LIST OF RESEARCH WORKERS ON TRICHOPTERA

Kalevi KUUSELA, Dr.; Chief assistant.

Department of Zoology, University of Oulu, Linnanmaa, SF - 90570 OULU. Present interest: Fauna and ecology of hydropsychids, Semblis.

Previously studied: Caddis-flies caught by light-traps; running water benthon in general. Investigation area: Finland.

Material wanted: Semblis phalaenoides.

Information wanted: Semblis phalaenoides: exact mapping of European records, different data of size and flying season and manner (in a sense of how long the orientated flight extents), records of larvae.

Other interests: Hydrobiology in general; Plecoptera and Simuliidae.

Ferdinand C. DE MOOR, Dr.; Curator Freshwater Invertebrates, Head of Dept. Albany Museum, Somerset Street, Grahamstown 6140, South Africa.

Present interest: Leptoceridae, Pisuliidae, Seicostomatidae, Hydropsychidae. Biogeography, Systematics, Ecology, Biology and life history of larval, pupal and adult Trichoptera. Previously studied: Hydropsychidae, Cheumatopsyche spp. - Investigation area: Afrotropical Region.

Willing to identify Trichoptera for other workers: Yes.

Material wanted: Any material larval or adult Trichoptera but particularly Afrotropical species. - Information wanted: Distribution and other data regarding Trichoptera. Habitat type, physico-chemical parameters of environment of larvae and adults. Other interests: Simuliidae, Aquat.insects.
