## Communication

The Lepidoptera Research Foundation is streamlining its publications organization and will consequently consolidate and discard the printed material it has on hand. All past issues of the JOURNAL OF RESEARCH ON THE LEPIDOPTERA have been ordered into complete sets. These will be offered for sale directly or through booksellers as long as they last. The residue will be largely discarded. Anyone who needs single issues to fill gaps in their libraries must order them prior to April 1, 1990. After that date only complete sets will be left, excepting special single subject issues as "Butterflies of Yosemite", "Butterflies of Staten Island", "Hilltopping", etc.

In keeping with the objectives of the Foundation, and expanding concern with Glasnost in the broadest sense, about forty sets of the JRL, complete except for 1 to 3 limiting issues, will be sent to universities, museums, and other appropriate institutions in countries with soft currencies and that cannot otherwise pay for them. The overseas mailing cost for these gifts cannot be borne by the foundation, however. We are soliciting your tax deductible contribution for this very worthy cause. The cost is about \$ 40.00 per set. The set numbers about 5000 pages and has over 100 color plates. We furthermore solicit inquiry from, or suggestions of, organizations which deserve and would find benefit from availability of this material. For further information, please contact the Lepidoptera Research Foundation, 9620 Heather Road, Beverly Hills, CA 90210, USA. Telephone (213) 274 1052.
