389-390. Recension.

Adult plumage of the female smew. p. 395.

Pomarine Skua. p. 395-396.

Native woodcocks. p. 396.

Plumage of the smew. p. 398.

*Brehm*, Observations on some of the domestic instincts of birds. p. 399-406.

*Edward Blyth*, Analytic descriptions of the groups of birds composing the order *Insessores Heterogenes*. p. 420-426.

*John Skaife*, On the ornithology of Blackburn and the north of Lancashire. p. 426-433.

Plumage of the smew merganser. p. 451.

Plumage of the crossbill. 451-452.

*Freds Mc' Coy*, Remarks on Mr. Eyton's arrangement of the gulls. p. 487-490.

*John Hancock*, Notes on the trumpeter bird, or Waracobi of the Arowahs of Guiana; *Psophia crepitans* of Linnaeus. p. 490-492.

*J. B. Harwey*, Note on birds. p. 512.

*John Skaife*, On the ornithology of Blackburn, and the north of Lancashire. (Continued from p. 433.) p. 524-531.

*Eyton's* arrangement of the gulls. p. 567.

(*Weissenborn*) *Gypaëtos barbatus*. p. 567.

(—) Flight of pigeons. p. 567.

(—) Collecting the nests of the *Hirundo esculenta*. p. 568-569.

*Edward Blyth*, Analytic descriptions of the groups of birds composing the order *Streptitres*. p. 589.

(*E. Moore*) The pied fly-catcher. p. 634.

(—) Northern diver. (*Colymbus glacialis*.) p. 634.

### Vol. III.

*Arthur Strickland*, Upon the claims of the *Ardea alba* — great egret, or white heron, to be considered a British bird. p. 30-32.

*Edward Blyth*, Analytic descriptions of the groups of birds composing the order *Streptitres*. p. 76-84.

(*Joseph Clarke*) Ornithological notes. 99-100.

*W. Bernard Clarke*, Remarks on the red-legged partridge. (*Perdix rubra*, Briss.) p. 142-144.

*W. G. Pelerin*, On the structural differences observable in the *Crania* of the four British species of the genus *Cygnus*. p. 178-180. c. xyl.

(*Weissenborn*) Curious capture of a white-headed eagle. p. 197-198.

(*H. Dugmore*) Capture of an eagle at Swaffham. p. 198.

*H. L. Long*, Notice of the discovery of the nests and eggs of the common crossbill, near Fearnham, Surrey. With additional remarks by Yarrell. p. 236-239.

(*E. Eardly Wilmot*) Breeding of the woodcock in England. p. 255.

(*J. Brown*) Breeding of the crossbill in Gloucestershire. p. 310.

(*H. L. Long*) Breeding of the crossbill in Surrey. p. 311.

(*Jonathan Couch*) King penguin. p. 312.

(*D. W. Mitchell*) Capture of rare birds. p. 467.

(*Edw. Blyth*) On fieldfares breeding within the British islands. p. 467-468.

(—) Observations on the wild fowl in St. James's park. p. 469-471.

(*Joseph Clarke*) Note of *Loxia curvirostra*, Temm. (Cross-bill. p. 565.

### Vol. IV.

(*Charles Prideaux*) Little bustard shot in Devonshire. p. 57.

*T. C. Eyton*, Remarks on the skeletons of the common tame goose, the Chinese goose, and the hybrid between the two. p. 90-92.

(*T. Bell Salter*) Hint to ornithologists. p. 104. — A mode of preparing eggs for collections.

(*Henry Mc Lauchlan*) Hoopoe taken at Fishguard, Pembroke. p. 250.
