Dear Colleague,

The preparations for the 6th International Symposium are in progress. You will soon receive a related invitation from the President of the Łódź University. This official invitation will exempt you and the accompanying persons mentioned in the forms from the otherwise obligatory exchange of money. Keep it and show it at the Polish Embassy and in Poland.

The "Proceedings" of the 6th International Symposium on Trichoptera" will be probably published in Poland, by the Adam Mickiewicz University Press. This arrangement would be the most convenient for us because the Dr. W. Junk Publishers has refused publishing them due to unprofitableness. At the present moment I am still negotiating this matter with the S.P.B. Academic Publishing, but it seems to me that the publication of the volume by this firm would be too expensive, and besides it would entail charging the participants with the expenses. The Adam Mickiewicz University Press will afford possibilities for two proof readings by the authors and will allow the exceeding of the regular limit of six pages of the manuscript. The "Proceedings" will be realized according to the CRC method. The Adam Mickiewicz University Press is also willing to publish the "Proceedings" of the next symposia. I would be very grateful for preparing and, if possible, sending me the proposals concerning the place of organizing of the 7th symposium.

In the following correspondence you will receive further information, concerning, among others, the amount of the registration fee including all expenses of your stay in Poland.

I am looking forward to our meeting in Poland.

Yours sincerely

*Zary Tomaszewski*
