

LIST OF RESEARCH WORKERS (contd.)

David DUDGEON Dr., Lecturer in Zoology

Department of Zoology, University of Hong Kong, HONG KONG

Present interests: Ecology of stream and river dwelling Trichoptera in HongKong; ecological studies of fresh waters (lentic and lotic) in HongKong, freshwater macroinvertebrate ecology. Investigation area: Asia.

Willing to identify material for other workers: Yes, Asian material (larvae only).

Information wanted: Any information dealing with Asian Trichoptera (and other freshwater insects).

Other activities and interests: Freshwater molluscs, biology of decomposition, land-water interactive systems.

Sue ELDIN, Miss M.Sc., research (towards Ph.D.)

Dept of Zoology, Chelsea College, University of London, Hortensia Road, London SW10, England.

Present interests: *Agapetus fuscipes*, *Limnephilus lunatus*, *L. extricatus*, *Agraylea multipunctata*, *Hydroptila vectis* and several others. Rearing of Trichoptera, distribution of Trichoptera along a tributary of the River Medway. Investigation area: South-East England (partic. R. Medway, Kent).

Information wanted: Any information on light trap catches/lab rearing of any groups, pollution studies involving caddis.

Other activities and interests: General aquatic entomology, limnology.

Porntip CHANTARAMONGKOL, Miss M.Sc., University lecturer
c/o Biologische Station Lunz, A - 3293 Lunz, Austria.

Present interests: Taxonomy and ecological significance of all groups of caddisflies. Establishing a system of environment indicators (doctoral thesis). Investigation area: Southern Asia.

Material wanted: Any adult caddisflies from Southern Asia, in particular light trap material (including by-catches).

Information wanted: Any information dealing with Trichoptera from Southern Asia.

Other activities and interests: General biology.

Robert W. KELLEY Student, Graduate Research Assistant

Department of Entomology, Fisheries and Wildlife, Clemson University, CLEMSON SC 29631, USA.

Present interests: *Oxyethira* (Hydroptilidae), revision of the genus. Investigation area: Entire world.

Willing to identify material for other workers: YES

Material wanted: Hydroptilidae, esp. from Europe, Asia.

Information wanted: *Oxyethira* distribution records.

Other activities and interests: Spiders, esp. Salticidae. Niche partitioning.

Roland NIEDERER student

Eichenstraße 2, CH - 6015 Reussbühl, Switzerland.

Present interests: Trichoptera from Central and Southern Switzerland, esp. Limnephilidae.

Material wanted: Any Trichoptera from Switzerland.

Roland RIEDERER Dr.

c/o EAWAG, CH - 8600 Dübendorf, Switzerland.

Present interests: Ecology of Trichoptera, distribution in mountain streams, ecology of larvae and adults.

Investigation area: Switzerland.

Information wanted: Papers on Trichoptera, esp. on taxonomy, distribution, ecology; keys to larvae and adults.

Other activities and interests: Ecology of Ephemeroptera, life-histories.

Andrew ROSSITER PhD student

Department of Zoology, The Brambell Laboratories, Bangor, Gwynedd LL57 2UW, Wales, UK.

Present interests: Neureclipsis bimaculata: Life history, net building behaviour, ecology, population dynamics.
Previously studied: Hydropsychid distribution in a river system.
Investigation area: North Wales.

Information wanted: Anything relevant to Neureclipsis, esp. distribution data.

Other activities and interests: Animal behaviour, Mammalian social systems, fish behaviour and learning.

David E. RUITER Aquatic Ecologist

1588 S. Clermont Street, Denver, Colorado, USA 80222.

Present interests: Total Order, with emphasis on Colorado Limnephilidae and Hydroptilidae. Distribution.

Investigation area: Western North America with emphasis on Colorado.

Willing to identify for other workers: Material from Colorado and neighboring States.

Material wanted: Colorado material and/or distribution records, especially museum collections.

Richard B. SHEPARD Dr., Research Scientist

Department of Biology, Idaho State University, Pocatello, ID 83209, USA.

Present interests: All Trichoptera, Ecology (i.e. life histories, feeding habits, distributions). Investigation area: Western North America.

Information wanted: Current taxonomic keys to larvae and nomenclature revisions.

Other activities and interests: Stream ecology in general; detritus processing and macroinvertebrates in particular.

Michael STOLTZE Stud.scient.

Zoological Museum, Dept.of Entomology, Universitetsparken 15,
DK - 2100 København Ø, Denmark.

Present interests: African Trichoptera, esp. Psychomyidae
and Helicopsychidae. Investigation areas: East African moun-
tains; Scandinavia.

Willing to identify for other workers: African Psychomyidae
and Helicopsychidae only.

Material wanted: Psychomyidae and Helicopsychidae from Africa.
Information wanted: Everything concerning African Trichoptera.

Caryn VAUGHN PhD student, Graduate Teaching Assistant
Department of Zoology, University of Oklahoma, Norman OK 73019,
USA

Present interests: Case structure in Helicopsyche. Variation
in case structure as related to abiotic and biotic factors.
Distribution and life history of Helicopsyche. Investigation
area: Central and southwest USA.

Material wanted: Any Helicopsyche would be appreciated.
Information wanted: Any info on Helicopsyche habits, habitat
or unusual case morphologies.

Other activities and interests: Multivariate approaches to
community structure, optimal foraging, general stream ecology.

CHANGE OF ADDRESSES

Claudine SIEGENTHALER
Chemin du Frêne 4
CH - 1004 Lausanne

Dr.Wilfried WICHARD
Siebengebirgsstraße 221
D - 5300 Bonn 3, FRG

Tina Renée WHITE
3211 Wrightsboro Rd.
Apt. R-2
Augusta, GA 30909, USA
