

Short communication — Kurze Mitteilung — En bref

***Noctua janthina* ([DENIS & SCHIFFERMÜLLER]) sensu auctorum
a complex of three species (Lepidoptera : Noctuidae)
Addendum & corrigenda to *Nota lepid.* 14 : 25-40, 1991**

Erik VON MENTZER, Örnstigen 14, S-183 50 Täby, Sweden
Arne MOBERG, Tussmötevägen 128, S-122 41 Enskede, Sweden
Michael FIBIGER, Molbechsalle 49, DK-4180 Sorø, Denmark

The following further available specific name belonging to the complex treated has been found :

Noctua circumspecta DRAPIEZ 1819, *Annls. gén. Sci. phys.* 1 : 383 (Index), 137-138 (description), pl. 8, fig. 8 (not pl. 7, fig. 7 by mistake).
Type locality : "Bruxelles".

The description and the figure correspond perfectly to *Phalaena fimbriaminor* DE VILLERS 1789. The name cannot be identified as was the case with *P. fimbriaminor*.

The occasion is taken to correct some errors in the original publication :

- page 25, lines 3 and 4 from below : for "fasciae" read "fascia".
- page 26, legend to figs 1-3 : the names *N. janthina* ([D. & S.]) and *N. janthe* (BKH.) should be interchanged.
- page 29, line 2 : for ":1, pl. 16" read "1 : pl. 16".
