

Fluttering Encounters in the Amazing Archipelago

by Jan Pasternak

A 30 year odyssey of a lepidopterist/naturalist in Papua New Guinea and Indonesia in search to unravel the secrets of mystical Ornithoptera (Birdwings).

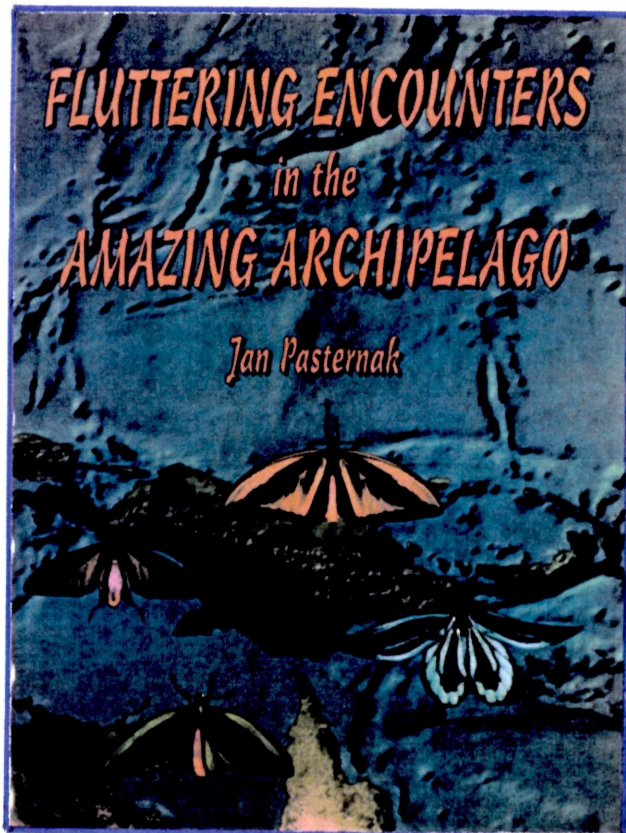

Spectacular photos, field notes and memoirs of epic journey to historic localities tracing footsteps of the legendary naturalists A.R. Wallace, A.S. Meek, Pratt and others. Describes the life histories and habitats of virtually all species of Ornithoptera occurring in Papua New Guinea, Indonesia and Australia. Includes field notes and photos of many other butterflies from the author's 30 years of field studies in this fascinating archipelago.

Published 2000, HC 23x30 cm, 136 pp., 204 colour photos. Not many copies left.

Limited offer at reduced price Euro 60.-, shipping inclusive.

Orders should be addressed to:
