

4TH INTERNATIONAL SYMPOSIUM ON TRICHOPTERA

The tentative program for the Symposium begins at 0900 hrs. on Monday, 11 July 1983. Therefore, Symposium participants may prefer to arrive in Clemson on Sunday, 10 July. A special Wine-and-Cheese Reception is being planned for Monday evening and a traditional "Dixie Barbeque" picnic, sponsored by the Clemson University Entomology Club, is scheduled for Thursday evening. The field trips to the South Carolina mountains and to the Great Smokey Mountains and Cherokee Indian Reservation are tentatively scheduled for Wednesday afternoon and all day Friday, respectively. The meeting will adjourn about 1200 hrs on Saturday.

TRICHOPTERA ART

Participants in the Fourth International Symposium on Trichoptera are invited to submit "artistic" entries (e.g. photographs, drawings, carvings, sculpture) that relate to caddisflies in either or both of the following categories:

- (1) Scientific/Aesthetic
- (2) Humorous.

Entries will be displayed throughout the Symposium, and prizes will be awarded for each category. For photographs and drawings (color or black and white), please use prints that are 20 x 25 cm or larger. All entries are to be brought directly to the Symposium and submitted during the opening day. Please contact Vincent H.RESH (Department of Entomology, University of California, Berkeley, CA 94720, USA) for additional information.

BIBLIOGRAPHY EXCHANGE

It has been suggested that participants in the Fourth International Symposium on Trichoptera may desire to engage in an exchange of bibliographies of their publications concerning Trichoptera. This exchange will help our research efforts in several important ways:

1. To provide a check against omissions from the bibliographies being prepared by L.W.G.HIGLER (for Trichopterorum Catalogus supplements), by A.P.NIMMO (for his topical bibliography), by H.MALICKY (for Trichoptera Newsletter), and by the North American Benthological Society (for annual bibliographies on benthic biology) and other such organizations;
2. To help faster reprint exchanges among trichopterologists internationally; and
3. To help assure accuracy and completeness for literature citations in our future research publications.

Symposium participants and other trichopterologists desiring to take part in the bibliography exchange should send their personal Trichoptera bibliography to me by 31 May 1983. I will then make sufficient photocopies for distribution to all attendees at the Symposium.
