

Call for cooperation

Wanted : Samples of the leafroller, *Archips podana* Scop., for comparative studies of geographical variation. Each sample should contain > 20 males collected at the same site within a few days. Specimens in any condition are acceptable ; genitalia dissection of all specimens should be allowed. Pheromone traps for the collection of this species in the 1994 season can be sent on request. Livestock from any population will also be most welcome. I would be grateful if anyone who can help by sending/collecting material would contact me at the address below for further information.

Michail Kozlov, Laboratory of Ecological Zoology,
University of Turku, FIN-20500 Turku, Finland.

Butterfly Ecology and Evolution

Researchers are invited to a meeting on the above subject to be held at the Department of Zoology, Stockholm University, 10-12th October 1994. Lectures and poster sessions will cover the following topics :

- 1) Reproductive strategies and mating systems
- 2) Life history adaptations
- 3) Life cycle regulation and plasticity
- 4) Foraging and host plant interactions
- 5) Lycaenid-ant interactions
- 6) Phylogeny of butterflies and phylogenetic approaches to ecology

If you are interested, please contact the meeting organisers :

Bengt Karlsson and Sören Nylin,
Department of Zoology,
Stockholm University,
S-106 91 Stockholm,
Sweden.
