

KEYWORD-REGISTER (Band 1 und 2)

A

abundance 1, 13
acidification 529, 569
 soil - 119, 181
 water - 629
activity 49
adaptative strategies 917
adsorption
 - density 859
 PCP - 167
agricultural
 changes in - land use 375
 - income 403
 intensity of - management 21
agriculture 393, 403, 409
 - and book-keeping of landscape metabolism 417
 conventional - 77
 ecosystems of - 13
 sustainable - 77
agro-ecological
 interdisciplinary - research 67
agro-ecosystem/-s 1, 29, 77
air pollution 119
alder 207
 - forests 347, 353
algae 513
allocation 959
Allochophora
 - *antipai* 21
 - *caliginosa* 21
 - *chlorotica* 21
 - *longa* 21
 - *rosea* 21
Alnus glutinosa 207
aluminium 529
 - toxicity 569
ammonia emission 119
ammonium 181, 369
 - deposition 119
animal
 - community 1
 - dispersal 751
 plant - interaction 127
animals
 soil - 127
annual growth rhythm 951
annuals 429
applicability and development of models 157

aquatic

- macrophytes 487, 537
artificial - ecosystems 579
archipelago 788
arthropods 1
artificial aquatic ecosystems 579
assessment of environmental quality 643
assimilates 777
Aster tripolium 951
atrazine 87, 589
Avena sativa L. 197, 959

B

bacteria 137, 513
barrier 843
bath peat landfills 275
bees
 wild - 339
beetle communities 339
benthon 137
bio-indicator 301
bioindication 265, 339, 537
biogeography
 island - 788
biological pest control 843
biomass 959
 - allocation 917
 microbial - 49
biomonitoring 553, 751
biotic quality 707
biotope
 - connection 871
 - inventory 707
biotopes
 field - 385
Bithynia tentaculata 223
Black Forest 731
bog 285, 333
 peat - regeneration 265
bogs
 pre-alpine - 301, 635
Bornhoeved Lakes 119, 181
boron 927
Bosmina 609
breakdown 201
breeding success 211
bryophytes 529
buffer 755
 - belt 465

- zone 333

C

C- and N-turnover 61
CAD 747
cadmium 973
calcareous grassland 893
canopy structure 189
carabid beetles 325
Carabidae 788
Carex rostrata 275
catchment area 333
changes in agricultural land use 375
chemicals
 organic - 167
chemistry
 groundwater - 181
 hydro - 137, 173
 soil - 41, 441
Cladocera 609
clonal growth 951
CO₂
 intercellular - concentration 967
micromethod of - determination 45
 - respiration 45
Coleopotera 301
Collembola 55, 61
communal surveys 871
communities
 beetle - 339
community 127
animal - 1
 ecologically beneficial - 871
 - grazing 561
 - heterogeneity 127
insect - 429
plant - 429
 - respiration 561
compartment model 797
competition 959
 nutrition/water - 197
competitions
 environmental - 871
complex systems 477
computer simulation 545, 815
conservation 883, 935
 - management 229
nature - 285, 393, 403, 409

- nature - programme 741
soil - 435
soil and water - 81
constancy 833
context 715
control of alien plants 769
conventional agriculture
 77
