Die gegenseitige Begrüßung der Theilnehmer findet Sonntag, den 8. April, Abends im »Hôtel Stachus« am Karlsplatz statt.

Ferner ist festgesetzt:

Montag, den 9. April: Berathung über die eingegangenen Anträge zur Abänderung der Statuten.

Dienstag, den 10. April: Berichte über die Nomenclatur und über die Species Animalium.

2. Zoological Society of London.

6th March, 1894. — The Secretary read a report on the additions that had been made to the Society's Menagerie during the month of February 1894. — Mr. W. Bateson, F.Z.S., exhibited and made remarks on a series of Pilchards, the scales of which presented some remarkable variations. Mr. Bateson also gave an account of an abnormally coloured Brill. — Dr. J. W. Gregory, F.Z.S., gave an account of the factors that appear to have influenced zoological distribution in East Africa, and made some suggestions as to how the present anomalies of animal life in that part of the continent might be accounted for. Dr. Gregory also exhibited and made remarks on a series of lantern-slides illustrative of his recent journey to Mount Kenia. — A communication was read from Prof. F. Jeffrey Bell, F.Z.S., containing an account of examples of three species of River-crab of the genus *Thelphusa* from different districts of East Africa. — Mr. W. H. Adams read some notes on the habits of the Flying Squirrels of the Gold Coast belonging to the genus *Anomalurus*. — Mr. W. Bateson, F.Z.S., gave an account of two cases of colour-variation in Flat-fishes, illustrative of the principles of symmetry. — A communication from Prof. P. R. Uhler, of Vienna, contained an account of the Hemiptera Heteroptera of Grenada, West Indies, based on specimens submitted to his examination by the Committee for the exploration of the West Indies. — A communication was read from Mr. W. Schaus, F.Z.S., containing descriptions of a large number of new species of Moths from Tropical America. — P. L. Sclater, Secretary.
