

LIST OF RESEARCH WORKERS ON TRICHOPTERA

Erik PETERSSON; Ph.D.student.

Department of Entomology, University of Uppsala, Box 561,
S - 751 22 UPPSALA, Sweden.

Research work: Mate choice and swarming in Leptoceridae.

Information wanted: Reproductive behaviour in Trichoptera and
biology and taxonomy of Leptoceridae (adults and larvae).

Other interests: Reproductive behaviour in all other insects.

Willing to identify: North European leptocerids.

Kiyoshi SATAKE, Mr., Research worker.

Division of Environmental Biology, National Institute for Environ-
mental Studies, Yatabe, Tsukuba, Ibaraki 305, Japan.

Present interest: All Trichoptera, esp. Hydropsychidae; production.

Trichoptera as nontarget species on blackfly control. Effects of
heavy metals on Trichoptera. Investigation area: Japan.

Information wanted: Production, effects of heavy metals,
effects of insecticides.

Other interests: Running-water ecology, periphyton production,
ecology of aquatic insects.

Philippe STROOT, Biologist, PhD Student, Assistant.

Cabocheerie, 70, B - 7760 Dottignies, Belgique.

Present interests: Distribution and associations of larvae in
running waters. Previously studied: Longitudinal distribution of
caddis larvae in a chalk stream; revision and cartography of
Trichoptera from Belgium (European Invertebrate Survey).

Investigation Area: Western Europe.

Willing to identify for other workers: Material from Belgium
and adjacent areas.

Material and information wanted: Larvae and descriptions of
larvae likely to be found in Belgium.

Other interests: general Hydrobiology, Zoogeography.

Jochen WULFHORST, Dipl.-Biol.

Department of Applied Biology, University of Wales Institute of
Science and Technology, PO Box 13, Cardiff, CF1 3XF, Britain.

Present interests: Influence of sublethal concentrations of
heavy metals on the net-spinning activity of Hydropsyche.

Effects of thermal and organic pollution on field populations
of Trichoptera in rivers.

Geographical investigation area: South Wales (Great Britain;
Northern Hesse (Federal Republic of Germany).

Information wanted: New keys to larvae and adults, papers on
the effects of heavy metals, thermal and organic pollution on
stream dwelling caddisflies.

Other interests: Ecology of other macroinvertebrates (excluding
Diptera) especially their functions as bioindicators.
