NOTE. Normally only those papers with at least one species of Trichoptera identified by scientific name, are included in the list. If a paper was not seen by the editor, i.e. if only the reference was available, and in the title only 'macroinvertebrates' or a similar expression is given, the paper will NOT be listed. Authors are requested to indicate clearly in the titles of their papers which animal groups and species are included.

LIST OF RESEARCH WORKERS ON TRICHOPTERA

Jolanda HUISMAN, drs. c/o Rijksmuseum van Natuurlijke Historie, P.O.Box 9517, NL - 2300 RA LEIDEN.
Biologist. Present interest: Trichoptera from SE Asia (Borneo); Philopotamidae. Taxonomy and Biogeography. Investigation area: SE Asia, esp. Sabah. Previously studied: Larvae of *Halesus* spp. from the Netherlands. Willing to identify for other workers: only Trichoptera from SE Asia. Material wanted: Larvae, pupae & adults of Philopotamidae from SE Asia. Information wanted: Literature on Philopotamidae.
