**Liste neuerdings beschriebener oder
gezogener Parasiten und ihrer Wirte.**

III.

(Fortsetzung.)

Closterocerus ovulorum	Cassida nebulosa	Coelinius gracilis	Tapinostola concolor
— utahensis	Agromyza sp.	— niger	Chlorops taeniatus
— winnemanae	Arge salicis	Coelopisthia nematicida	Lygaeonematus erichsonii
Clutharia agaristae	Agarista glycine	Coelopisthoidea cladiae	Cladius pectinicornis
Coccidencyrtus berlesii	Aphelinus rosae	Collyria calcitrator	Cephus pygmaeus
Coccidoctonus trinidadensis	Pulvinaria pyriformis	Comedo hookeri	Pyrophila pyramidoides
Coccophagus albicoxa	Physokermes insignicola	Comys bicolor	Eulecanium fletcheri
— californicus	Icerya purchasi	— fusca	Lecanium corni
— —	Lecanium armeniacum	— —	Lecanium nigri
— cognatus	Coccus hesperidum	— —	Saissetia hemisphaerica
— —	Eulecanium cerasifex	— —	Eulecanium cerasifex
— —	— fletcheri	— scutellata	— caryae
— —	Saissetia nigra		(Fortsetzung folgt.)
— —	Lecanium persicae		
— flavescens	Saissetia hemisphaerica		
— flavifrons	Lecanium sp.		
— flavoscutellum	Ceroplastes floridensis		
— —	Coccus hesperidum		
— —	Eulecanium cerasifex		
— —	Lecanium tulipifera		
— —	Pulvinaria innumerabilis		
— —	Pseudococcus destructor		
— fletcheri	Eulecanium fletcheri		
— fraternus	Lecanium persicae		
— howardi	Ceroplastes rusci		
— —	Philippia oleae		
— immaculatus	Eriococcus agaleae		
— —	Pulvinaria bigeloviae		
— —	Saissetia hemisphaerica		
— lecanii	Aspidiotus rapax		
— —	Coccus hesperidum		
— —	Eulecanium cerasifex		
— —	— fletcheri		
— —	Lecanium corni		
— —	— persicae		
— —	— prunosum		
— —	— quereifex		
— —	— quereitronis		
— —	— Phenacoccus aceris		
— —	Pulvinaria acericola		
— —	— innumerabilis		
— —	Saissetia hemisphaerica		
— longifasciatus	Lecanium nigra		
— lunulatas	Chrysomphalus aurantii		
— —	Coccus hesperidum		
— —	Saissetia oleae		
— niger	Lichtensia viburni		
— orientalis	Aspidiotus rapax		
— —	Ceroplastes actiniformis		
— —	Coccus viridis		
— —	Pseudococcus longispinus		
— —	Saissetia hemisphaerica		
— —	— oleae		
— —	Kermes nigripunctatus		
— scutatus	Kermes ingripunctatus		
— singuliventris	Lecanium nigrofasciatum		
— subochraceus	— sp.		

I wish to place on record that the types of the following Hymenopterous parasites are in my collection, they were lent to Mr. Cameron for examination and at his death they were handed back to me.

1. *Macrojoppa californica* (Cam.) Soc. entom. 26, p. 35.
2. *Xanthopimpla antherea* (Cam.) Soc. entom. 26, p. 46/7.
3. *Xanthopimpla watsoni* (Cam.) Soc. entom. 26, p. 46/7.
4. *Anomalon pyretorum* (Cam.). The Entomologist 1912, p. 195.

I have also a small form of *Xanthopimpla* which may be either of the two above forms, which I found infesting larvae of the Saturniid moth *Rhodia newara* (Mre.) from Simla India.

J. Henry Watson.

Bibliothek der Societas entomologica.

Von Herrn Dr. E. Wehrli ging als Geschenk ein:
Die Großschmetterlinge von Frauenfeld und der weithurgauischen Umgebung. Beitrag zur Schmetterlingsfauna des Kantons Thurgau.

Autor: Dr. Eugen Wehrli.

Von Herrn F. Bandermann:
Atalanta im Frühjahr!
Massenflug von *Lycaena arcaea* und *euphemus* bei Halle a. Saale.

Lycaena arcaea.
Gelbe Falter von *Pieris brassicae*.
Zur Aberration der *Deilephila euphorbiae* L.
Zur Ueberwinterung von *Pyrameis atalanta*.
Ueberwinterung des Falters und der Puppe von *Pyrameis atalanta* L.

Autor: Franz Bandermann.

Neu eingelaufene Preislisten.

- E. v. Bodemeyer, Berlin W: Liste No. 16 über Palaearktische Coleopteren.
Ernst A. Böttcher, Berlin C 2: Preisliste S. No. 11^a über lebende Schmetterlinge, Puppen, Eier und Raupen.
Hermann Kreye, Hannover: Preisblatt über entomologische Requisitionen.
