

# Die europäischen Poa-Arten.

Von Victor v. Janka.

1. Spicula solitaria culnum terminans vel spiculae paucissimae in pedicellis brevibus strictis (pedicellis spiculis ipsis brevioribus):  
*Poa Balbisii* Parl.  
 Spiculae numerosiores in pedicellis longioribus 2.
2. Annu a v. biennis; palea inferior obtusa et erosula: *P. annua* L.  
 Perennes; palea inferior plus minus acutata integerrima. 3.
3. Culmi et vaginæ a basi ad apicem usque complanato-compressi subancipites. 4.  
 Culmi vaginiscum teretes vel quandoque basi compressiusculi, sed nunquam ancipites. 7.
4. Herbae robustae bipedales et ultra; folia late linearia sublanceolato-linearia; paniculae patentes v. diffusae, spiculae ovato-lanceolatae, flosculi haud regulariter distichi; palea inferior acuta v. subacuminata. 5.  
 Humilior, gracilis; folia angustiora, panicula erecta subcontracta; spiculae lanceolatae; flosculi subregulariter distichi:  
*P. compressa* L.
5. Folia omnia vel saltem inferiora apice cucullato-constricta. 6.  
 Folia omnia sensim attenuato-acutissima: *P. hybrida* Gaud.
6. Paniculae rami basi brevi tractu nudi; spiculae ovali-oblongae:  
*P. sudetica* Presl.  
 Paniculae rami longissime nudi, apice tantum spiculigeri; spiculae lanceolato-ovatae: *P. remota* Fr.
7. Folia latiuscule linearia, sublineari-lanceolata, plerumque brevia, semper plana. 8.  
 Folia anguste linearia, plana, plicata vel convoluta. 10.
8. Paniculae rami sub-5 semiverticillati; folia elongata culnum subaequantia:  
*P. Bivonae* Parl.  
 Paniculae rami subgemini; folia breviora. 9.
9. Rhizoma breviter repens; folia sensim in mucronem attenuata:  
*P. insularis* Parl.  
 Rhizoma fibrosum caespitosum; folia abtusa abrupte mucronata:  
*P. alpina* L.
10. Glumae late ovales spiculas aequantes. 11.  
 Glumae plus minus angustiores spiculis breviores. 12.
11. Spiculae ovatae; folia anguste linearia: *P. laxa* Haenke.  
 Spiculae lanceolatae; folia subsetacea.  
*P. stenantha* Trin. (*P. subtilis* Schur?)
12. Paniculae rami typice subgemini, rarissime plures. 13.  
 Paniculae rami subquini semiverticillati. 23.
13. Rhizoma repens stoloniferum, stolones elongati; distiche foliati. 14.  
 Rhizoma fibrosum caespitosum. 15.
14. Paniculae rami laeves; folia angustissima: *P. arctica* R. Br.  
 Paniculae ramis rabiunculi v. scabri; folia latiora. *P. cenisia* All.  
*P. media* Schur, *P. psychrophila* B. et H.)

15. Glumae spiculae dimidia breviores. 16.  
     Glumae spiculae dimidiatae superantes. 19.
16. Spiculae 7—9-florae, lanceolatae:                   *P. thessala* B. et O.  
     Spiculae 3—6 florae ovatae v. ovali-oblongae. 17.
17. Paniculae rami tenuissime capillares; gluma inferior 1-nervis. 18.  
     Paniculae rami firmiusculi; gluma utraque 3-nervis:  
         *P. trichopoda* H. et S.
18. Spiculae 4—6-florae; ligula elongata acuta:    *P. minor* Gaud.  
     Spiculae 3-florae; ligula brevis obtusa vel truncata:  
         *P. tremula* Schur. (*P. dolosa* B. et H.?)
19. Gluma utraque 3-nervis; spiculae 2—5 florae. 20.  
     Gluma inferior 1-, superior 3-nervis; spiculae 2 florae.  
         *P. Feratiana* B. et R.
20. Spiculae ovali-lanceolatae; palea inferior obtusa; ligulae inferiores breves truncatae, superior ovalis.     *P. caesia* Sm.  
     Spiculae ovatae; palea infer. acuta; ligulae omnes oblongae acutae. 21.
21. Spiculae compacte 6—10 florae; flosculi arcte imbricati:  
         *P. concinna* Gaud.  
     Spiculae 4—6 florae; flosculi laxiusculi. 22.
22. Folia abrupte obtusiuscula; culmi foliati; ligula oblonga:  
         *P. bulbosa* L.  
     Folia longe acutata; culmi subaphylli; ligula valde elongata:  
         *P. ligulata* Boiss.
23. Ligula absoleta subnulla:                           *P. nemoralis* Ehrh.  
     Ligula semper distincta plus minus protracta. 24.
24. Folia longissima filiformi-convoluta:        *P. setifolia* Zetterst.  
     Folia linearia plana v. carinato-plicata. 25.
25. Folia carinato-plicata; panicula subsecunda contracta; rhizoma repens:                                   *P. aetnensis* Guss.  
     Folia plana; panicula aequalis effusa v. contracta. 26.
26. Folium supremum vagina sua brevius. 27.  
     Folium supremum vagina sua longius:    *P. serotina* Ehrh.
27. Panicula ampla effusa v. diffusa. 28.  
     Panicula tenuis demum contracta:        *P. sterilis* M. et B.
28. Spiculae ovatae; palea inferior exquisite 5-nervis. 29.  
     Spiculae lanceolatae v. ovato-lanceolatae. 31.
29. Ligula brevis truncata. 30.  
     Ligula oblonga, elongata, acuta:            *P. trivialis* L.
30. Glumae paleaeque apice acuminato-incurvae:   *P. costata* Schum.  
     Glumae paleaeque apice haud incurvae:  
         *P. pratensis* L. (*P. attica* B. et H.)
31. Rhizoma repens stoloniferum; spiculae ovato-lanceolatae:  
         *P. silvicola* Guss.  
     Rhizoma fibrosum, caespitosum; spiculae lanceolatae:  
         *P. pannonica* Kerner.

Grosswardein, den 11. November 1864.
