Plate 63 and 165 at the foot of the plate: for Fauna indo-australica place americana.

# Dr. Schlüter & Dr. Mass, Halle on Saale, Germany.

Institute for means of instruction of natural science. Founded in 1853 by Wilhelm Schlüter †.

Speciality of many years standing:

# Entomological and Biological Preparations, Collections, Models and Wall-Pictures

in a first class execution at moderate prices.

Own workshops; managed only by experts.

Head-catalogue No. 260 sh. 2.— postfree (for Institutes uncharged).

# Utensils for Entomologists.

Publishers of the tables of the »German society for applied Entomology« representing the life and the destroying af noxious insects; composed in cooperation with the best German experts.

Prospectus forwarded on application!

O. Staudinger & A. Bang-H Founded in 1858 Dresden-Blasewitz (Saxony). Founded in 1858. Bankers: Deutsche Bank, Dresden-Blasewitz. List of Lepidoptera 58 contains about 29000 species of palearctic and exotic Macrolepidoptera and Microlepidop-tera, prepared larvae, 110 pages in large octavo, with a complete list of genera and authors Price goldmarks 1.50. List of Series XII contains extremely cheap series (lots), single specimens for private collectors, Museums, in the following divisions: I. Palearctic Lepidoptera. II. Exotic Lepidoptera. III. Coleoptera. IV. Different Insects. V. Complete Collections. We negotiate the sale of collections of all kinds of insects and have, within the last years, sold a number of very large collections. VI. Entomological Utensils, Drawers, Cabinets, new and second-hand. VII. Entomological Library, new and second-hand works. List of Coleoptera No. 30 (160 pages in large octavo) with about 30 000 Coleoptera . Price goldmarks 2.50. List VII of Different Insects (76 pages in large octavo) with 3200 Hymenoptera, 2400 Diptera, 2200 Hemiptera, 600 Neuroptera and 1100 Orthoptera Price goldmarks 2.50. We call the specialists' attention to our also being able to supply many single specimens, aberrations etc. not being mentioned in the price-liste, as well as many species from different and interesting habitats. Selections of Exotic and expensive Palearctic Lepidoptera at reduced prices are most willingly sent. Very easy rates of payment. - Monthly instalments. We are always purchasers of original returns from all countries, first class single specimens, collections etc. Purchase. — Sale. — Exchange. The largest and oldest Entomological Establishment in the World
